**Healing a Broken World** Cynthia D. Moe-Lobeda, 2002-08-08 Moe Lobeda shows how the advent of globalization places a new horizon on the spiritual quest for religious experience Healing a Broken World places spirituality and contemplative experience in relation to today's most pressing problems *Miracles Revisited* Stefan Alkier, Annette Weissenrieder, 2013-08-29 Since David Hume the interpretation of miracle stories has been dominated in the West by the binary distinction of fact vs fiction The form critical method added another restriction to the interpretation of miracles by neglecting the context of its macrotexts Last but not least the hermeneutics of demythologizing was interested in the self understanding of individuals and not in political perspectives The book revisits miracle stories with regard to these dimensions 1 It demands to connect the interpretation of Miracle Stories to concepts of reality 2 It criticizes the restrictions of the form critical method 3 It emphasizes the political implications of Miracle Stories and their interpretations Even the latest research accepts this modern opposition of fact and fiction as self evident This book will examine critically these concepts of reality with interpretations of miracles The book will address how concepts of reality always complex came to expression in stories of miraculous healings and their reception in medicine art literature theology and philosophy from classic antiquity to the Middle Ages Only through such bygone concepts contemporary interpretations of ancient healings can gain plausibility Surviving Globalization Janez Juhant, Bojan Žalec, 2008 Through globalization humanity is becoming more and more mutually dependent and even united but at the same time the multidimensional differences and gaps between us are appearing as a challenge to this connectedness No one can live only on food Lk 4:4 are words that clearly witness that the connective tissue of humanity can't be only of economical and political nature Also the pasture the media offer to people is too often just an instrument of the owners and not the fulfilment of media's proper function to cultivate and spread capacity for knowing the truth At one hand the interweaving of ideological streams is mis used by new gurus for taking the possession of control At the other hand the representatives of established religions and value systems are searching for formulas for a successful competition on the global market What are then the possibilities and ways of survival well being and life worth of human person in the contemporary increasingly complex condition From various scientific aspects and different religious horizons this question is reflected upon in this book *Transfiguring Capitalism* John Atherton, 2008 Addresses key problems in contemporary life and raises important questions about our growing awareness of the limits of contemporary ways of living with modern economies and modern religion This book explores possible alternatives to such capitalism **The Book of Resolutions of The United Methodist Church 2020/2024**, 2025-01-01 United Methodist take a stand make a difference and shape a better future Discover the power of an active faith as United Methodist in your daily life with The Book of Resolutions This new edition offers models for making a real impact on the world around us as decided at the latest General Conference Explore over 200 carefully curated positions on a wide range of subjects

conveniently organized into seven sections The Natural World The Political Community The Nurturing Community The World Community The Social Community The Economic Community Other Resolutions With a fully indexed format finding the information you need is a breeze Whether you re searching by resolution title Scripture reference or topic this book has you covered Available in English only Ancient Laws and Contemporary Controversies Cheryl Anderson,2009-11-16 The Ten Commandments condone slavery and Deuteronomy 22 deems the rape of an unmarried woman to injure her father rather than the woman herself While many Christians ignore most Old Testament laws as obsolete or irrelevant with others picking and choosing among them in support of specific political and social agendas it remains a basic tenet of Christian doctrine that the faith is contained in both the Old and the New Testament If the law is ignored an important aspect of the faith tradition is denied In Ancient Laws and Contemporary Controversies Cheryl B Anderson tackles this problem head on attempting to answer the question whether the laws of the Old Testament are authoritative for Christians today The issue is crucial some Christians actually believe that the New Testament abolishes the law or that the Protestant reformers Luther Calvin and Wesley rejected the law Acknowledging the deeply problematic nature of some Old Testament law especially as it applies to women the poor and homosexuals Anderson finds that contemporary controversies are the result of such groups now expressing their own realities and faith perspectives Anderson suggests that we approach biblical law in much the same way that we approach the U S Constitution While the nation s founding fathers all privileged white men did not have the poor women or people of color in mind when they referred in its preamble to We the people Subsequently the Constitution has evolved through amendment and interpretation to include those who were initially excluded Although it is impossible to amend the biblical texts themselves the way in which they are interpreted can and should change With previous scholarship grounded in the Old Testament as well as critical legal and feminist theory Anderson is uniquely qualified to apply insights from contemporary law to the interpretive history of biblical law and to draw out their implications for issues of gender class and race ethnicity In so doing she lays the groundwork for an inclusive mode of biblical interpretation Postcolonial Theologies: Divinity and Empire P4011 R5050 Catherine Keller,2004 A theology in tune with postcolonial theory has the potential to creatively inform and transform ecclesial practice Focusing on the relation of theology to postcolonial theory Postcolonial Theologies brings together a wide diversity of authors many of them fresh and exciting theological voices in essays that are stunningly creative and prophetically lucid All essays are theologically constructive not merely deconstructive or critical in their visions for Christianity Forming a sort of doctrinal landscape they emerge under the themes of theological anthropology shaped by ethnicity class and privilege a Christology that intersects the claims of Christ and empire and a Cosmology that imagines a postcolonial world **The Politics of Food** William D. Schanbacher,2010-02-26 A description of the current global food system this book challenges our ethical responsibility to the global poor and implicates us all for failing to curb global hunger and malnutrition The Politics of Food The Global Conflict between Food Security and Food

