Providing a look ahead at some of the most promising innovations in graphics technologies this guide covers the GDI graphical library the NET Framework platform C and the DirectX library Theoretical aspects of graphics algorithms for solving common problems and examples of their practical implementation are covered The support of popular graphic file formats such as BMP GIF TIFF JPEG EXI PNG ICO WMF and EMF as well as bitmap redrawing with the application of the external alpha channel are discussed Resizing stretching distorting and rotating bitmaps are addressed in detail as is gradient filling *An Introduction to Object-Oriented Programming in C++* Graham M. Seed,2012-12-06 Why Another Book on c and why Programming and Graphics Anyone who has browsed through the Computing section of a bookshop assuming it has one will not need much convincing that there are a lot of C books out there So why add yet another to the shelf This book attempts to introduce you to the C language via computer graphics because the object oriented programming features of C naturally lend themselves to graphics Thus this book is based around a central theme computer graphics and the development of real object oriented tools for graphical modelling This approach is adopted as opposed to learning by small unrelated often hypothetical examples because I didn t want to introduce C as a collection of language features While introducing the syntax and features of C it is just as important to demonstrate simultaneously the reason for such features and when to apply them in other words language and design are given equal priority Also a key objective in writing this book is to present you with a comprehensive introductory text on programming in the C language Subject Guide to Books in Print ,1997 *American Book Publishing Record* ,1997-05 **The Cumulative Book Index** ,1996 A world list of books in the English language **Forthcoming Books** Rose Arny,1998 Multimedia Development Systems Andreas Zendler,1998 *Understanding and Using Microsoft Windows 95* Ronald W.
