Gold Star Honor Roll of Virginians in the Second World War Virginia. World War II History Commission,1947 Constitutes a record of 8 777 persons associated with Virginia who died from any cause whatsoever while serving in the armed forces of the United Nations 1940 1946 of 11 persons who died as a result of service connected causes after discharge from the armed forces and of 149 persons who died from various causes while serving in certain civilian organizations which have been auxiliary to the armed forces of the United States Preface *Indiana World War Records: Gold star honor roll* ,1921

**Gold Star Honor Roll** Indiana Historical Commission,1921 *Gold Star Honor Roll of Virginians in the 2nd World War* W. Edwin Hemphill,1947 *Just Enough to Put Him Away Decent* Kristine M. McCusker,2023-07-11 As the twentieth century began Black and white southerners alike dealt with low life expectancy and poor healthcare in a region synonymous with early death But the modernization of death care by a diverse group of actors changed not only death rituals but fundamental ideas about health and wellness Kristine McCusker charts the dramatic transformation that took place when southerners in particular and Americans in general changed their thinking about when one should die how that death could occur and what decent burial really means As she shows death care evolved from being a community act to a commercial one where purchasing a purple coffin and hearse ride to the cemetery became a political statement and the norm That evolution also required interactions between perfect strangers especially during the world wars as families searched for their missing soldiers In either case being put away decent as southerners called burial came to mean something fundamentally different in 1955 than it had just fifty years earlier **The Family Tree Sourcebook** Family Tree Editors,2010-09-20 The one book every genealogist must have Whether you re just getting started in genealogy or you re a research veteran The Family Tree Sourcebook provides you with the information you need to trace your roots across the United States including Research summaries tips and techniques with maps for every U S state Detailed county level data essential for unlocking the wealth of records hidden in the county courthouse Websites and contact information for libraries archives and genealogical and historical societies Bibliographies for each state to help you further your research You ll love having this trove of information to guide you to the family history treasures in state and county repositories It s all at your fingertips in an easy to use format and it s from the trusted experts at Family Tree Magazine **Journal of the House of Delegates of the Commonwealth of Virginia** Virginia. General Assembly. House of Delegates,1948 The Survey ,1928 **Library Occurrent** ,1915 A Nation Forged in War Thomas A. Bruscino,2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance A Nation Forged in War is the first full length study of how large scale mobilization during the Second World War helped to dissolve long standing differences among white soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the

period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith s defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy s victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented A Nation Forged in War is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume
