Lewis, 2015-12-30 The book analyzes the social consequences of recent development strategies in Latin America The volume introduces readers to official strategies private initiatives and individual responses to issues of welfare and poverty during the twentieth century These issues are addressed from several disciplines A substantial introduction is followed by a wide range of case studies including Pinochet's Chile the Haiti of the Duvaliers and Nicaragua under the somocistas and sandinistas as well as Brazil Mexico the Argentine Cuba and Colombia **UN Contributions to Development Thinking and Practice** Richard Jolly, Louis Emmerij, Dharam Ghai, Frédéric Lapeyre, 2004-06-18 UN Contributions to Development Thinking and Practice is at once a history of the ideas and realities of international development from the classical economists to the recent emphasis on human rights and a history of the UN's role in shaping and implementing development paradigms over the last half century The authors all prominent in the field of development studies argue that the UN's founding document the UN Charter is infused with the human values and human concerns that are at the center of the UN's thinking on economic and human development today In the intervening period the authors show how the UN's approach to development evolved from mainstream areas of economic development to include issues of employment poverty reduction fairer distribution of the benefits of growth equality of men and women child development social justice and environmental sustainability *Social Development and Public Policy* D. Twenty Years of Studying

Democratization Aurel Croissant, Jeffrey Haynes, 2016-01-08 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball game in terms of global political developments The journal s first issue appeared in early 1994 Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders In short the journal wants to promote a better understanding of democratization defined as the way democratic norms institutions and practices evolve and are disseminated both within and across national and cultural boundaries Over the years the many excellent articles that we have featured in the journal have shared our focus on democratization viewed as a process The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy how and why it emerges develops and becomes consolidated Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative We include special reference to democratization in the developing world and in post communist societies In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers administrators and journalists aid and development personnel those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere

Structural Adjustment and the Agricultural Sector in Latin America and the Caribbean

John Weeks, 2016-01-03 As a result of the regional debt crisis most governments of Latin America in the 1980s entered into a process of profound policy change from an import substitution oriented strategy to a focus upon export

promotion with an emphasis upon market liberalisation According to mainstream economic theory the effect of this shift would be to favour agriculture This book with contributors from Latin America and Europe surveys the results on agriculture of a decade of policy change and to produce new and unexpected insights **Cuban Studies 19** Carmelo Mesa-Lago,1989-11-01 Cuban Studies has been published annually by the University of Pittsburgh Press since 1985 Founded in 1970 it is the preeminent journal for scholarly work on Cuba Each volume includes articles in both English and Spanish a large book review section and an exhaustive compilation of recent works in the field **Cuba in Transition** Association for the Study of the Cuban Economy.
