Japanese Conversation Selfcontextualization Through Structure And Interactional Management:

Japanese Conversation-- Senko K. Maynard, 1989 *Joint Utterance Construction in Japanese Conversation* Makoto Hayashi, 2003-01-30 This book focuses on how participants in Japanese conversation negotiate and achieve joint courses of action within a single turn at talk Using the methodology of Conversation Analysis as a central framework this book describes in detail the structures and procedures used by Japanese speakers to jointly produce a coherent grammatical unit in progress and explores the range of social actions that speakers accomplish by employing that practice This study is part of a larger project intended to investigate how humans achieve intricate coordination of their behavior with that of co participants in everyday social encounters and how language plays a constitutive part in making such micro level social coordination possible Through a close examination of joint utterance construction in Japanese this book contributes to a growing body of research into the mutual influence between the grammatical organization of language and the organization of situated human conduct in social interaction

The Grammar of Interactional Language Martina Wiltchko, 2021-06-17 Traditional grammar and current theoretical approaches towards modelling grammatical knowledge ignore language in interaction that is words such as huh eh yup or yesssss This groundbreaking book addresses this gap by providing the first in depth overview of approaches towards interactional language across different frameworks and linguistic sub disciplines Based on the insights that emerge a formal framework is developed to discover and compare language in interaction across different languages the interactional spine hypothesis Two case studies are presented confirmational such as eh and huh and response markers such as yes and no both of which show evidence for systematic grammatical knowledge Assuming that language in interaction is regulated by grammatical knowledge sheds new light on old questions concerning the relation between language and thought and the relation between language and communication It is essential reading for anyone interested in the relation between language cognition and social interaction

Argument Encoding in Japanese Conversation M. Shimojo, 2005-02-07 Japanese is well known for its array of argument encoding types but how is speakers choice of encoding types to be described This book investigates the encoding of subject and direct object in conversational Japanese and attempts to explain Japanese argument encoding as a unified system Qualitative and quantitative analyses of a bank of conversation are provided with the emphasis on speakers use of the encoding types rather than their acceptability for given arguments

Assessing Pragmatic Competence in the Japanese EFL Context Pino Cutrone, 2014-09-26 With a focus on intercultural communication between Japanese and Americans this book describes how differing listening styles and conversational behaviours across cultures can negatively influence intercultural communication Responding to the many calls for studies examining the teachability of listener responses in the language classroom the author investigates whether listener responses would be a suitable target for instruction in the EFL ESL classroom and if so what instructional methods are best suited to teaching this elusive aspect of pragmatic competence By addressing these issues this book provides

exciting and novel insights into various aspects of applied linguistics By supplementing language data and questionnaires with retrospective and longitudinal research techniques the author is able to present a much richer description and deeper understanding of how and why participants used listener responses in the manner they did With the findings supporting an explicit approach to teaching listener responses this book provides language practitioners with a direction in which to move forward Beyond this practical application this study sheds new light into such theoretical debates as the role of consciousness in language teaching the Explicit vs Implicit debate the universality of Grice's theory of conversation and the potentially differing conceptualisations of politeness across cultures

Handbook of Japanese Semantics and Pragmatics Wesley M. Jacobsen, Yukinori Takubo, 2020-10-12 The volume on Semantics and Pragmatics presents a collection of studies on linguistic meaning in Japanese either as conventionally encoded in linguistic form the field of semantics or as generated by the interaction of form with context the field of pragmatics representing a range of ideas and approaches that are currently most influential in these fields The studies are organized around a model that has long currency in traditional Japanese grammar whereby the linguistic clause consists of a multiply nested structure centered in a propositional core of objective meaning around which forms are deployed that express progressively more subjective meaning as one moves away from the core toward the periphery of the clause The volume seeks to achieve a balance in highlighting both insights that semantic and pragmatic theory has to offer to the study of Japanese as a particular language and conversely contributions that Japanese has to make to semantic and pragmatic theory in areas of meaning that are either uniquely encoded or encoded to a higher degree of specificity in Japanese by comparison to other languages such as conditional forms forms expressing varying types of speaker modality and social deixis

