and music composition this reference work is ideal for scholars researchers practitioners academicians administrators instructors and students

**Teaching and Evaluating Music Performance at University** John Encarnacao, Diana Blom, 2020-04-28 Fresh perspectives on teaching and evaluating music performance in higher education are offered in this book One to one pedagogy and Western art music once default positions of instrumental teaching are giving way to a range of approaches that seek to engage with the challenges of the music industry and higher education sector funding models of the twenty first century Many of these approaches formal informal semi autonomous notated using improvisation or aleatory principles incorporating new technology are discussed here Chapters also consider the evolution of the student play as a medium for learning reflective essay writing multimodal performance interactivity and assessment criteria The contributors to this edited volume are lecturer practitioners choristers instrumentalists producers and technologists who ground their research in real life situations The perspectives extend to the challenges of professional development programs and in several chapters incorporate the experiences of students Grounded in the latest music education research the book surveys a contemporary landscape where all types of musical expression are valued not just those of the conservatory model of decades past This volume will provide ideas and spark debate for anyone teaching and evaluating music performance in higher education

**Creating Cultural Capital** Olaf Kuhlke, Annick Schramme, Rene Kooyman, 2015-06-12 In recent years the global creative economy has experienced unprecedented growth Considerable research has been conducted to determine what exactly the creative economy is what occupations are grouped together as such and how it is to be measured Organizations on various scales from the United Nations to local governments have released creative or cultural economy reports developed policies for creative urban renewal and directed attention to creative placemaking the purposeful infusion of creative activity into specific urban environments Parallel to these research and policy interests academic institutions and professional organizations have begun a serious discussion about training programs for future professionals in the creative and cultural industries We now have entire colleges offering undergraduate and graduate programs leading to degrees in arts management arts entrepreneurship cultural management cultural entrepreneurship or cultural economics And many professional organizations offer specialized training and certificates in cultural heritage museums studies entertainment and film In this book we bring together over fifty scholars from across the globe to shed light on what we collectively call cultural entrepreneurship the training of professionals for the creative industries who will be change agents and resourceful visionaries that organize cultural financial social and human capital to generate revenue from a cultural and creative activity Part I of this volume begins with the observation that the creative industries and the cultural entrepreneurship generated within them are a global phenomenon An increasingly mobile international workforce is moving cultural goods and services across national boundaries at unprecedented rates As a result the education of cultural professionals engaged in global commerce has become equally internationalized Part II looks into the emergence of cultural entrepreneurship as a new

academic discipline and interrogates the theoretical foundations that inform the pedagogy and training for the creative industries Design thinking humanities poetics risk strategy and the artist entrepreneur dichotomy are at the heart of this discussion Part III showcases the design of cultural entrepreneurship curricula and the pedagogies employed in teaching artists and culture industry specialists Our authors examine pedagogy and curriculum at various scales and in national and international contexts from the creation of entire new schools to undergraduate graduate programs Part IV provides case studies that focus on industry or sector specific training skills based courses information technology social media entrepreneurial competitions and more Part V concludes the book with selected examples of practitioner training for the cultural industries as it is offered outside of academia In addition this section provides examples of how professionals outside of academia have informed academic training and course work Readers will find conceptual frameworks for building new programs for the creative industries examples of pedagogical approaches and skillsbased training that are based on research and student assessments and concrete examples of program and course implementation

### **Artist Development Essentials**

Hristo Penchev,2019-01-31 As a constantly evolving and developing industry the music business environment continues to establish new standards in terms of operational efficiency dynamics between the different parties involved in the professional cycles and constructing and performing methodologies in the process of achieving the desired results that all the participants in the music world have to adapt to in order to establish a sustainable career Hence the main purpose of this book is to provide practical advice suitable to both aspiring music professionals and artists that need detailed guidance in the process of developing the basis of a fruitful promising and sustainable profile not only in terms of business performance but psychologically as well

