HISTORY

On Earth Two, oceanographer Raymond Martin led a secluded life from his laboratory on a private, uncharted island near the Bikini Atoll in the mid 1940's. Because he neglected to repair his long-damaged radio, he was unaware of the United States military's plans to conduct an underwater atomic bomb test at the nearby atoll during his scientific diving expedition on July 25, 1946. Bombarded by the radiation from the bomb blast, Martin not only miraculously survived, but was somehow transformed into a being charged with atomic energy.

Upon returning to his laboratory, Martin was astounded to discover his newfound atomic-powered abilities, and modified the diving suit he was wearing into a uniform befitting his sudden plans to create a super-heroic identity. After spending a few weeks mastering his powers, Martin made his public debut as Firestorm, the Atomic Man, by defending a Wake Island-stationed Navy vessel from a pirate attack. This act caught the attention of the Earth-Two Aquaman (see Aquaman I), as well as Naval officer Doris Dane, who subsequently pursued a flirtatious courtship with the smitten atomic hero.

As a result of his continuing to reside at his island laboratory over the next several months, Martin had been exposed to additional radiation from further atomic bomb tests at the Bikini Atoll, which had increased his powers at the cost of a slow deterioration of his body and mind.

Driven mad and seeking revenge on the military for his current condition, Firestorm attacked the Wake Island Naval base. This soon led to a confrontation with Aquaman, who arrived on the scene in response to the base's distress signal. After several minutes of rage-induced battle, Firestorm regained his senses somewhat after seeing Aquaman save Dane from an errant atomic blast. Realizing that his body was becoming more and more unstable, Firestorm launched himself skyward, managing to travel a safe distance away from the base before he exploded in the upper atmosphere.

FIRESTORM

THE ATOMIC MAN

POWERS & WEAPONS

An average hand-to-hand combatant, Firestorm had the power to generate extreme heat as well as hurl highly focused atomic firebolts that could burn through virtually any material, even solid steel. He was also able to fly by continuously firing these firebolts from

his hands for propulsion. He could also absorb atomic radiation into his body for an extra surge of power, but the use of this ability caused incremental and irreparable damage to himself.

Firestorm's hair appeared to be aflame, but this effect did not seem to harm him.