The Pragmatics of Interaction Sigurd D'hondt, Jan-Ola Östman, Jef Verschueren, 2009 The ten volumes of Handbook of Pragmatics Highlights focus on the most salient topics in the field of pragmatics thus dividing its wide interdisciplinary spectrum in a transparent and manageable way While the other volumes select specific philosophical cognitive grammatical social cultural variational or discursive angles this fourth volume is dedicated to the empirical investigation of the way human beings organize their

interaction in natural environments and how they use talk for accomplishing actions and their contexts Starting from Goffman's observation that interaction exhibits a structure in its own right that cannot be reduced to the psychological properties of the individual nor to society it contains a selection of articles documenting the various levels of interactional organization In addition to treatments of basic concepts such as sequence participation prosody and style and some topical articles on phenomena like reported speech and listener response it also includes overviews of specific traditions conversation analysis ethnomethodology and articles on eminent authors Goffman Sacks who had a formative influence on the field

Talking and Testing Richard Young, Agnes Weiyun He, 1998-07-15 This book brings together a collection of current research on the assessment of oral proficiency in a second language Fourteen chapters focus on the use of the language proficiency interview or LPI to assess oral proficiency The volume addresses the central issue of validity in proficiency assessment the ways in which the language proficiency interview is accomplished through discourse Contributors draw on a variety of discourse perspectives including the ethnography of speaking conversation analysis language socialization theory sociolinguistic variation theory human interaction research and systemic functional linguistics And for the first time LPIs conducted in German Korean and Spanish are examined as well as interviews in English This book sheds light on such important issues as how speaking ability can be defined independently of an LPI that is designed to assess it and the extent to which an LPI is an authentic representation of ordinary conversation in the target language It will be of considerable interest to language testers discourse analysts second language acquisition researchers foreign language specialists and anyone concerned with proficiency issues in language teaching and testing

Linguistic Creativity in Japanese Discourse Senko K. Maynard, 2007-07-13 Using theoretical concepts of self perspective and voice as an interpretive guide and based on the Place of Negotiation theory this volume explores the phenomenon of linguistic creativity in Japanese discourse i e the use of language in specific ways for foregrounding personalized expressive meanings Personalized expressive meanings include psychological emotive interpersonal and rhetorical aspects of communication encompassing broad meanings such as feelings of intimacy or distance emotion empathy humor playfulness persona sense of self identity rhetorical effects and so on Nine analysis chapters explore the meanings functions and effects observable in the indices of linguistic creativity focusing on discourse creativity style mixture borrowing others styles genre mixture rhetorical creativity puns metaphors metaphors in multimodal discourse and grammatical creativity negatives demonstratives first person references Based on the analysis of verbal and visual data drawn from multiple genres of contemporary cultural discourse this work reveals that by creatively expressing in language we share our worlds from multiple perspectives we speak in self's and others many voices and we endlessly create personalized expressive meanings as testimony to our own sense of being

Emotive Communication in Japanese Satoko Suzuki, 2006-12-14 It has become well recognized that affective dimensions of language constitute an integral part of the linguistic system Japanese provides a prime example of the significance of

emotivity as it has grammaticalized a wide variety of expressions to communicate affective information The collected articles demonstrate the rich diversity of emotive communication in Japanese and analyze various expressions with theoretical perspectives that are often independent from Western models This volume reflects the influence of traditional Japanese scholars for whom examining affective relational aspects of language has long been a central concern The authors are also influenced by more recent scholars in Japanese pragmatics such as Susumu Kuno Akio Kamio and Senko K Maynard They also draw on anthropological notions such as the inside vs outside dichotomy that have been used to describe Japanese society

Cognitive-Functional Approaches to the Study of Japanese as a Second Language Kaori Kabata, Kiyoko Toratani, 2016-01-15 This innovative and original volume brings together studies that apply cognitive and functional linguistics to the study of the L2 acquisition of Japanese With each article grounded on the usage based model and on conceptual notions such as foregrounding and subjectivity the volume sheds light on how cognitive and functional linguistics can help us understand aspects of Japanese acquisition that have been neglected by traditionalists

