**“The” History of the Manners and Customs of Ancient  
A History of Ancient Greece in Fifty Lives** David

Stuttard,2014-10-14 The first book to tell the Greek story through the interconnecting lives of the men and women who shaped its politics and literature its science and philosophy its art and sport The political leaders writers artists and philosophers of ancient Greece turned a small group of city states into a pan Mediterranean civilization whose legacy can be found everywhere today But who were these people what do we know of their lives and how did they interact with one another In this original new approach to telling the Greek story David Stuttard weaves together the lives of the movers and shakers of the Greek world into a continuous narrative from the early tyrant rulers Peisistratus and Polycrates through the stirrings of democracy under Cleisthenes to the rise of Macedon under Philip II and Alexander the Great and the eventual decline of the Greek world as Rome rose Moving from Sicily to Afghanistan and from Macedonia to Alexandria delving into the worlds of mathematics and geography rhetoric and historiography painting and sculpture exploring the accounts of historians and mystics poets and dramatists political commentators and philosophers this book creates a vivid picture of life in all arenas of the ancient Greek world As well as the most famous politicians and writers in these pages the reader will meet less well known figures such as Milo the Olympic wrestler who led his home town in a time of crisis Aspasia the brilliant female intellectual who taught rhetoric to Socrates and Epaminondas the Theban who taught tactics to Philip of Macedon and so destroyed his own city

**Hunter-Gatherers in History, Archaeology and Anthropology** Alan Barnard,2020-05-26 The study of hunter gatherers has had a profound impact on thinking about human nature and about the nature of society The subject has especially influenced ideas on social evolution and on the development of human culture Anthropologists and archaeologists continue to investigate living hunter gatherers and the remains of past hunter gatherer societies in the hope of unearthing the secrets of our ancestors and learning something of the natural existence of humankind Hunter Gatherers in History Archaeology and Anthropology provides a definitive overview of hunter gatherer historiography from the earliest anthropological writings through to the present day What can early visions of the hunter gatherer tell us about the societies that generated them How do diverse national traditions such as American Russian and Japanese manifest themselves in hunter gatherer research What is the most up to date thinking on the subject and how does it reflect current trends within the social sciences This book provides a much needed overview of the history of thought on one of science s most intriguing subjects It will serve as a landmark text for anthropologists archaeologists and students researching anthropological theory

or the history of social anthropology and related disciplines

**The Oxford Handbook of the Second Sophistic** Daniel S. Richter, William A. Johnson, 2017-10-24 Focusing on the period known as the Second Sophistic an era roughly co extensive with the second century AD this Handbook serves the need for a broad and accessible overview The study of the Second Sophistic is a relative new comer to the Anglophone field of classics and much of what characterizes it temporally and culturally remains a matter of legitimate contestation The present handbook offers a diversity of scholarly voices that attempt to define as much as is possible in a single volume the state of this rapidly developing field Included are chapters that offer practical guidance on the wide range of valuable textual materials that survive many of which are useful or even core to inquiries of particularly current interest e g gender studies cultural history of the body sociology of literary culture history of education and intellectualism history of religion political theory history of medicine cultural linguistics intersection of the Classical traditions and early Christianity The Handbook also contains essays devoted to the work of the most significant intellectuals of the period such as Plutarch Dio Chrysostom Lucian Apuleius the novelists the Philostrati and Aelius Aristides In addition to content and bibliographical guidance however this volume is designed to help to situate the textual remains within the period and its society to describe and circumscribe not simply the literary matter but the literary culture and societal context For that reason the Handbook devotes considerable space at the front to various contextual essays and throughout tries to keep the contextual demands in mind In its scope and in its pluralism of voices this Handbook thus represents a new approach to the Second Sophistic one that attempts to integrate Greek literature of the Roman period into the wider world of early imperial Greek Latin Jewish and Christian cultural production and one that keeps a sharp focus on situating these texts within their socio cultural context

**A View to a Death in the Morning** Matt Cartmill, 1996-10-01 What brought the ape out of the trees and so the man out of the ape was a taste for blood This is how the story went when a few fossils found in Africa in the 1920s seemed to point to hunting as the first human

activity among our simian forebears the force behind our upright posture skill with tools domestic arrangements and warlike ways Why on such slim evidence did the theory take hold In this engrossing book Matt Cartmill searches out the origins and the strange allure of the myth of Man the Hunter An exhilarating foray into cultural history A View to a Death in the Morning shows us how hunting has figured in the western imagination from the myth of Artemis to the tale of Bambi and how its evolving image has reflected our own view of ourselves A leading biological anthropologist Cartmill brings remarkable wit and wisdom to his story Beginning with the killer ape theory in its post World War II version he takes us back through literature and history to other versions of the hunting hypothesis Earlier accounts of Man the Hunter drafted in the Renaissance reveal a growing uneasiness with humanity s supposed dominion over nature By delving further into the history of hunting from its promotion as a maker of men and builder of character to its image as an aristocratic pastime charged with ritual and eroticism Cartmill shows us how the hunter has always stood between the human domain and the wild his status changing with cultural conceptions of that boundary Cartmill s inquiry leads us through classical antiquity and Christian tradition medieval history Renaissance thought and the Romantic movement to the most recent controversies over wilderness management and animal rights Modern ideas about human dominion find their expression in everything from scientific theories and philosophical assertions to Disney movies and sporting magazines Cartmill s survey of these sources offers fascinating insight into the significance of hunting as a mythic metaphor in recent times particularly after the savagery of the world wars reawakened grievous doubts about man s place in nature A masterpiece of humanistic science A View to a Death in the Morning is also a thoughtful meditation on what it means to be human to stand uncertainly between the wilderness of beast and prey and the peaceable kingdom This richly illustrated book will captivate readers on every side of the dilemma from the most avid hunters to their most vehement opponents to those who simply wonder about the import of hunting in human nature

**The Mediterranean Context of Early Greek History** Nancy H. Demand, 2012-01-17 The Mediterranean Context of Early Greek History p Drawing extensively on the latest archaeological data from the entire Mediterranean basin Nancy Demand offers a compelling argument for situating the origins of the Greek city state within a pan Mediterranean network of maritime interactions that stretches back millennia Jonathan Hall University of Chicago Nancy Demand s book is a remarkable achievement Her Heraklian labors have produced stunning documentation of the consequences of the vast spectrum of interaction between the peoples surrounding the Mediterranean Sea from the Mesolithic into the Iron Age Carol Thomas University of Washington Were the origins of the Greek city state the polis a unique creation of Greek genius Or did their roots extend much deeper Noted historian Nancy H Demand joins the growing group of scholars and historians who have abandoned traditional isolationist models of the development of the Greek polis and cast their scholarly gaze seaward to the sparkling waters of the Mediterranean The Mediterranean Context of Early Greek History reveals the role the complex interaction of Mediterranean cultures and maritime connections had in shaping and developing urbanization including the

ancient Greek city states Utilizing and enhancing upon the model of the fantastic cauldron first put forth by Jean Paul Morel in 1983 Demand reveals how Greek city states did not simply emerge in isolation in remote country villages but rather sprang up along the shores of the Mediterranean in an intricate maritime network of Greeks and non Greeks alike We learn how early seafaring trade such as the development of obsidian trade in the Aegean stimulated innovations in the provision of food the Neolithic Revolution settlement organization political form materials for tool production and concepts of divinity With deep scholarly precision *The Mediterranean Context of Early Greek History* offers fascinating insights into the wider context of the Greek city state in the ancient world
