Proceedings of the International Conference on Artificial Intelligence and Computer Vision (AICV2020) Aboul-Ella Hassanien, Ahmad Taher Azar, Tarek Gaber, Diego Oliva, Fahmy M. Tolba, 2020-03-23 This book presents the proceedings of the 1st International Conference on Artificial Intelligence and Computer Vision AICV 2020 which took place in Cairo Egypt from April 8 to 10 2020 This international conference which highlighted essential research and developments in the fields of artificial intelligence and computer vision was organized by the Scientific Research Group in Egypt SRGE The book is divided into sections covering the following topics swarm based optimization mining and data analysis deep learning and applications machine learning and applications image processing and computer vision intelligent systems and applications and intelligent networks

Handbook of Research on Intrusion Detection Systems Gupta, Brij B., Srinivasagopalan, Srivathsan, 2020-02-07 Businesses in today's world are adopting technology enabled operating models that aim to improve growth revenue and identify emerging markets However most of these businesses are not suited to defend themselves from the cyber risks that come with these data driven practices To further prevent these threats they need to have a complete understanding of modern network security solutions and the ability to manage address and respond to security breaches The Handbook of Research on Intrusion Detection Systems provides emerging research exploring the theoretical and practical aspects of prominent and effective techniques used to detect and contain breaches within the fields of data science and cybersecurity Featuring coverage on a broad range of topics such as botnet detection cryptography and access control models this book is ideally designed for security analysts scientists researchers programmers developers IT professionals scholars students administrators and faculty members seeking research on current advancements in network security technology

Database and Applications Security Bhavani Thuraisingham, 2005-05-26 This is the first book to provide an in depth coverage of all the developments issues and challenges in secure databases and applications It provides directions for data and application security including securing emerging applications such as bioinformatics stream information processing and peer to peer computing Divided into eight sections

Threat Level Red Michael Erbschloe, 2017-07-06 There is extensive government research on cyber security science technology and applications Much of this research will be transferred to the private sector to aid in product development and the improvement of protective measures against cyber warfare attacks This research is not widely publicized There are initiatives to coordinate these

research efforts but there has never been a published comprehensive analysis of the content and direction of the numerous research programs This book provides private sector developers investors and security planners with insight into the direction of the U S Government research efforts on cybersecurity

Sustainable Information Security in the Age of AI and Green Computing Gupta, Brij B., Pramod, Dhanya, Moslehpour, Massoud, 2025-05-13 The convergence of artificial intelligence AI green computing and information security can create sustainable efficient and secure IT systems That is the latest advancements in leveraging AI may minimize environmental impact optimize resource usage and bolster cybersecurity within green IT frameworks Thus a holistic view of AI can drive sustainable innovation in computing and information systems This is important for raising awareness about the importance of sustainability in the tech industry and promoting the adoption of green computing practices among IT professionals and organizations Sustainable Information Security in the Age of AI and Green Computing contributes to a deeper understanding of the synergies between AI green computing and information security highlighting how these fields can work together to create more sustainable and secure systems By presenting cutting edge research practical solutions and future trends the book inspires new ideas and developments in sustainable IT practices and technologies Covering topics such as digital ecosystems malware detection and carbon emission optimization this book is an excellent resource for IT managers data center operators software developers cybersecurity experts policymakers corporate decision makers professionals researchers scholars academicians and more

Computer Science and Educational Informatization Kun Zhang, Xianhua Song, Mohammad S. Obaidat, Anas Bilal, Jun Hu, Zeguang Lu, 2025-05-14 These two volumes constitute the revised selected papers of the 6th International Conference CSEI 2024 held in Haikou China during November 1 3 2024 The 51 full papers included in these volumes were carefully reviewed and selected from 171 submissions They cover a wide range of areas related to educational information science and technology educational informatization and big data for education innovative application for the deeper integration of education practice and information technology and university engineering education

New Paradigm in Digital Classroom and Smart Learning Maria Virvou, Fred Paas, Srikanta Patnaik, 2025-07-05 New Paradigm in Digital Classroom Smart Learning explores the transformative shifts shaping the future of education in the digital age This volume provides a cutting edge advancement in educational technology fostering innovation in teaching and learning practices It emphasizes the ethical and social implications of digital tools promoting responsible and inclusive approaches to virtual learning communities This volume also explores the most recent innovations and significant developments in the domain of Digital Classroom Smart Learning offering a thorough overview of the current landscape It encompasses various dimensions including Educational Technology Integration and Innovation Ethical and Social Implications of Educational Technology Inclusive and Equitable Practices in Virtual Learning Communities Responsible Technology in Digital Assessment and Feedback By merging theoretical knowledge with practical applications this book empowers educators researchers practitioners and students to navigate and