Sovereignty argues that our current global food system constitutes a massive violation of human rights In this impassioned well researched book William Schanbacher makes the case that the food security model for combating global hunger driven by the United Nations the World Bank the International Monetary Fund and other organizations is a failure too dependent on trade and too reliant on international agribusiness Instead the emerging model of food sovereignty helping local farmers and businesses produce better quality food is the more effective and responsible approach Through numerous case studies the book examines critical issues of global trade and corporate monopolization of the food industry while examining the emerging social justice movements that seek to make food sovereignty the model for battling hunger

**Ecotheology and the Practice of Hope** Anne Marie Dalton, Henry C. Simmons, 2010-09-29 Is there any hope for a more sustainable world Can we reimagine a way of living in which the nonhuman world matters Anne Marie Dalton and Henry C Simmons claim that the ecotheology that arose during the mid twentieth century gives us reason for hope While ecotheologians acknowledge that Christianity played a significant role in creating societies in which the nonhuman world counted for very little these thinkers have refocused religion to include the natural world To borrow philosopher Charles Taylor s concept they have created a new social imaginary reimagining a better world and a different sense of what is and what should be A new mindset is emerging inspired by ecotheological texts and evident in the many diverse movements and activities that operate as if the hope imparted by ecotheology has already been realized While making this powerful