Handbook of Japanese Sociolinguistics Yoshiyuki Asahi, Mayumi Usami, Fumio Inoue, 2022-04-04 This volume is the first comprehensive survey of the sociolinguistic studies on Japanese Japanese like other languages has developed a highly diverse linguistic system that is realized as variation shaped by interactions of linguistic and social factors This volume primarily focuses on both classic and current topics of sociolinguistics that were first studied in Western languages and then subsequently examined in the Japanese language The topics in this volume cover major issues in sociolinguistics that also characterize sociolinguistic features of Japanese Such topics as gender honorifics and politeness are particularly pertinent to Japanese as is well known in general sociolinguistics At the same time this volume includes studies on other topics such as social stratification discourse contact and language policy which have been widely conducted in the Japanese context In addition this volume introduces domestic approaches to sociolinguistics developed in Japan They emerged a few decades before the development of the so called Labovian and Hymesian sociolinguistics in the US and they have shaped a unique development of sociolinguistic studies in Japan

Discourse, Gender and Shifting Identities in Japan Claire Maree, Kaori Okano, 2018-02-13 This book is the first in a unique series drawn from an interdisciplinary longitudinal project entitled Thirty Years of Talk For 30 years Okano recorded ethnographic interviews and collected data on the language of working class women in Kobe Japan This long range study sketches the transitions in these women's lives and how their language use discourse and identities change in specific sociocultural contexts as they shift through different stages of their personal and public lives It is a ground breaking real time panel study that follows the same individuals and observes the same phenomena at regular intervals over three decades In this volume the authors examine the changes in the speech of one particular woman Kanako as her social identity shifts from high school girl to mother and fisherman's wife and as her relationship with the interviewer develops They identify changes in linguistic strategies as she negotiates gender sexuality norms stylistic features related to the construction of rapport the use of discourse markers as she gets older and the interviewer's information seeking strategies

Japanese Questions: Discourse, Context and Language Lidia Tanaka, 2014-11-20 Questions and interrogatives in Japanese discourse have attracted considerable interest from grammarians but the communicative aspect has received little attention This book fills this gap Through detailed analyses of formal and informal interactions this book demonstrates that the inherent multi functional and polysemous aspect of language can also be observed in the use of questions What emerges is a sense of the considerable variety of question forms and also an understanding of how questions are used to perform a wide range of social actions The importance of context is stressed throughout the book both in guiding the speakers choices of question types and in helping to create the particular stance that characterizes those interactions The data used in this book shows that speakers prefer questions that are not canonical When speakers do use canonical questions these are overwhelmingly accompanied by some mollifiers This phenomenon suggests that in Japanese communication the illocutionary force of canonical questions is too strong To soften the interaction speakers tend to use other types of interrogative forms such as statements with rising intonation or at least to leave questions grammatically unfinished The findings in this book contribute to the understanding of how Japanese speakers use questions in different communicative interactions and provide new evidence of the gap between prescriptive grammar and actual communication

Culture-specific Language Styles Masahiko Minami, 2002-01-01 Communication skills are

considered extremely important for the development preservation and transmission of culture to future generations and incorporate the complicated relationship between language and culture This book focuses on an analysis of personal narratives by Japanese pre school children The book also analyzes mother child narratives and joint book reading activities

Gender, Language and Culture Lidia Tanaka,2004-02-26 This book analyzes the relationship between gender age and role in Japanese television interviews It covers a wide range of topics on Japanese communication cultural and gender variables are interwoven in the interpretation of the findings The study shows how participants interact through language and how they project their identities in the context of the interview Based on a qualitative analysis speech in mixed and same gender interactions is analysed turntaking terms of address and aizuchi listener s responses are examined The findings reveal interesting characteristics of all female interactions such as the influence of age that appears to be more important than gender an observation that has repercussions in the study of gender and language differences in modern Japan This book is an interdisciplinary study that integrates notions of politeness and theories of gender and language and will be of interest to people researching Japanese culture and communication gender studies and institutional language *The Multilingual Internet* Brenda Danet,Susan C. Herring,2007-06-04 Two thirds of global internet users are non English speakers Despite this most scholarly literature on the internet and computer mediated communication CMC focuses exclusively on English This is the first book devoted to analyzing internet related CMC in languages other than English The volume collects 18 new articles on facets of language and internet use all of which revolve around several central topics writing systems the structure and features of local languages and how they affect internet use code switching between multiple languages gender issues public policy issues and so on *Languages of Business* Francesca Bargiela-Chiappini,2020-03-31 No detailed description available for The Languages of Business