excel in the evolving landscapes of Digital Classroom Smart Learning with a focus on responsible technology for assessment and feedback the book highlights personalized equitable and efficient solutions for modern educational challenges Serving as a comprehensive guide it empowers educators researchers and students to navigate and survive in the rapidly evolving digital learning ecosystem Data Science with Semantic Technologies Archana Patel,Narayan C. Debnath,2023-06-20 As data is an important asset for any organization it is essential to apply semantic technologies in data science to fulfill the need of any organization This first volume of a two volume handbook set provides a roadmap for new trends and future developments of data science with semantic technologies Data Science with Semantic Technologies New Trends and Future Developments highlights how data science enables the user to create intelligence through these technologies In addition this book offers the answers to various questions such as Can semantic technologies facilitate data science Which type of data science problems can be tackled by semantic technologies How can data scientists benefit from these technologies What is the role of semantic technologies in data science What is the current progress and future of data science with semantic technologies Which types of problems require the immediate attention of the researchers What should be the vision 2030 for data science This volume can serve as an important guide toward applications of data science with semantic technologies for the upcoming generation and thus it is a unique resource for scholars researchers professionals and practitioners in this field

Future of Organizations and Work After the 4th Industrial Revolution Allam Hamdan,Arezou Harraf,Pallvi Arora,Bahaaeddin Alareeni,Reem Khamis Hamdan,2022-06-13 This book takes a forward looking approach by bringing in research and contributions that facilitate in mapping the impact of AI and big data on businesses the nature of work along with providing practical solutions for preparing the work workplace and the workforce of the future Organizations globally have been experiencing immense transformation due to the reinvention and redefining of the business models due to the dynamic nature of the business environment Looking at an organizational context undeniably the definition of work and organizations is genuinely changing Artificial intelligence big data automation and robotics are a few of those keywords that are seemingly entering the workplace and reshaping the way work is being done Moreover the transition that is being addressed herein not only focuses upon aspects that are operative within an organization like the organizational culture team building networking recruitments and so on but also aims to address the external aspects like supply chain management value chain analysis investment management etc Broadly every single step that is now taken is intensely experiencing this impact upon its functioning This book serves as a guide not just to the academia but also to the industry to adopt suitable strategies that offer insights into global best practices as well as the innovations in the domain **Handbook of Industry 4.0 and SMART Systems** Diego Galar Pascual,Pasquale Daponte,Uday Kumar,2019-09-16 Industry 4 0 refers to fourth generation of industrial activity characterized by smart systems and internet based solutions This book describes the fourth revolution based on instrumented interconnected and intelligent assets The different book chapters provide a perspective on

technologies and methodologies developed and deployed leading to this concept With an aim to increase performance productivity and flexibility major application area of maintenance through smart system has been discussed in detail Applicability of 4.0 in transportation energy and infrastructure is explored with effects on technology organisation and operations from a systems perspective *Introduction to Network Security* Douglas Jacobson, 2008-11-18 Unlike data communications of the past today's networks consist of numerous devices that handle the data as it passes from the sender to the receiver However security concerns are frequently raised in circumstances where interconnected computers use a network not controlled by any one entity or organization *Introduction to Network Security exam Computer and Information Security Handbook (2-Volume Set)* John R. Vacca, 2024-08-28 Computer and Information Security Handbook Fourth Edition offers deep coverage of an extremely wide range of issues in computer and cybersecurity theory along with applications and best practices offering the latest insights into established and emerging technologies and advancements With new parts devoted to such current topics as Cyber Security for the Smart City and Smart Homes Cyber Security of Connected and Automated Vehicles and Future Cyber Security Trends and Directions the book now has 104 chapters in 2 Volumes written by leading experts in their fields as well as 8 updated appendices and an expanded glossary Chapters new to this edition include such timely topics as Threat Landscape and Good Practices for Internet Infrastructure Cyber Attacks Against the Grid Infrastructure Threat Landscape and Good Practices for the Smart Grid Infrastructure Energy Infrastructure Cyber Security Smart Cities Cyber Security Concerns Community Preparedness Action Groups for Smart City Cyber Security Smart City Disaster Preparedness and Resilience Cyber Security in Smart Homes Threat Landscape and Good Practices for Smart Homes and Converged Media Future Trends for Cyber Security for Smart Cities and Smart Homes Cyber Attacks and Defenses on Intelligent Connected Vehicles Cyber Security Issues in VANETs Use of AI in Cyber Security New Cyber Security Vulnerabilities and Trends Facing Aerospace and Defense Systems and much more Written by leaders in the field Comprehensive and up to date coverage of the latest security technologies issues and best practices Presents methods for analysis along with problem solving techniques for implementing practical solutions **AI-Enhanced Cybersecurity for Industrial Automation** Pandey, Hari Mohan, Goel, Pawan Kumar, 2025-05-09 As industrial automation systems become reliant on digital technologies they face growing threats from sophisticated cyberattacks Traditional cybersecurity measures often struggle to keep up with the evolving threat landscape leaving critical infrastructure vulnerable AI enhanced cybersecurity offers a promising solution by leveraging machine learning and intelligent algorithms to detect respond to and even predict cyber threats in real time By integrating AI into industrial cybersecurity frameworks organizations can strengthen their defenses ensure operational continuity and protect valuable assets from malicious threats AI Enhanced Cybersecurity for Industrial Automation explores the integration of AI and cybersecurity in industry 5.0 emphasizing sustainability resilience and ethical considerations It examines how industry 5.0 extends beyond automation and efficiency by

