## **Jerusalem points Beyond Friction And Beyond:**

Jerusalem: Points of Friction - And Beyond Moshe Ma'oz, Sari Nusseibeh, 2021-08-04 The material in this publication was compiled over an 18 month period and includes a variety of local national and international issues and disaggregating Jerusalem's intricate problems. It offers meaningful models that even though they may not yield solutions acceptable to all parties in the Israeli Palestine conflict will at least clearly demarcate common ground and draw the red lines that may not yet be crossed. The result is an enormously valuable resource that cannot fail to attract the attention of anyone concerned with the future of the Mideast region. Governance and Security in Jerusalem Tom Najem, Michael Molloy, Michael Bell, John Bell, 2017-10-05 Governance and Security in Jerusalem is the second in a series of three books which collectively present in detail the work of the Jerusalem Old City Initiative or JOCI, a major Canadian led Track Two diplomatic effort undertaken between 2003 and 2014. The aim of the Initiative was to find sustainable governance solutions for the Old City of Jerusalem, arguably the most sensitive and intractable of the final status issues dividing Palestinians and Israelis. This book presents a collection of studies commissioned by the Initiative in aid of its work on the Special Regime. It is split into three parts. Part I provides background papers on governance and security issues. Part II presents Palestinian and Israeli partner perspectives on governance options for a special regime and the Part III delivers partner perspectives on security studies for a special regime. The studies written by the Israeli and Palestinian partners provide important background and historical context for JOCI's work on security and governance. The position papers presented in their original form greatly influenced the development of the Special Regime governance model. Offering a unique insight on a range of governance and security issues in Jerusalem, this book will be of great significance to the policy making community and students and scholars with an interest in Middle East politics, the Israeli Palestinian conflict and the Middle East peace process. **Palestine Across Millennia** Nur Masalha, 2022-02-24 In this magisterial cultural history of the Palestinians, Nur Masalha illuminates the entire history of Palestinian learning with specific reference to writing, education, literary production and the intellectual revolutions in the country. The book introduces this long cultural heritage to demonstrate that Palestine was not just a holy land for the four monotheistic religions: Islam, Christianity, Judaism and Samaritanism; rather, the country evolved to become a major international site of classical education and knowledge production in multiple languages including Sumerian, Proto-Canaanite, Greek, Syriac, Arabic, Hebrew and Latin. The cultural saturation of the country is found then not solely in landmark mosques, churches and synagogues but in scholarship, historic schools, colleges, famous international libraries and archival centres. This unique book unites these renowned institutions, movements and multiple historical periods for the first time, presenting them as part of a cumulative and incremental intellectual advancement rather than disconnected periods of educational excellence. In doing so, this multifaceted intellectual history transforms the orientations of scholarly research on Palestine and propels current historical knowledge on education and literacy in Palestine to new heights. **Palestine and the Palestinians**

Samih K. Farsoun, 2018-05-04 Palestine and the Palestinians is a sweeping social economic ideological and political history of the Palestinian people from antiquity to the Road Map to Peace This second edition is thoroughly revised and updated including entirely new chapters on the most current issues confronting Palestine today including Palestinians in Israel the Oslo Accords and the Second Intifada Palestinian refugees and the right to return Jerusalem the diplomatic peace process and two state single state solutions      **Between Cultural Diversity and Common Heritage** Silvio Ferrari, Andrea Benzo, 2016-04-15

