Reading and Writing the Latin American Landscape B. Rivera-Barnes, J. Hoeg, 2009-12-07 Spanning the whole of Latin America including Brazil from its beginnings in 1492 up to the present time Rivera Barnes and Hoeg analyze the relationship between literature and the environment in both literary and testimonial texts asking questions that contribute to the on going dialogue between the arts and the sciences

The Political Spirituality of Cesar Chavez Luis D. Leon, 2014-11-14 The Political Spirituality of Cesar Chavez Crossing Religious Borders maps and challenges many of the mythologies that surround the late iconic labor leader Focusing on Chavez's own writings Leon argues that La Causa can be fruitfully understood as a quasi religious movement based on Chavez's charismatic leadership which he modeled after Martin Luther King Jr and Gandhi Chavez recognized that spiritual prophecy or political spirituality was the key to disrupting centuries old dehumanizing narratives that conflated religion with race Chavez's body became emblematic for Chicano identity and enfolded a living revolution While there is much debate and truth seeking around how he is remembered through investigating the leader's construction of his own public memory the author probes the meaning of the discrepancies By refocusing Chavez's life and beliefs into three broad movements mythology prophecy and religion Leon brings us a moral and spiritual agent to match the political leader

Salsa Consciente Andrés Espinoza Agurto, 2021-12-01 This volume explores the significations and developments of the Salsa consciente movement a Latino musico poetic and political discourse that exploded in the 1970s but then dwindled in momentum into the early 1990s This movement is largely linked to the development of Nuyolatinos popular music brought about in part by the mass Latino migration to New York City beginning in the 1950s and the subsequent social movements that were tied to the shifting political landscapes Defined by its lyrical content alongside specific sonic markers and political and social issues facing U S Latinos and Latin Americans Salsa consciente evokes the overarching cultural nationalist idea of Latinidad Latin-ness Through the analysis of over 120 different Salsa songs from lyrical and musical perspectives that span a period of over sixty years the author makes the argument that the urban Latino identity expressed in Salsa consciente was constructed largely from diasporic deterritorialized and at times imagined cultural memory and furthermore proposes that the Latino Latin American identity is in part based on African and Indigenous experience especially as it relates to Spanish colonialism A unique study on the intersection of Salsa and Latino and Latin American identity this volume will be especially interesting to scholars of ethnic studies and musicology alike

The Mahabharata : A Summary For Beginners Madhavan Kutty Manikath, The Mahabharata A Summary For Beginners

Chicano Nations Marissa K. López, 2011-10-01 Part of the American Literatures Initiative Series Chicano Nations argues

that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the laboring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where Marissa K L pez locates the origins of Chicano literature which is now and always has been postnational encompassing the wealthy the poor the white and the mestizo Tracing its long history and the diversity of subject positions it encompasses Chicano Nations explores the shifting literary forms authors have used to write the nation from the nineteenth to the twenty first centuries L pez argues that while national and global tensions lie at the historical heart of Chicana o narratives of the nation there should be alternative ways to imagine the significance of Chicano literature other than as a reflection of national identity In a nuanced analysis the book provides a way to think of early writers as a meaningful part of Chicano literary history and in looking at the nation rather than the particularities of identity as that which connects Chicano literature over time it engages the emerging hemispheric scholarship on U S literature

Impurity of Blood Joshua Goode, 2009-12 Impurity of Blood analyzes the proposition of Spanish racial thought in the late 19th and early 20th centuries that racial strength came from a fusion of different groups rather than from a kind of racial purity By providing a history of ethnic thought in Spain in the medieval and early modern era and by studying the formation of racial thought in Spain's nascent human sciences and its political and cultural manifestations leading into the Franco regime it provides a new view of racial thought in Europe and its connections to the larger twentieth century formation of racial thought in the West

The Mexican American Orquesta Manuel Peña, 1999 The Mexican American orquesta is neither a Mexican nor an American music Relying on both the Mexican orquesta and the American dance band for repertorial and stylistic cues it forges a synthesis of the two The ensemble emerges historically as a powerful artistic vehicle for the expression of what Manuel Peña calls the dialectic of conflict Grounded in ethnic and class conflict this dialectic compels the orquesta and its upwardly mobile advocates to waver between acculturation and ethnic resistance The musical result a complex mesh of cultural elements Mexican and American working and middle class traditional and contemporary In this book Manuel Peña traces the evolution of the orquesta in the Southwest from its beginnings in the nineteenth century through its pinnacle in the 1970s and its decline since the 1980s Drawing on fifteen years of field research he embeds the development of the orquesta within a historical materialist matrix to achieve the optimal balance between description and interpretation Rich in ethnographic detail and boldly analytical his book is the first in depth study of this important but neglected field of artistic culture

La Raza Habla, 1982 *Poetry in Pieces* Michelle Clayton, 2011-01-10 Set against the cultural and political backdrop of interwar Europe and the Americas Poetry in Pieces is the first major study of the Peruvian poet César Vallejo 1892-1938 to appear in English in more than thirty years Vallejo lived and wrote in two distinct settings Peru and Paris which were continually crisscrossed by new developments in aesthetics

politics and practices of everyday life his poetry and prose therefore need to be read in connection with modernity in all its forms and spaces Michelle Clayton combines close readings of Vallejo's writings with cultural historical and theoretical analysis connecting Vallejo and Latin American poetry to the broader panorama of international modernism and the avant garde and to writers and artists such as Rainer Maria Rilke James Joyce Georges Bataille and Charlie Chaplin Poetry in Pieces sheds new light on one of the key figures in twentieth century Latin American literature while exploring ways of rethinking the parameters of international lyric modernity **The Epic of Latin American Literature** Arturo

