films are more necessary than ever given that film culture today is dominated by advertising executives sixty second film reviewers and other players in the Hollywood publicity machine who champion mediocre films at the expense of genuinely imaginative and challenging works He proposes specific definitions of excellence in film art through the creation a personal canon of both well known and obscure movies from around the world and suggests ways in which other canons might be similarly constructed Essential Cinema offers in depth assessments of an astonishing range of films established classics such as Rear Window M and Greed ambitious but flawed works like The Thin Red Line and Breaking the Waves eccentric masterpieces from around the world including Irma Vep and Archangel and recent films that have bitterly divided critics and viewers among them Eyes Wide Shut and A I He also explores the careers of such diverse filmmakers as Robert Altman Ra l Ruiz Frank Tashlin Elaine May Sam Fuller Terrence Davies Edward Yang Hou Hsiao hsien and Orson Welles In conclusion Rosenbaum offers his own film canon of 1 000 key works from the beginning of cinema to the present day A cogent and provocative argument about the art of film Essential Cinema is also a fiercely independent reference book of must see movies for film lovers everywhere The New York Times Guide to Essential Knowledge, Second Edition The New York