incorporating human centric sustainable and intelligent technologies into industrial ecosystems This book covers topics such as blockchain industrial engineering and machine learning and is a useful resource for computer engineers business owners security professionals academicians researchers and scientists

Utilizing AI and Smart Technology to Improve Sustainability in Entrepreneurship Hossain, Syed Far Abid,2024-03-18 Businesses must confront a pressing challenge how to navigate the turbulent seas of market dynamics and technological advancements As traditional business models face obsolescence in the wake of relentless innovation enterprises failing to quickly to harness the power of advanced technologies risk fading into obscurity This predicament sets the stage for a critical exploration of the profound impact of artificial intelligence AI and smart technology on the sustainability of entrepreneurial ventures Without a strategic embrace of these innovations businesses find themselves adrift struggling to cope with the demands of a rapidly evolving market Utilizing AI and Smart Technology to Improve Sustainability in Entrepreneurship serves as a guide for entrepreneurs seeking to thrive in this era of unprecedented change Readers begin with a deep dive into the challenges faced by contemporary businesses This book meticulously dissects these challenges and provides guidance for those ready to chart a course toward sustainable success by leveraging the transformative and compelling aptitudes of AI The proposed solution of the integration of AI and smart technologies into the business landscape is one of great promise

Education and Privacy Yves Deswarte, Frederic Cuppens, Sushil Jajodia, Lingyu Wang, 2006-04-11 This volume gathers the papers presented at three workshops that are embedded in the IFIP Sec Conference in 2004 to enlighten specific topics that are currently particularly active in Security The first one is the 10th IFIP Annual Working Conference on Information Security Management It is organized by the IFIP WG 11.1 which is itself dedicated to Information Security Management i.e. not only to the practical implementation of new security technology issued from recent research and development but also and mostly to the improvement of security practice in all organizations from multinational corporations to small enterprises Methods and techniques are developed to increase personal awareness and education in security analyze and manage risks identify security policies evaluate and certify products processes and systems Matt Warren from Deakin University Australia who is the current Chair of WG 11.1 acted as the Program Chair The second workshop is organized by the IFIP WG 11.8 dedicated to Information Security Education This workshop is a follow up of three issues of the World Conference on Information Security Education WISE that were also organized by WG 11.8 The first WISE was organized by Louise Yngstrom in 1999 in Stockholm and the next one WISE 4 will be held in Moscow Russia 18-20 May 2005 This year the workshop is aimed at developing a first draft of an international doctorate program allowing a specialization in IT Security

Proceedings of the 4th International Conference on Advances in Communication Technology and Computer Engineering (ICACTCE'24) Celestine Iwendi, Zakaria Boulouard, Natalia Kryvinska, 2025-07-11 This proceedings book offers a refined and comprehensive exploration of cutting edge advancements in communication networks computational intelligence and smart applications seamlessly blending theoretical insights with practical solutions Each paper outlines objectives challenges proposed solutions and key findings enabling swift comprehension of complex topics By adopting a problem solving approach and including case studies the book effectively demonstrates the application of advanced techniques in domains such as industry healthcare and smart cities Addressing the demands of an evolving digital landscape it highlights emerging technologies like artificial intelligence AI the Internet of Things IoT and autonomous systems ensuring its relevance to both current challenges and future innovations Covering a wide spectrum of topics including network security AI applications IoT ecosystems and smart technologies the book serves as a comprehensive resource for understanding the innovations shaping the future of communication and computing Targeted at graduate students researchers professors and industry professionals it functions as both an educational tool and a reference guide for those seeking to remain at the forefront of technological advancements Featuring state of the art research contributions the book introduces new techniques algorithms and solutions to real world challenges complemented by structured insights into objectives problems and results Practical applications are brought to life through successful case studies in key areas like smart cities and healthcare illustrating the tangible impact of these innovations With contributions reviewed by a distinguished editorial team of leading researchers engineers and academics the book ensures credibility academic rigor and relevance By blending theoretical depth practical utility and

expert validation this proceedings book is an indispensable resource for navigating the rapidly evolving fields of computing and communication technologies equipping readers with the knowledge and tools to excel in an increasingly digital and interconnected world

Enhancing Computer Security With Smart Technology: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Enhancing Computer Security With Smart Technology : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
