Professional Development in Applied Linguistics Luke Plonsky, 2020-07-30 Success in academia requires more than an understanding of discipline-specific literature and an ability to teach and do research. It is also necessary to develop an understanding of a range of professionally oriented skills such as how to identify and apply to doctoral programs, how to make the most of conferences, how to achieve a semblance of work-life balance and how to land a job. Unfortunately, however, training on such professional matters is often inconsistent and/or idiosyncratic. Put another way, this book is an attempt at the text many of us wish we had as we began our graduate
