Linguistic Encounters With Language Handicap:

Linguistic Encounters with Language Handicap David Crystal, 1984 *Linguistic Analyses of Aphasic Language* Wolfgang U. Dressler, Jaqueline A. Stark, 2012-12-06 *Linguistic Analyses of Aphasic Language* represents results from linguistic and neurolinguistic research on aphasic language performance. The contributions encompass all linguistic levels ranging from phonetics to discourse and present results on languages other than English. The findings and applied methods are both relevant to the study of aphasia in general and to cross linguistic analyses. Furthermore, they have clear implications for language and speech therapy and thus show the importance of linguistic concepts for language testing and therapeutic intervention.
