The Awakened Ones Gananath Obeyesekere, 2012-02-07 While a rational consciousness grasps many truths Gananath Obeyesekere believes an even richer knowledge is possible through a bold confrontation with the stuff of visions and dreams Spanning both Buddhist and European forms of visionary experience he fearlessly pursues the symbolic nonrational depths of such phenomena reawakening the intuitive creative impulses that power greater understanding Throughout his career Obeyesekere has combined psychoanalysis and anthropology to illuminate the relationship between personal symbolism and religious

experience In this book he begins with Buddha's visionary trances wherein over the course of four hours he witnesses hundreds of thousands of his past births and eons of world evolution renewal and disappearance He then connects this fracturing of empirical and visionary time to the realm of space considering the experience of a female Christian penitent who stares devotedly at a tiny crucifix only to see the space around it expand to mirror Christ's suffering Obeyesekere follows the unconscious motivations underlying rapture the fantastical consumption of Christ's body and blood and body mutilation and levitation bridging medieval Catholicism and the movements of early modern thought as reflected in William Blake's artistic visions and poetic dreams He develops the term dream ego through a discussion of visionary journeys Carl Jung's and Sigmund Freud's scientific dreaming and the cosmic and erotic dream visions of New Age virtuosos and he defines the parameters of a visionary mode of knowledge that provides a more elastic understanding of truth A career culminating work this volume translates the epistemology of Hindu and Buddhist thinkers for western audiences while revitalizing western philosophical and scientific inquiry
