Get Real Larry Mullins,2000-10-01      **The Lost Secret of Death** Peter Novak,2003-08-01 Novak investigates a belief called the Binary Soul Doctrine BSD which states simply that humans possess two souls which split at death the conscious going on to reincarnate again and again while the unconscious ends up in a type of limbo judging itself for all eternity He goes on to explain that long ago the BSD was the primary belief of a single world religion which since has been broken into more and more fragments However he claims that twentieth century findings including the work of Freud and Jung as well as findings of modern neuroscience and Near Death research has marked a resurgence of belief in the veracity of the BSD Novak argues just as those long ago did that it is essential for humans to integrate these two souls together before death to avoid the nightmare of being split in two at death He even offers a few steps to help readers start the process of integration

Secrets of the ancients Victoria Socolova,2016-10-14 Two states at all times most interesting for dreamers are lucid dreaming and prophetic dreams However no one ever considered them to be two equal types of dreams One state is of interest for scientists and pragmatists the other is for mystics philosophers and esotericists The world of our dreams is something more than our reality It is in a dream where we can find ourselves in any point of space and time where we learn secrets of the part essence of the present and possibilities of the

future It is only in dreams where we can meet those who are no more with us study options for forthcoming events or make our choice No one has ever thought them to exist on equal basis Oneironauts participating in our project already use both aspects for several decades When dreaming in a changed state of mind every person is able to be an active participant of a lucid dream or a passive one so called information dream usually referred to as prophetic What is important to know is that active dream involves deliberate actions while informative one is a passive contemplation and perception of information flows which does not depend on dreamer's will and does not imply his corrections The project is unique and all the information you will find in this book is published for the first time One of the major goals of the project is to search dreamers for having joint dreams on the basis of certain setups called dream affirmations For many of you most of this knowledge will mean real opportunity to manage your dreams and effectively use your connection with the unconsciousness and earth informational field as well as find solutions to real problems activate reserves of the organism heal yourself enter dreams of other people and meet those who are far from you in your dreams There will be those of you who will open a new transcendent world with this book a world which can change your life so much that you'll become a completely different person seeing what others cannot see and experiencing new laws of the universe on your own **Real Sex Films** John Tulloch, Belinda
