Bibliographie Linguistique de L'annee 1999 Mark Janse,Hella Olbertz,Sijmen Tol,2003-11-30 Setting out the historical national and religious characteristics of the Italians as they impact on the integration within the European Union this study makes note of the two characteristics that have an adverse effect on Italian national identity cleavages between north and south and the dominant role of family It discusses how for Italians family loyalty is stronger than any other allegiance including feelings towards their country their nation or the EU Due to such subnational allegiances and values this book notes that Italian civic society is weaker and engagement at the grass roots is less robust than one finds in other democracies leaving politics in Italy largely in the hands of political parties The work

concludes by noting that EU membership however provides no magic bullet for Italy it cannot change internal cleavages the Italian worldview and family values or the country's mafia dominated power matrix and as a result the underlying absence of fidelity to a shared polity Italian or European leave the country as ungovernable as ever The Routledge Handbook of Variationist Approaches to Spanish Manuel Díaz-Campos, 2021-10-12 The Routledge Handbook of Variationist Approaches to Spanish provides an up to date overview of the latest research examining sociolinguistic approaches to analyzing variation in Spanish Divided into three sections the book includes the most current research conducted in Spanish variationist sociolinguistics This comprehensive volume covers phonological morphosyntactic social and lexical variation in Spanish Each section is further divided into subsections focusing on specific areas of language variation highlighting the most salient and current developments in each subfield of Hispanic sociolinguistics As such this Handbook delves further into the details of topics relating to variation and change in Spanish than previous publications with a focus on the symbolic sociolinguistic value of specific phenomena in the field Encouraging readers to think critically about language variation this book will be of interest to advanced undergraduate and graduate students as well as researchers seeking to explore lesser known areas of Hispanic sociolinguistics The Routledge Handbook of Variationist Approaches to Spanish will be a welcome addition to specialists and students in the fields of linguistics Hispanic linguistics sociolinguistics and linguistic anthropology
