## Identity And Difference:

Identity and Difference Martin Heidegger, 2002-06 Identity and Difference consists of English translations and the original German versions of two little known lectures given in 1957 by Martin Heidegger The Principle of Identity and The Onto theo logical Constitution of Metaphysics Both lectures discuss the difficult problem of the nature of identity in the history of metaphysics A helpful introduction and a list of references are also provided by the translator Joan Stambaugh

**Identity and Difference** Kathryn Woodward, 1997-05-05 Book on identity Identity and Difference Philip T. Grier, 2012-02-01 Identity and difference or sameness and otherness are contrasting but interrelated terms that have played an explicit role in the development of Western philosophy at least since Plato wrote the Sophist As Plato pointed out then and Hegel reiterated more recently in his Science of Logic the proper comprehension of these terms and particularly of their interrelation plays a fundamental role in shaping our conception of philosophical reason itself The contributors in this book examine Hegel s treatment of these terms and the role they play in structuring his philosophical system as a whole and also in shaping his conception of dialectical reasoning Identity and Difference Philip T. Grier, 2008-06-05 Contributors draw on Hegel s account of identity and difference to challenge conventional theories of identity *Identity and Difference* Rafael Winkler, 2017-01-10 This book provides a persuasive account of how identity and difference factor in the debate on the self in the humanities It explores this topic by applying the question to fields such as philosophy cultural studies politics and race studies Key themes discussed in this collection include authenticity in Michel de Montaigne s essays the limits of the narrative constitution of the self the use and abuse of the notion of human nature in political theory and in the current political context of multiculturalism and the feminist notion of the erotic and of sexual violence This book will appeal to readers with an interest in new perspectives on the self within the humanities Feminism, Identity, and Difference Susan J. Hekman, 1999 This study focuses on a set of issues at the forefront of feminist thought in the late 1990s identity difference and their implications for feminist politics As feminism moves into an era in which differences among women the multiple identities of woman and identity politics are all at the centre of feminist discussions new approaches methods and politics are called for **Identity, Difference** William E. Connolly, 2002 Identity\difference William E. Connolly, 2002 In this foundational work in contemporary political theory William Connolly makes a distinctive contribution to our understanding of the relationship between personal identity and democratic politics particularly in the domains of religion ethics sexuality and ethnicity Every identity Connolly argues whether individual or social presents us with a fundamental and troubling paradox an identity establishes itself in relation to a set of differences and it operates under powerful pressures to fix regulate or exclude some of these differences as otherness The dignity of a people or political regime and the quality of democratic culture depends on the acknowledgment and ethos cultivated in response to these pressures In a substantial new essay Connolly responds to the heated controversy surrounding his ideas when Identity Difference was first published in 1991

while augmenting his discussion of the virtues of critical responsiveness The issues of identity and difference cannot be ignored he contends and are ubiquitous in modern life BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Essay on Human Reason: On the Principle of Identity and Difference* Nikola Stojkoski, 2018-03-15 The nature of human reason is one of the thorniest of mysteries in philosophy The reason appears in many specific forms within general areas such as cognition thinking experiencing beauty and moral judgment These forms are perfectly known in philosophy yet an unknown pattern has been noticed which shows us that they are all a variation of the same theme truth is an identity relation between the thought and reality justice is an identity relation between the given and the deserved beauty is an identity relation as rhyme is an identity relation between the final sounds of words rhythm is an identity relation between time intervals symmetry is an identity relation between two halves proportion is an identity relation between two ratios anaphora is an identity relation between the initial words Particular things are identities in themselves and universals are identities between particulars One idea associates another idea identical to it an analogy is an identity between relations induction is an identification between the known and unknown instances and all the logic rests on the law of identity What is common for all of them is the nature of reason itself **Constitutionalism, Identity, Difference, and Legitimacy** Michel Rosenfeld, 1994 Interest in constitutionalism and in the relationship among constitutions national identity and ethnic religious and cultural diversity has soared since the collapse of socialist regimes in Eastern Europe and the former Soviet Union Since World War II there has also been a proliferation of new constitutions that differ in several essential respects from the American constitution These two developments raise many important questions concerning the nature and scope of constitutionalism The essays in this volume written by an international group of prominent legal scholars philosophers political scientists and social theorists investigate the theoretical implications of recent constitutional developments and bring useful new perspectives to bear on some of the longest enduring questions confronting constitutionalism and constitutional theory Sharing a common focus on the interplay between constitutional identity and individual or group diversity these essays offer challenging new insights on subjects ranging from universal constitutional norms and whether constitutional norms can be successfully transplanted between cultures to a consideration of whether constitutionalism affords the means to reconcile a diverse society's quest for identity with its need to properly account for its differences from the relation between constitution making and revolution to that between collective interests and constitutional liberty and equality This collection's broad scope and nontechnical style will engage scholars from the fields of political theory social theory international studies and law Contributors Andrew Arato Aharon Barak Jon Elster George P Fletcher Louis Henkin Arthur J Jacobson Carlos Santiago Nino Ulrich K Preuss David A J Richards Michel Rosenfeld Dominique Rousseau Andr s Saj Frederick Schauer Bernhard Schlink M M Slaughter Cass R Sunstein Ruti G Teitel Robin West **Identity/Difference Politics** Rita Dhamoon, 2010-01-01 Theories of liberal multiculturalism have come to dominate

debates about identity and difference politics in recent contemporary western political theory This book offers a nuanced critique of these debates by questioning liberal multiculturalism's preoccupation with culture and just as important its unintended consequences Identity Difference Politics switches the focus from culture to power Issues of power are examined through accounts of meaning making those processes through which meanings of difference are produced organized and regulated Other forms of identity difference such as whiteness ableism gender and heteronormativity establish the analytic and normative value of Dhamoon's alternative theoretical framework and reveal that an exclusive preoccupation with culture can dissolve into essentialism which too often provides a rationale for state regulation of groups deemed to be too different Students of contemporary political theory multiculturalism identity politics Canadian politics and culture disability studies critical race theory and feminist and gender theory will find it an invaluable resource **The Theory of Knowledge**

Leonard Trelawny Hobhouse, 1896 Urbicide Martin Coward, 2008-09-30 The term urbicide became popular during the 1992-95 Bosnian war as a way of referring to widespread and deliberate destruction of the urban environment Coined by writers on urban development in America urbicide captures the sense that the widespread and deliberate destruction of buildings is a distinct form of violence Using Martin Heidegger's notion of space and Jean-Luc Nancy's idea of community Martin Coward outlines a theoretical understanding of the urban condition at stake in such violence He contends that buildings are targeted because they make possible a plural public space that is contrary to the political aims of ethnic nationalist regimes Illustrated with reference to several post-Cold War conflicts including Bosnia Chechnya and Israel Palestine this book is the first comprehensive analysis of organised violence against urban environments It offers an original perspective to those seeking to better understand urbanity political violence and the politics of exclusion *Nothing Outside*