**The Oxford Handbook of Social Media and Music Learning** Janice L. Waldron,Stephanie Horsley,Kari K. Veblen,2020-09-23 The rapid pace of technological change over the last decade particularly the rise of social media has deeply affected the ways in which we interact as individuals in groups and among institutions to the point that it is difficult to grasp what it would be like to lose access to this everyday aspect of modern life The Oxford Handbook of Social Media and Music Learning investigates the ways in which social media is now firmly engrained in all aspects of music education providing fascinating insights into the ways in which social media musical participation and musical learning are increasingly entwined In five sections of newly commissioned chapters a refreshing mix of junior and senior scholars tackle questions concerning the potential for formal and informal musical learning in a networked society Beginning with an overview of community identity and the new musical self through social media scholars explore intersections between digital musical and social constructs including the vernacular of born digital performance musical identity and projection and the expanding definition of musical empowerment The fifth section brings this handbook to full practical fruition featuring firsthand accounts of digital musicians students and teachers in the field The Oxford Handbook of Social Media and Music Learning opens up an international discussion of what it means to be a musical community member in an age of

technologically mediated relationships that break down the limits of geographical cultural political and economic place

**Developing Creativities in Higher Music Education** Pamela Burnard, 2013-10-08 This is the first book to critically address the issue of how we can enhance and develop creativities in higher music education It features new international richly diverse perspectives on the nature and practice of creativities in different cultural and institutional contexts in varying roles and in response to diverse professional pressures and expectations of artistic and educational achievement This compelling and provocative book combines powerful social and educational commentaries and examples drawn from international sources based on original practices and experience of a diversity of creativities The authors provide an important contribution by drawing attention to what is at the heart of all music and how we can understand and foster these multiple creativities at an individual and institutional level It features new analyses of the question of creativities in higher music education and offers illustrative and innovative examples of adaptive learning environments for teaching and learning creatively considering the broader issue of the role of creativities in relation to educational policy in the context of increasingly interventionist governments and rapidly paced educational change Topics covered include the conceptual tools for people to think about and debate multiple creativities the role of creativities in higher music education how musicians can develop multiple creativities in new ways new approaches to teaching and learning for multiple creativities what constitute leadership creativities in conservatoires and music departments creativities at the interface of institutional learning cultures assessing the multiple creativities of music *Developing Creativities in Higher Music Education* offers a multi disciplinary research and practice focus which will be essential reading for anyone involved in higher education and industry sectors The book will appeal to academics and practitioners in music researchers instrumental and vocal teachers curriculum and policy developers and institutional managers who want to enrich the higher education experiences of their students and enable them to develop more of their creative potential It is also ideal reading for undergraduate and postgraduate students of music education who are looking for an authoritative selection of writings that define the fields of musical creativities in one comprehensive volume

*Beyond the Beat* Daniel B. Cornfield, 2018-11-27 At a time when the bulwarks of the music industry are collapsing what does it mean to be a successful musician and artist How might contemporary musicians sustain their artistic communities Based on interviews with over seventy five popular music professionals in Nashville *Beyond the Beat* looks at artist activists those visionaries who create inclusive artist communities in today s individualistic and entrepreneurial art world Using Nashville as a model Daniel Cornfield develops a theory of artist activism the ways that artist peers strengthen and build diverse artist communities Cornfield discusses how genre diversifying artist activists have arisen throughout the late twentieth century musician migration to Nashville a city that boasts the highest concentration of music jobs in the United States Music City is now home to diverse recording artists including Jack White El Movimiento the Black Keys and Paramore Cornfield identifies three types of artist activists the artist producer who produces and distributes his or

her own and others work while mentoring early career artists the social entrepreneur who maintains social spaces for artist networking and arts trade union reformers who are revamping collective bargaining and union functions Throughout Cornfield examines enterprising musicians both known and less recognized He links individual and collective actions taken by artist activists to their orientations toward success audience and risk and to their original inspirations for embarking on music careers Beyond the Beat offers a new model of artistic success based on innovating creative institutions to benefit the society at large
