Migration, Modernity and Transnationalism in the Work of Joseph Conrad Kim Salmons, Tania Zulli, 2021-07-29 Examining the notion of migration and transnationalism within the life and work of Joseph Conrad this book situates the multicultural and transnational characters that comprise his fiction while locating Conrad as a subject of the Russian state whose provenance is Polish but whose identity is that of a merchant sailor and English country gentleman Conrad's characters are often marked by crossings changes of nation changes of culture changes of identity which refract Conrad's own cultural transitions These crossings not only subjectivise the experience of the migrant through the modern complexities of technology and speed but also through cross cultural encounters of food and language Collectively these essays explore the experience of the migrant as exile the inescapable intermeshing of migration modernity and transnationalism as well as Conrad's own global and multicultural outlook Conrad's work writes across historical political and ethnic borders speaking to a transnational reality that continues to have relevance today A Political Genealogy of Joseph Conrad Richard Ruppel, 2014-12-11 J zef Teodor Konrad Korzeniowski who gradually transformed himself into the English writer Joseph Conrad was a mercurial personality He left Poland for the sea though he had no experience with salt water He left the Polish language for French and then for English He attempted suicide at the age of twenty He invested in various schemes and lost his inheritance He married an English typist nearly sixteen years younger than himself with whom he had nothing in common He worked as a writer though he made no money through all the years of his most important work and though he experienced terrible psychological breakdowns after completing each novel He was warm with his friends ingratiating with influential strangers but also intensely irritable and easily offended His work is as varied and changeable as his personality from his first two emotionally intense Malay novels to the stolid and confident *Nigger of the Narcissus* and *Typhoon* from the coldly ironic *Outpost of Progress* to the nightmarishly subjective *Heart of Darkness* from the leisurely panoramic visions of *Nostromo* to the tautly nervous claustrophobic ironies in *The Secret Agent* Despite the extraordinary thematic and tonal range of his work critics have imposed a stable political perspective on his fiction most often an organic conservatism influenced by his Polish background This is understandable until recently a critic's role has been to impose order on an artist's creations The approach in this book is different Drawing on the work of Michel Foucault and Jean Francois Lyotard especially on the latter's critique of what he called the grand narrative *A Political Genealogy of Joseph Conrad* shows how Conrad's politics were always radically contingent on audience contemporary events and especially genre While the political perspective in each of his stories and novels may be more or less coherent and consistent there is no consistency throughout his work *A Political Genealogy of Joseph Conrad* is the first book devoted exclusively to Conrad's politics since the 1960s