Torres-Rioseco, **Rise and Fall of the Cosmic Race** Marilyn Grace Miller, 2009-07-21 Latin America is characterized by a uniquely rich history of cultural and racial mixtures known collectively as mestizaje These mixtures reflect the influences of indigenous peoples from Latin America Europeans and Africans and spawn a fascinating and often volatile blend of cultural practices and products Yet no scholarly study to date has provided an articulate context for fully appreciating and exploring the profound effects of distinct local invocations of syncretism and hybridity Rise and Fall of the Cosmic Race fills this void by charting the history of Latin America's experience of mestizaje through the prisms of literature the visual and performing arts social commentary and music In accessible jargon free prose Marilyn Grace Miller brings to life the varied perspectives of a vast region in a tour that stretches from Mexico and the Caribbean to Brazil Ecuador and Argentina She explores the repercussions of mestizo identity in the United States and reveals the key moments in the story of Latin America's cult of synthesis Rise and Fall of the Cosmic Race examines the inextricable links between aesthetics and politics and unravels the threads of colonialism woven throughout national narratives in which mestizos serve as primary protagonists Illuminating the ways in which regional engagements with mestizaje represent contentious sites of nation building and racial politics Miller uncovers a rich and multivalent self portrait of Latin America's diverse populations *The Companion to Latin American Studies* Philip Swanson, 2014-04-04 What is Latin American Studies This companion gives a concise and accessible overview of the discipline Covering a wide range of topics from colonial cultures and identity to US Latino culture and issues of race gender and sexuality this book goes beyond conventional literary companions and situates Latin America in its historical social political literary and cultural context This essential book provides the key introductory information on the subject and will be especially useful for students taking or considering taking courses in Hispanic or Latin American Studies Written by an international team of experts each chapter supplies the necessary basic information and a sound introduction to central ideas issues and debates In addition to 12 chapters on the main topics in Latin American Studies the companion includes an introduction time chart glossary and suggestions for further reading *Empire of Language* Laurent Dubreuil, 2013-04-19 The relationship between power and language has been a central theme in critical theory for decades now yet there is still much to be learned about the sheer force of language in the world in which we live In Empire of Language Laurent Dubreuil explores the power language phenomenon in the context of European and particularly French colonialism and its aftermath

Through readings of the colonial experience he isolates a phraseology based on possession in terms of both appropriation and haunting that has persisted throughout the centuries Not only is this phraseology a legacy of the past it is still active today especially in literary renderings of the colonial experience but also and more paradoxically in anticolonial discourse This phrase shaped the teaching of European languages in the former empires and it tried to configure the usage of those idioms by the Indigenes Then scholarly disciplines have to completely reconsider their discursive strategies about the colonial if at least they attempt to speak up Dubreuil ranges widely in terms of time and space from the ancien r gime through the twentieth century from Paris to Haiti to Quebec from the Renaissance to the riots in the banlieues He examines diverse texts from political speeches legal documents and colonial treatises to anthropological essays poems of the N gritude and contemporary rap ever attuned to the linguistic strategies that undergird colonial power Equally conversant in both postcolonial criticism and poststructuralist scholarship on language but also deeply grounded in the sociohistorical context of the colonies Dubreuil sets forth the conditions for an authentically postcolonial scholarship one that acknowledges the difficulty of getting beyond a colonialism and still maintains the need for an afterward *Mythohistorical Interventions* Lee Bebout,2011 The importance of myth symbol and image in the Chicano movement and beyond The Unfinished Art of Theater Sarah J. Townsend,2018-07-15 A certain idea of the avant garde posits the possibility of a total rupture with the past The Unfinished Art of Theater pulls back on this futuristic impulse by showing how theater became a key site for artists on the semiperiphery of capitalism to reconfigure the role of the aesthetic between 1917 and 1934 The book argues that this unfinished art precisely because of its historic weakness as a representative institution in Mexico and Brazil where the bourgeois stage had not yet coalesced was at the forefront of struggles to redefine the relationship between art and social change Drawing on extensive archival research Sarah J Townsend reveals the importance of projects and texts that belie the rhetoric of rupture and immediacy associated with the avant garde ethnographic operas with ties to the recording industry populist puppet plays children s radio programs about the wonders of technology a philosophical drama about the birth of a new race and an antifascist spectacle written for but never performed at a theater shut down by the police Ultimately the book makes the case that the very category of avant garde art is bound up in the experience of dependency delay and the uneven development of capitalism *Modern American Counter Writing* A. Robert Lee,2010-01-21 The dissident voice in US culture might almost be said to have been born with the territory Its span runs from Roger Williams to Thoreau Anne Bradstreet to Gertrude Stein Ambrose Bierce to the New Journalism The Beats to the recent Bad Subjects cyber crowd This new study analyses three recent literary tranches in the tradition a re envisioning of the whole Beat web or circuit a consortium of postwar outrider voices Hunter Thompson to Frank Chin Joan Didion to Kathy Acker and a latest purview of what all too casually has been designated ethnic writing The aim is to set up and explore these different counter seams of modern American writing those which sit outside or at least awkwardly within agreed literary canons **Intersections of**