argument Dalton and Simmons also provide an essential overview of key ecotheological thinkers and texts **Colonialism, Han, and the Transformative Spirit** Grace Ji-Sun Kim, 2013-04-18 Globalism colonialism and consumerism have caused unjust suffering for the earth's exploited peoples and the exploited lands To reverse this tragedy we need to work for a safer sustainable planet and renew our inspiration from God as the transforming Spirit who gives sustains and empowers life to all **Cause for Hope** Bill Phipps, 2007 Global society stands at a crossroads one of those critical moments in the history of humankind The simple fact is that the Earth cannot support our rampant overuse and misuse of its abundant gift of resources Not only are we depleting the forests oceans soil we are also poisoning the air and polluting our rivers lakes and oceans We are living far beyond our means Life as we are creating it is measurably and extravagantly unsustainable Bill Phipps All societies live by their stories This provocative book from one of the most provocative leaders in the Canadian church challenges the governing story that has shaped and defined Western culture and society a story that has manifested itself in ecological destruction war and the obscene military expenditures that go with it unprecedented consumerism economic disparity between rich and poor mistreatment of non white cultures and races sexism and fear Clearly it is time for a new story Bill Phipps takes on the task of outlining the core themes of this new story with the passion and vision of a modern day prophet He shows us the deeply spiritual nature of the issues and choices that confront us Recognizing that the challenges we face are inherently interconnected and can no longer be treated in isolation from each other his approach is multi faceted touching on all aspects of life including the role of the arts in bringing about transformation As a culture and as a society we do indeed stand at a crossroads one of those rare grace moments when we are granted the opportunity to choose our future So the question remains before us Will we choose the way of death or the way of new life Cause for Hope is part warning cry part visionary exploration part encouragement for the journey As such it is itself a cause for hope Each chapter concludes with questions for discussion making this book a valuable resource for study group use **Global Neighbors** Douglas A. Hicks, Mark R. Valeri, 2008-08-20 How can people of faith meet the challenge of living morally and faithfully within an increasingly globalized society Much of the debate about the global market economy is polarized between pro market ideology and anti globalization activism Global Neighbors sidesteps that dichotomy presenting instead a nuanced constructive approach Leading theologians ethicists economists and church leaders here examine the Christian call to live morally faithfully and responsibly in today's global marketplace and offer alternative perspectives to such utilitarians as Peter Singer Contributors Robert D Austin Rebecca M Blank Lee Devin William Goettler Eric Gregory Douglas A Hicks Janet Parker Rebecca Todd Peters Shirley J Roels Mark Valeri Jeff Van Duzer Kent Van Til Thomas W Walker **The New Conspirators** Tom Sine, 2009-10-25 If you have faith as small as a mustard seed Jesus says in the Gospel of Matthew nothing will be impossible for you That sounds good but does it work in a world where seeds are genetically altered by an impatient few and hard to come by for countless others In a world where the gulf between the very rich and the profoundly poor is

constantly growing can a mustard seed faith make any difference And can such a little bit of faith be sustained in a world whose future is so uncertain on so many fronts Tom Sine says yes and he has the audacity to try to prove it in his latest book *In The New Conspirators* Tom surveys the landscape of creative Christianity where streams of renewal are flowing freely from diverse sources The emerging church Contemporary monastic movements The missional church The mosaic movement Individuals and communities of faith are coalescing in and drawing energy from these four streams to retrofit the church as it leads serves and gives witness to the kingdom of God in the turbulent times facing us Read the book and you ll want to and be prepared to join God s conspiracy to create a better future      **Discerning Ethics** Hak Joon Lee,Tim

Dearborn,2020-02-25 The number of ethical issues that demand a response from Christians today is almost dizzying How can Christians navigate such matters With an unflinching yet irenic approach this volume invites engagement with the biggest ethical issues by drawing on real life experiences and offering a range of responses to some of the most challenging moral questions confronting the church today      *Shaking the Gates of Hell* Sharon Delgado,2020-01-07 *Shaking the Gates of Hell* Faith Led Resistance to Corporate Globalization breaks new ground by describing the global economy and its effects from the perspective of an integrated theology of the earth as primary revelation and the institutional powers of this world It reaches the conclusion that hope lies in nonviolent resistance and ecological and social responsibility based on God s action in Jesus and in the triumph of God over the powers This book describes today s interrelated social economic and ecological crises and makes the case that we face a living hell on earth if we do not address them It provides an overview of the global economic system and offers a comprehensive theological analysis of the network of primary institutions that make up what Walter Wink calls the Domination System It points readers in the direction of hope based on following the way of Jesus who lived in nonviolent resistance to the powers of his day This new revised edition continues the powerful story of the original extending the analysis of the global economy from the 2008 collapse and recession to its alleged recovery It addresses the Obama administration s policies on economics trade and the environment and provides further reflections on American foreign and military policy in this so called New American Century      *Holy Anarchy* Graham Adams,2022-08-31 Perhaps after all the decolonising agenda isn t extra baggage the church needs to carry on top of everything else Perhaps instead it is the very heart of what the church should be about disrupting uncomfortable and bringing about a kind of holy anarchy In *Holy Anarchy* Graham Adams points to a realm in which all dynamics of domination not least in the church are subverted It cuts across the loyalties and boundaries of religion and fosters the greatest possible solidarity amongst the different Urgent and timely the book weaves together themes around Empire liberation and decolonial practice with an exploration of the nature and scope of church community interreligious engagement mission and worship      **Eden's Bridge** David B.
