Maldonado,2004-05-01 La pérdida de valores morales que llevan a considerar todo desde una perspectiva groseramente relativista la situación social y económica tan crítica que lleva a tratar de protegernos de cualquier manera posible el materialismo contemporáneo que nos hace creer que teniendo más cosas seremos más felices y otros muchos aspectos similares han provocado una crisis que se refleja y tiene sus efectos en la pareja y familia contemporánea La sociedad ha contagiado su enfermedad a la familia Así pues esta unidad básica sufre los devastadores efectos del tiempo y sociedad en que nos ha tocado vivir Hay algo que se pueda hacer Hay remedio que alivie esa enfermedad El Dr Maldonado nos muestra que para que la familia pueda procesar cualquier situación crítica que estén viviendo y salir adelante por el camino de la recuperación y el crecimiento la mayor parte del tiempo requiere de orientación consejo o asesoría Así pues y desde la perspectiva cristiana en este libro el Dr Maldonado presenta los elementos básicos de la asesoría los criterios que servirán para identificar a una familia sana e ir hacia ella y las metas que se deben perseguir al asesorar y que servirán al asesor o consejero para promover el sano crecimiento tanto de la pareja como de la familia Porque a final de cuentas la familia no es solamente el lugar donde encontramos refugio y alimento La familia por sobre todo es el lugar donde nos formamos como y donde somos verdaderamente humanos y cristianos **Clinical Strategies for Becoming a Master Psychotherapist** William

Blume,2006-03-31 A complete and accessible

resource for working with couples and families Becoming a Family Counselor sets a new standard for family therapy texts Working from a broad historical orientation it focuses on the common themes that reappear across various theoretical approaches and connects family practice with individual approaches Crossing boundaries of generation gender race and

culture this useful introduction presents current thinking related to today's practice issues. The text begins with an overview of couple and family counseling emphasizing the diversity and unity in the field. The development of the field is examined from its roots in the nineteenth century through its identity crisis in the 1980s. Subsequent chapters lay out an integrated approach to contemporary family research, theory, and therapy. Core chapters focus on understanding the contributions of behavioral, organizational, narrative, emotional, and spiritual perspectives. The last section of the book offers practical chapters on conducting family therapy in organizational contexts that often define the client in individual terms. Readers are encouraged to balance a change orientation with a respect for continuity and tradition. Complete with illuminating case studies, self-evaluation exercises, suggestions for independent study, and current ethics codes, *Becoming a Family Counselor* is a dynamic resource suitable for both students and practicing mental health professionals. *Choice*, 1991
