Inventing Unemployment Anthony O'Donnell,2019-12-12 This book examines the evolution of Australian unemployment law and policy across the past 100 years It poses the question How does unemployment happen But it poses it in a particular way How do we regulate work relationships gather statistics and administer a social welfare system so as to produce something we call unemployment And how has that changed over time Attempts to sort workers into discrete categories the employed the unemployed those not in the labour force are fraught and do not always easily correspond with people s working lives Across the first decades of the twentieth century trade unionists statisticians and advocates of social insurance in Australia as well as Britain grappled with the problem of which forms of joblessness should be classified as unemployment and which should not This book traces those debates It also chronicles the emergence and consolidation of a specific idea of unemployment in Australia after the Second World War It then charts the eventual unravelling of that idea and relates that unravelling to the changing ways of ordering employment relationships In doing so *Inventing Unemployment* challenges the preconception that casual work self employment and the gig economy are recent phenomena Those forms of work confounded earlier attempts to define unemployment and are again unsettling our contemporary understandings of joblessness This thought provoking book shows that the category of unemployment rather than being a taken for granted economic variable has its own history and that history is intimately related to our changing understandings of employment

The Empire at War: Australia, New Zealand, the Pacific Islands Sir Charles Prestwood Lucas,1924 **T.H. Green**
and the Development of Ethical Socialism Matt Carter,2016-11-16 This book uncovers the philosophical foundations of a tradition of ethical socialism best represented in the work of R H Tawney tracing its roots back to the work of T H Green Green and his colleagues developed a philosophy that rejected the atomistic individualism and empiricist assumptions that underpinned classical liberalism and helped to found a new political ideology based around four notions the common good a positive view of freedom equality of opportunity and an expanded role for the state The book shows how Tawney adopted the key features of the idealists philosophical settlement and used them to help shape his own notions of true freedom and equality thereby establishing a tradition of thought which remains relevant in British politics today **Select List of Books**

Making of Postcolonial Britain Camilla Schofield,2013-10-03 Enoch Powell s explosive rhetoric against black immigration and anti discrimination law transformed the terrain of British race politics and cast a long shadow over British society Using

extensive archival research Camilla Schofield offers a radical reappraisal of Powell's political career and insists that his historical significance is inseparable from the political generation he sought to represent Enoch Powell and the Making of Postcolonial Britain follows Powell's trajectory from an officer in the British Raj to the centre of British politics and finally to his turn to Ulster Unionism She argues that Powell and the mass movement against New Commonwealth immigration that he inspired shed light on Britain's war generation popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain Through Powell Schofield illuminates the complex relationship between British social democracy racism and the politics of imperial decline in Britain **National Union Gleanings** ,1924

Labor and Industry in Britain ,1950 *Arguing about Empire* Martin Thomas,Richard Toye,2017-03-09 Arguing about Empire analyses the most divisive arguments about empire between Europe's two leading colonial powers from the age of high imperialism to the post war era of decolonization Focusing on the domestic contexts underlying imperial rhetoric Arguing about Empire adopts a case study approach treating key imperial debates as historical episodes to be investigated in depth The episodes in question have been selected both for their chronological range their variety and above all their vitriol Some were straightforward disputes others involved cooperation in tense circumstances These include the Tunisian and Egyptian crises of 1881-2 which saw France and Britain establish new North African protectorates ostensibly in co operation but actually in competition the Fashoda Crisis of 1898 when Britain and France came to the brink of war in the aftermath of the British re conquest of Sudan the Moroccan crises of 1905 and 1911 early tests of the Entente Cordiale when Britain lent support to France in the face of German threats the 1922 Chanak crisis when that imperial Entente broke down in the face of a threatened attack on Franco British forces by Kemalist Turkey World War Two which can be seen in part as an undeclared colonial war between the former allies complicated by the division of the French Empire between De Gaulle's Free French forces and those who remained loyal to the Vichy Regime and finally the 1956 Suez intervention when far from defusing another imperial crisis Britain colluded with France and Israel to invade Egypt the culmination of the imperial interference that began some eighty years earlier **Race, Discourse and Labourism** Caroline Knowles,2005-07-25 Race Discourse and Labourism argues that the commonwealth of socialism is founded upon a well concealed history of brutality and repression Caroline Knowles details the historical conditions of the emergence of race through Labour's dealings with Indian independence negotiations and anti semitism in the thirties and the effects of this on the conceptions of black citizenship multi racialism and black representation in labour politics *A new Greek and English lexicon* James Donnegan,1844

Labor Bulletin Massachusetts. Department of Labor and Industries. Division of Statistics,1914 *The Empire at War* Sir Charles Prestwood Lucas,1924 *McCawley and Trethowan - The Chaos of Politics and the Integrity of Law - Volume 2* Ian Loveland,2021-07-01 In the second part of this two volume study Ian Loveland delves deeply into the immediate historical and political context of the Trethowan litigation which began in New South Wales in 1930 and reached the Privy Council two

years later The litigation centred on the efforts of a conservatively inclined government to prevent a future Labour administration led by the then radical politician Jack Lang abolishing the upper house of the State s legislature by entrenching the existence of the upper house through the legal device of requiring that its abolition be approved by a state wide referendum The book carefully examines the immediate political and legal routes of the entrenchment device fashioned by the State s Premier Sir Thomas Bavin and his former law student colleague and then Dean of the Sydney University law school Sir John Peden and places the doctrinal arguments advanced in subsequent litigation in the State courts before the High Court and finally in the Privy Council in the multiple contexts of the personal and policy based disputes which pervaded both the State and national political arenas In its final chapter the book draws on insights provided by the detailed study of McCawley in volume one and Trethowan to revisit and re evaluate the respective positions adopted by William Wade and Ivor Jennings as to the capacity of the United Kingdom s Parliament to introduce entrenching legislation which would be upheld by the courts

Labour's First Century Duncan Tanner,Pat Thane,Nick Tiratsoo,2000-09-11 The Labour Party s centenary is an appropriate moment to evaluate its performance across the twentieth century and to reflect on why a party which has so many achievements to its credit nonetheless spent so much of the period in opposition Duncan Tanner Pat Thane and Nick Tiratsoo have assembled a team of acknowledged experts who cover a wide range of key issues from economic policy to gender The editors also provide a lucid accessible introduction Labour s First Century covers the most important areas of party policy and practice always placing these in a broader context Taken together these essays challenge those who minimize the party s contribution whilst they also explain why mistakes and weaknesses have occurred Everyone interested in British political history whether supporters or opponents of the Labour Party will need to read Labour s First Century
