Focused Interview A Manual Of Problems And Procedures:

Focused Interview Robert K. Merton, 2008-06-30 A reissue of the classic report of Columbia's Bureau of Applied Social Research outlining techniques for eliciting specific responses of individuals and groups to particular events and situations. The 1956 edition of this book may be regarded as seminal within sociology, spawning a whole field of qualitative opinion research that has continued to evolve through half a century of inquiry. This is a reissue of the book with a new preface by Merton, a select bibliography of writings on the focused interview and focus group research, and a new introduction that traces the diffusion of Merton's technique from sociology to other fields including history, psychology, mass media, and marketing research. Interviewing Kathryn Roulston, 2021-09-15 Connecting theory and method can be challenging for novice researchers. *Interviewing: A Guide to Theory and Practice* draws from and extends the author's earlier 2010 book and focuses on three interrelated issues: how researchers theorize research interviews, examine their subject positions in relation to projects and participants, and explore the details of interview interaction to inform practice. Interview Techniques for UX Practitioners Chauncey Wilson, 2013-11-23 Much of the work of user-centered design practitioners involves some type of interviewing. While interviewing is an important skill, many colleagues have little or no formal training in interviewing methods and often learn on the job with limited feedback on the quality of their interviews. This book teaches readers about the three basic interview methods: structured interviews, semi-structured interviews, and unstructured interviews. The author discusses the various strengths, weaknesses, and issues with each type of interview and includes best practices and procedures for conducting effective and efficient interviews. The book dives into the detailed information about interviews that haven't been discussed before: readers learn how and when to ask the how and why questions to get a deeper understanding of problems, concepts, and processes, as well as discussions on laddering and critical incident techniques. Because so much of what UX practitioners do involves good interviewing skills, this is your one-stop resource with the definitions, processes, procedures, and best practices on the basic approaches. *The National Highway Traffic Safety Administration's Rating System for Rollover Resistance* National Research Council (U.S.). Committee for the Study of a Motor Vehicle Rollover Rating System, 2002 Explains that the static stability factor is an indicator of a vehicle's propensity to roll over and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control. individual who looks like a stubborn nail on a plank of wood that cannot be easily hammered down His persistent protest thus is theoretically puzzling since such individual based protest is assumed to be too weak to effectively challenge a powerful authoritarian regime Although this phenomenon is widely observed in China it is ignored by current studies on collective action Meanwhile this book delves into the life politics of nail like persons and reveals that their escalation of grievance marginalized social status inability of pursuing desirable lives through legitimate means and communication with fellow petitioners also reinforce their determination of contention This book describes deeply the fate of individual based protests in China It scrutinizes the state s role in shaping contention at its macro intermediate and micro levels and meanwhile pay more attention to local specifics that are crucial to uncovering the logic of petitioners actions and consciousness This book has implications for scholars and graduates who are interested in contentious politics and state society interactions in China
