Training I can wholeheartedly recommend this revised and updated edition of Barbra Teater's highly successful book. It remains essential reading for practitioners, undergraduate and postgraduate students of social work. The book provides a compelling and easily accessible analysis of key theories and methods. It challenges both students and practitioners to consider and reconsider how they can apply theories and methods to practice more effectively. Prof Hugh McLaughlin, Manchester Metropolitan University, UK.

What a great book! Barbra Teater and colleagues have managed to bring together a wealth of learning about different theories and methods of social work intervention in a clearly written and accessible format. Each chapter is focused on the application of theory to practice and as such helps to act as a bridge from the classroom to direct work with individuals, families and groups. This new and updated edition is very likely to be one of those books that students have by their side throughout their studies and bring with them into professional practice after graduation. Dr John Devaney, Centenary Professor of Social Work, University of Edinburgh, UK.
