Desarrollo sostenible en la frontera norte de México: César M. Fuentes, Sergio Peña, 2018-08-02 Desarrollo sostenible en la frontera norte de México Reflexiones para una agenda de acción expone un conjunto de problemáticas referidas al desarrollo sostenible aplicado a ciudades y territorios localizados en la frontera norte de México y en algunos casos a pares de ciudades transfronterizas En este libro se presentan una serie de trabajos inscritos en el componente urbano y ambiental que constituyen un esfuerzo por superar la deuda que el enfoque del desarrollo aún tiene en términos de resultados concretos para las condiciones de vida de las personas más allá de temáticas como el aumento de emisiones de CO2 el incremento del uso del vehículo propio y el congestionamiento vehicular En ese sentido la línea argumental de este trabajo es entender el desarrollo sostenible como un proceso reflexivo y crítico orientado a la mejora continua de las condiciones sociales culturales económicas ambientales e institucionales de un país y sus territorios mediante la consideración de los contextos particulares en que tiene lugar la sostenibilidad del desarrollo Las contribuciones que aquí se presentan buscan resaltar diversos temas pertinentes para las áreas urbanas de la frontera norte y la región transfronteriza unos más visibles que otros pero que tocan fibras sensibles de la sostenibilidad en la vida de las poblaciones que habitan la frontera norte de México

El criterio cultural para comprender territorios, regiones y su desarrollo: paisaje, identidad, patrimonio cultural y turismo en la región de la Ciénega de Chapala, Michoacán Omar Ernesto Roque Bernal, 2024-11-07 El criterio cultural es un elemento de suma importancia para la comprensión de regiones y sus procesos de desarrollo esto haciendo uso de conceptos como paisaje identidad patrimonio cultural y turismo dentro de ocho estudios te

ricos y empobrecidos ubicados en regiones michoacanas como la Ciénega del Chapala o la zona alta del río Itzcuaro. El primer estudio hace un análisis jurídico de los conceptos de paisaje y conservación. El siguiente estudio es geográfico aplicado en el área de la cuenca alta del río Itzcuaro analiza los tipos de uso de suelo desde el manejo de conceptos como paisaje y cultura. Continuamos con un estudio comparativo entre Jiquilpan Michoacán y San Luisito Guanajuato a partir de su producción artesanal entendida como representación cultural integrada al paisaje. Se sigue con un estudio desde la arquitectura sobre los cambios socioculturales en asentamientos indígenas en la Ciénega del Chapala. Luego se presenta un estudio histórico y del valor patrimonial de los alimentos y gastronomía de Sahuayo que permite entender valores de identidad y potencialidades de desarrollo. Le sigue un estudio sobre las posibilidades de un ordenamiento territorial desde un criterio cultural en el área Jiquilpan Sahuayo. El penúltimo estudio es una propuesta de ruta turística para la misma región desde la identificación de puntos de patrimonio cultural. Se concluye con un estudio sobre el potencial del turismo cultural y sustentable como impulsor del desarrollo local. Se espera que esta obra permita la comprensión del valor de la cultura para planificar e incidir en el desarrollo de territorios y regiones.

Catalog University of Texas. Library. Latin American Collection, 1969 *The Lerma-Chapala Watershed* Anne M. Hansen, Manfred van Afferden, 2012-12-06 James O Leckie Environmental Engineering and Science Program Department of Civil and Environmental Engineering Stanford University Stanford California 94305 4020 USA Nearly 10 years have passed since the beginning of the systematic studies of the Lerma Chapala Basin coordinated by the Instituto Mexicano de Tecnología del Agua. Although many public and private institutions, universities and research centers have conducted studies on the Lerma Chapala Basin over the last two decades, the need for a comprehensive summary of the findings of those studies has become increasingly obvious and important for this critical water resource. The Lerma Chapala Basin is located in the central part of Mexico and partly occupies five states. The watershed comprises the Lerma river and Lake Chapala. With a length of over 700 km, the tributary watershed covers 2 approximately 54 000 km. The basin accounts for more than one third of the country's economic activity, one fifth of all commerce and one eighth of the nation's agricultural land. The watershed receives 3% of the country's total rainfall, less than 1 % of the runoff and accounts for 13% of the total groundwater.

Los indios de México en el siglo XXI Héctor Hernández Bringas, 2007 **Un siglo de educación pública en México**, 2025-04-08 El gran interés por recorrer las veredas de una trayectoria educativa nacional en el siglo XX y lo que vamos viviendo del siglo XXI va más allá de la curiosidad intelectual del historiador porque el conocimiento del desarrollo educativo mexicano es un elemento fundamental para la comprensión del proceso de integración del Estado y la sociedad del México moderno y contemporáneo. Si no entendemos y atendemos la dimensión educativa del proyecto nacional o proyecto de nación es difícil comprender por ejemplo la dinámica de modernización del país a lo largo de la centuria, la secularización del Estado y la presencia de un polo de poder hegemónico que con variantes importantes ocupa el escenario político del siglo pasado y las principales contradicciones educativas políticas sociales y culturales hasta las dos primeras décadas del siglo.
