**Religion and Apuleius' Golden Ass** Warren S. Smith,2022-12-30 This volume examines Apuleius' comic donkey novel The Golden Ass within the context of the popular beliefs and Jewish and Christian writings that were part of the intellectual culture of his own day in 2nd century C E North Africa a culture which can also be glimpsed in some early Arabic writings The novel was written against a cultural and religious background in which the donkey had various connotations

both positive and negative but tended to be admired in Jewish Christian and later in Muslim writings Smith explores the influence of such popular opinions on *The Golden Ass* and how Apuleius presented Isis and Osiris as desirable alternatives to the claims of both Christianity and magic offering hope of spiritual renewal partly modelled on contemporary religious apocalyptic literature Complemented by images of contemporary art including amulets and terra cotta figures this volume gives readers a better understanding of how Apuleius ostensibly a Platonist and member of the Roman establishment could maintain an intellectual independence in a North African milieu while still drawing on hope in the salvation of the gods Religion and Apuleius *Golden Ass* provides a fascinating new approach to this much disputed novel of interest not only to students and scholars of Apuleius and Roman literature but also scholars interested in Christian and Jewish literature and beliefs of the early centuries of the first millennium C E
