Intergroup dialogue is offered as a cocurricular activity on some campuses and as a course or part of a course on others. The practice of intergroup dialogue is considered a substantive and meaningful avenue for preparing college graduates with the knowledge, commitment, and skills essential for living and working in a diverse yet socially stratified society. The research evidence supports the promise of intergroup dialogues to meet its educational goals: consciousness raising, building relationships across differences and conflicts, and strengthening individual and collective capacities to promote social justice. This volume outlines the theory, practice, and research on intergroup dialogue. It also offers educational resources to support the practice of intergroup dialogue. Addressing faculty, administrators, student affairs personnel, students, and practitioners, this volume is a useful resource for anyone implementing intergroup dialogues in higher education. This is the 4th issue of the 32nd volume of the Jossey-Bass report series ASHE Higher Education Report Series. Each monograph in the series is the definitive analysis of a tough higher education problem based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.
