*Simply Motivate Yourself to Win* Conrad Jones, 2011-07-26

The word Winning might sound fake to you right Too bourgeois Too full of A s or fortune or odds or muscle bound jocks Real winning however is no more than one s own personal quest of individual excellence and motivation You don t have to knock others down or acquire at the expense of other people Winning is taking the natural endowment and potential you were born with and have since evolved and utilizing it fully towards a goal or purpose that makes you happy Let s consider it as our personal quest of individual excellence something closer to striving to live at your highest potential The most crucial single point in the chapters to follow to remember and internalize is that it makes little difference what is really occurring it s how you personally take it that truly counts