Going beyond the more usual focus on Jerusalem as a sacred place this book presents legal perspectives on the most important sacred places of the Mediterranean The first part of the book discusses the notion of sacred places in anthropological sociological and legal studies and provides an overview of existing legal approaches to the protection of sacred places in order to develop and define a new legal framework The second part introduces the meaning of sacred places in Jewish Christian and Islamic thought and focuses on the significance and role that sacred places have in the three major monotheistic religions and how best to preserve their religious nature whilst designing a new international statute The final part of the book is a detailed analysis of the legal status of key sacred places and holy cities in the Mediterranean area and identifies a set of legal principles to support a general framework within which specific legal measures can be implemented The book concludes with a useful appendix for the protection of sacred places in the Mediterranean region Including contributions from leading law and religion scholars this interesting book will be valuable to those in the fields of international law as well as religion and heritage studies      *Mapping Israel, Mapping Palestine* Jess Bier, 2017-06-30 Digital practices in social and political landscapes Why two researchers can look at the same feature and see different things Maps are widely believed to be objective and data rich computer made maps are iconic examples of digital knowledge It is often claimed that digital maps and rational boundaries can solve political conflict But in Mapping Israel Mapping Palestine Jess Bier challenges the view that digital maps are universal and value free She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology How can two scientific cartographers look at the same geographic feature and see fundamentally different things In part Bier argues because knowledge about the Israeli military occupation is shaped by the occupation itself Ongoing injustices including checkpoints roadblocks and summary arrests mean that Palestinian and Israeli cartographers have different experiences of the landscape Palestinian forms of empirical knowledge including maps continue to be discounted Bier examines three representative cases of population governance and urban maps She analyzes Israeli population maps from 1967 to 1995 when Palestinian areas were left blank Palestinian state maps of the late 1990s and early 2000s which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps and urban maps after the Second Intifada which show how segregated observers produce dramatically different maps of the same area The geographic production of knowledge including what and who are considered scientifically legitimate can change across space and time Bier argues

that greater attention to these changes and to related issues of power will open up more heterogeneous ways of engaging with the world

mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions **Portable Borders** Ila Nicole Sheren, 2015-08-15 After World War II the concept of borders became unsettled especially after the rise of subaltern and multicultural studies in the 1980s Art at the U S Mexico border came to a turning point at the beginning of that decade with the election of U S President Ronald Reagan Beginning with a political history of the border with an emphasis on the Chicano movement and its art production Ila Sheren explores the forces behind the shift in thinking about the border in the late twentieth century Particularly in the world of visual art borders have come to represent a space of performance rather than a geographical boundary a cultural terrain meant to be negotiated rather than a physical line From 1980 forward Sheren argues the border became portable through performance and conceptual work This dematerialization of the physical border after the 1980s worked in two opposite directions the movement of border thinking to the rest of the world as well as the importation of ideas to the border itself Beginning with site specific conceptual artwork of the 1980s particularly the performances of the Border Art Workshop Taller de Arte Fronterizo Sheren shows how these works reconfigured the border as an active site Sheren moves on to examine artists such as Guillermo Gmez Pe a Coco Fusco and Marcos Ramirez ERRE Although Sheren places emphasis on the Chicano movement and its art production this groundbreaking book suggests possibilities for the expansion of the concept of portability to contemporary art projects beyond the region **Israel Studies**, 2008 Sacred Space in Israel and Palestine Marshall Breger, Yitzhak Reiter, Leonard Hammer, 2013-06-19 Religion and religious nationalism have long played a central role in many ethnic and national conflicts and the importance of religion to national identity means that territorial disputes can often focus on the contestation of holy places and sacred territory Looking at the case of Israel and Palestine this book highlights the nexus between religion and politics through the process of classifying holy places giving them meaning and interpreting their standing in religious and civil law within governmental policy and within international and local communities Written by a team of renowned scholars from within and outside the region this book follows on from Holy Places in the Israeli Palestinian Conflict Confrontation and Co existence to provide an insightful look into the politics of religion and space Examining Jerusalem s holy basin from a variety of perspectives and disciplines it provides unique insights into the way Jewish Christian and Muslim authorities scholars and jurists regard sacred space and the processes grass roots and official by which spaces become holy in the eyes of particular communities Filling an important gap in the literature on Middle East peacemaking the book will be of interest to scholars and students of the Middle East conflict conflict resolution political science urban studies and history of religion *The Global City and the Holy City* Tovi Fenster, 2016-09-17 The Global City the Holy City explores the local embodied knowledge of women and men of different national cultural and ethnic identities and age groups living in London and Jerusalem Their narratives focus on the three main concepts of Comfort Belonging and Commitment to the various spaces in which they live By deconstructing the meanings of these three notions and analyzing their expression in cognitive temporal

maps The Global City The Holy City examines the practicalities of incorporating this kind of local embodied knowledge into the professional planning and management of cities in the age of globalization **The Contest and Control of**

