## **Laboring Below The Line:**

**Laboring Below the Line** Frank Munger, 2002-04-25 As the distribution of wealth between rich and poor in the United States grew more and more unequal over the past twenty years this economic gap assumed a life of its own in the popular culture The news and entertainment media increasingly portrayed the lives of the poor with such stereotypes as the lazy welfare mother and the thuggish teen offering Americans few ways to learn how the other half really lives *Laboring Below the Line* works to bridge this gap by synthesizing a wide range of qualitative scholarship on the working poor The result is a coherent nuanced portrait of how life is lived below the poverty line and a compelling analysis of the systemic forces in which poverty is embedded and through which it is perpetuated *Laboring Below the Line* explores the role of interpretive research in understanding the causes and effects of poverty Drawing on perspectives of the working poor welfare recipients and marginally employed men and women the contributors an interdisciplinary roster of ethnographers oral historians qualitative sociologists and narrative analysts dissect the life circumstances that affect the personal outlook ability to work and expectations for the future of these people For example Carol Stack views the work aspirations of an Oakland teenager for whom a job is important even though it strains her academic performance And Ruth Buchanan looks at low wage telemarketing workers who are attempting to move up the economic ladder while balancing family education and other important commitments What emerges is a compelling picture of low wage workers one that illustrates the precarious circumstances of individuals struggling with the economic conditions and institutions that surround them Each chapter also explores the capacity for economic survival from a different angle with ancillary commentary complementing the ethnographies with perspectives from other fields of study such as economics At this moment of governmental retrenchment ethnography's complex nonstereotypical portraits of individual people fighting against poverty are especially important *Laboring Below the Line* reveals the ambiguities of real lives the potential for individuals to change in unexpected ways and the even greater intricacy of the collective life of a community      *Monthly Labor Review* United States. Bureau of Labor Statistics, 2006 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews      **Monthly Labor Review** , 2003 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews      **Below the Stars** Kate Fortmueller, 2021-07-13 Despite their considerable presence in Hollywood extras and working actors have received scant attention within film and media studies as significant contributors to the history of the industry Looking not to the stars but to these supporting players in film television and recently streaming programming *Below the Stars* highlights such actors as precarious laborers whose work as freelancers has critically shaped the entertainment industry throughout the twentieth and twenty first centuries By addressing ordinary actors as a labor force Kate Fortmueller proposes a media industry history that positions underrepresented and quotidian experiences as the structural elements of the culture and business of Hollywood Resisting a

top down assessment Fortmueller explores the wrangling of labor unions and guilds that advocated for collective action for everyday actors and helped shape professional norms She pulls from archival research in person interviews and firsthand observation to examine a history that cuts across industry boundaries and situates actors as a labor group at the center of industrial and technological upheavals with lasting implications for race gender and labor relations in Hollywood *Studio Ghibli* Rayna Denison,2023-02-21 *Studio Ghibli An Industrial History* takes us deep into the production world of the animation studio co founded by Oscar winning director Hayao Miyazaki It investigates the production culture at Studio Ghibli and considers how the studio has become one of the world s most famous animation houses The book breaks with the usual methods for studying Miyazaki and Ghibli s films going beyond textual analysis to unpack the myths that have grown up around the studio during its long history It looks back at over 35 years of filmmaking by Miyazaki and other Ghibli directors reconsidering the studio s reputation for egalitarianism and feminism re examining its relationship to the art of cel and CG animation investigating Studio Ghibli s work outside of feature filmmaking from advertising to videogames and tackling the studio s difficulties in finding new generations of directors to follow in the footsteps of Miyazaki and Isao Takahata By reconstructing the history of Studio Ghibli through its own records promotional documents and staff interviews *Studio Ghibli An Industrial History* offers a new perspective not just on Ghibli but on the industrial history of Japanese animation *The Aesthetics of Nostalgia TV* Alex Bevan,2019-02-07 *The Aesthetics of Nostalgia TV* explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary television Specifically it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change and America s perceived decline as a global power Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress and the place of the baby boomer television suburb in American national memory She contests theories on nostalgia that see it as stagnating regressive or a reversion to outdated gender and racial politics and the technophobic longing for a bygone era and instead argues nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition The book addresses how and why the shows construct the boomer era as a placeholder for gender racial technological and declensionist discourses of the present The book uses *Mad Men* AMC 2007 2015 *Ugly Betty* ABC 2006 2010 *Desperate Housewives* ABC 2004 2012 and film remakes of 1950s and 60s family sitcoms as primary case studies
