The majority of products in most companies are cash traps They are not only worthless but a perpetual drain on corporate resources Use more debt than your competition or get out of the business When information flows freely reputation more than reciprocity becomes the basis for trust As a strategic weapon time is the equivalent of money productivity quality even innovation When brands become business systems brand management becomes far too important to leave to the marketing department The winning organization of the future will look more like a collection of jazz ensembles than a symphony orchestra Most of our organizations today derive from a model whose original purpose was to control creativity Rather than being an obstacle uncertainty is the very engine of transformation in a business a continuous source of new opportunities IP assets lack clear property lines Every bit of intellectual property you can own comes with connections to other valuable innovations