**Jerusalem's Holy Sites** Marshall J. Breger, Leonard M. Hammer, 2023-08-17 The Holy Places of Jerusalem's Old City are among the most contested sites in the world and the ground zero of the Israeli Palestinian conflict Tensions regarding control are rooted in misperceptions over the status of the sites the role of external bodies such as religious organizations and civil society and misunderstanding regarding the political roles of the many actors associated with the sites In this volume Marshall J Breger and Leonard M Hammer clarify a complex and fraught situation by providing insight into the laws and rules pertaining to Jerusalem's holy sites Providing a compendium of important legal sources and broad form policy analysis they show how laws pertaining to Holy Places have been implemented and engaged The book weaves aspects of history politics and religion that have played a role in creation and identification of the law It also offers solutions for solving some of the central challenges related to the creation control and use of Holy Places in Jerusalem **Cross on the Star of David**

Uri Bialer, 2005-10-26 The official establishment of the State of Israel in May 1948 constituted the realization of the Zionist vision but military victory left in its wake internal and external survival issues that would threaten this historic achievement for decades to come The refusal of the international community to recognize the political geographic and demographic results of the War of Independence presented Israel with a permanent regional security threat while isolating and alienating it in the international arena One of the most formidable problems Israeli foreign policy faced was the stance of the Christian world toward the new state Attitudes ranged from hostility and categorical non recognition by the Catholic Church through Protestant ambivalence to Evangelical support Cross on the Star of David presents the first scholarly analysis based on newly declassified documents of Israeli policymaking on this issue Uri Bialer focuses on the impact that modes of thinking rooted in the historical tradition of Jewish Christian interactions had on Israeli policymakers and concludes that they were not innocent of the perceptions and biases that influenced the Christian world's behavior toward Israel The result is a fine grained original interpretation of an important dimension of Israeli foreign policy from the founding of the State to the 1967 War

**Choreographies of Shared Sacred Sites** Elazar Barkan, Karen Barkey, 2014-11-11 This anthology explores the dynamics of shared religious sites in Turkey the Balkans Palestine Israel Cyprus and Algeria indicating where local and national stakeholders maneuver between competition and cooperation coexistence and conflict Contributors probe the notion of coexistence and the logic that underlies centuries of sharing exploring when and why sharing gets interrupted or not by conflict and the policy consequences These essays map the choreographies of shared sacred spaces within the framework of state society relations juxtaposing a site's political and religious features and exploring whether sharing or contestation is primarily religious or politically motivated Although religion and politics are intertwined phenomena the contributors to this volume understand the category of religion and the political as devices meant to distinguish between the theological and

confessional aspects of religion and the political goals of groups Their comparative approach better represents the transition in some cases of sites into places of hatred and violence while in other instances they remain noncontroversial The essays clearly delineate the religious and political factors that contribute to the context and causality of conflict at these sites and draw on history and anthropology to shed light on the often rapid switch from relative tolerance to distress to peace and calm

*Historical Dictionary of the Arab-Israeli Conflict* P R Kumaraswamy, 2015-10-08 Competing Jewish and Arab national claims over the Holy Land form the core of the Arab Israeli conflict thereby transforming it into the most intensely fought struggles in the history of humanity The conflict evokes unparalleled passion and hostility not only among its immediate participants and neighbors but also in the wider international community The involvement of three principal monotheistic religions makes the conflict a truly universal contestation As a result it often contributes to bouts of violence turmoil and terrorism in the Middle East and beyond This second edition of *Historical Dictionary of the Arab Israeli Conflict* covers the history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries important events key personalities official positions of principal states and the UN and other efforts to find a peaceful settlement This book is an excellent access point for students researchers and anyone wanting to know more about this conflict
