## Labour And Racism:

**Labour and Racism** Annie Phizacklea, Robert Miles, 1980-01-01      *Racism and Migrant Labour* Robert Miles, 1982  
Marxism critique of race relations social theory and the sociological aspects of racial discrimination against migrant workers in the UK examines ethnic factors and cultural factors of racism relationship between race capitalism and colonialism describes the history of Irish immigrants to Britain racial conflicts the position of migrant workers in the social structure etc  
Bibliography graphs      Race, Discourse and Labourism Caroline Knowles, 2005-07-25 Race Discourse and Labourism argues that the commonwealth of socialism is founded upon a well concealed history of brutality and repression Caroline Knowles details the historical conditions of the emergence of race through Labour's dealings with Indian independence negotiations and anti semitism in the thirties and the effects of this on the conceptions of black citizenship multi racialism and black representation in labour politics      Labour's Antisemitism Crisis David Renton, 2021-08-16 Between 2015 and 2020 the Labour Party was riven by allegations that the party had tolerated antisemitism For the Labour right and some in the media the fact that such allegations could be made was proof of a moral collapse under Jeremy Corbyn's leadership Sections of the left meanwhile sought to resist the accusations by claiming that the numbers of people accused of racism were few that the allegations were an orchestrated attack and that those found guilty were excluded from the party This important book by one of Britain's leading historians of anti fascism gives a more detailed account than any yet published of what went wrong in Labour Renton rejects those on the right who sought to exploit the issue for factional advantage He also criticises those of his comrades on the left who were ignorant about what most British Jews think and demonstrated a willingness to antagonise them This book will appeal to anyone who cares about antisemitism or left wing politics      *Rethinking Labour's Past* Nathan Yeowell, 2022-01-13 The Labour Party after Jeremy Corbyn is charting a new direction Here Nathan Yeowell has brought together a remarkable array of contributors to provide expert insight into twentieth century British history and Labour politics and how they might shape thinking about Labour's future Reframing the span of Labour history and its effects on contemporary British politics the book provides fresh thinking and analysis of various traditions themes and individuals These include the shifting significance of 1945 the need for more grounded interpretations of Tony Blair's legacy and the enduring importance of place identity and aspiration to the evolution of the party Contributions from leading historians such as Patrick Diamond Steven Fielding Ben Jackson Glen O Hara and Florence Sutcliffe Braithwaite are supplemented by those with experience of Labour electoral politics such as Rachel Reeves and Nick Thomas Symonds The result is an intellectually rich and politically relevant roadmap for Labour's future      **Cracking Labour's Glass Ceiling** Cindy Hanson, Adriane Paavo, 2019-06-06T00:00:00Z Although the health of the trade union movement may rest on its ability to include women in membership and leadership little attention has been paid to women only labour education This original collection contains vibrant example of labour education events and the women involved who develop implement research evaluate and facilitate

at them All the contributors speak from first hand experience with women only programs in unions across Canada the United States and the world They identify the methods used in pursuit of learner empowerment and transformation and frankly discuss the outcomes These real life examples offer practical guidance and inspiration for all who create and support activist learning within unions and other social justice organizations

### **Cheap Labour and Racial Discrimination**

Ralph Fevre,1984 Research report on racial discrimination against Asians and its reflection in their working conditions in the textile industry UK examines wages work organization racial division of labour and management attitudes towards Asians in the textile industry and their lack of employment opportunities in other sectors argues that the need to reduce production costs and overcome labour shortages led to the recruitment of Asian who accepted low wages and unattractive work rejected by White workers Bibliography statistical tables

*Fear of a Black Nation* David Austin,2023-04-18 In the 1960s Montreal was a hotbed of radical politics that attracted Black and Caribbean figures such as C L R James Walter Rodney Mariam Makeba Stokely Carmichael Rocky Jones and douard Glissant It was also a place where

the ideas of Frantz Fanon Aim C saire and Malcolm X circulated alongside those of Karl Marx Jean Paul Sartre and Simone de Beauvoir During this period of global upheaval and heightened Canadian and Quebec nationalism Montreal became a central site of Black and Caribbean radical politics Situating Canada within the Black radical tradition and its Caribbean radical counterpart Fear of a Black Nation paints a history of Montreal and the Black activists who lived sojourned in or visited the city and agitated for change Drawing on Saidiya Hartman s conception of slavery s afterlife and what David Austin describes as biosexuality a deeply embedded fear of Black self organization and interracial solidarity Fear of a Black Nation argues that the policing and surveillance of Black lives today is tied to the racial including sexual codes and practices and the discipline and punishment associated with slavery As meditation on Black radical politics and state security surveillance and repression Fear of a Black Nation combines theoretical and philosophical inquiry with literary oral and archival sources to reflect on Black political organizing In reflecting on Black self organization and historic events such as the Congress of Black Writers and the Sir George Williams Affair the book ultimately poses the question what can past freedom struggles teach us about the struggle for freedom today Featuring two new interviews with the author and a new preface this expanded second edition enriches the political and theoretical conversation on Black organising and movement building in Canada and internationally As the Black Lives Matter and abolition movements today popularize calls to disarm and defund the police and to abolish prisons Fear of a Black Nation provides an invaluable reflection on the policing of Black activism and a compelling political analysis of social movements and freedom struggles that is more relevant now than ever Race and Crisis Suman

Gupta,Satnam Virdee,2020-05-21 As the European Union seemingly teetered from a financial crisis to an immigration crisis around 2015 and onwards discourses of race appeared to congeal in various member states In some instances these came with familiarly essentialist constructions in others these were refracted cautiously through concerns about security national and cultural integrity distribution of public resources and employment and so on New political alignments surfaced on the back of such concerns and established organizations changed their agendas accordingly The border regimes of EU member states became increasingly fraught both in terms of their everyday operations and in terms of the close attention and vociferous debates they attracted In most instances the internal and external borders of the EU hardened and with increasing frequency the cohesion of the transnational union seemed on the verge of fracturing Indeed very real fissures opened up with secessionist moves and referendums Through each step in this juncture of upheavals the significance of race has been reiterated in tangential ways and sometimes with unabashed straightforwardness This volume explores this juncture around 2015 and the constructions of race and of crisis therein for specific contexts and from a range of disciplinary perspectives The introduction gives an overview of the juncture focusing on the rise of Eurosceptic nationalist political parties and their electoral success Subsequent chapters are addressed to the management and representation of immigrants crossing the Mediterranean border regimes in the Czech Republic the narratives that converged on Brexit riots in England antagonistic

popular movements in Sweden racialization in crisis management in Italy perceptions of migrants in Greece and how race may be structured in and challenged through classroom pedagogy This book was originally published as a special issue of Ethnic and Racial Studies Black and Ethnic Leaderships Pnina Werbner, 2009 First published in 2004 Routledge is an imprint of Taylor Francis an informa company

**State, Power, Crime** Roy Coleman, Joe Sim, Steve Tombs, David Whyte, 2009-10-16 Following the outstanding introduction by the authors there are fifteen excellent original articles devoted to an integrated theory of the relationship between the state and crime This work is on the cutting edge of critical criminology It is a must read William J Chambliss Professor of Sociology The George Washington University USA This book is a superb compilation of original papers by an impressive roster of authors While the articles cover a wide range of empirical issues from Northern Ireland and corporate crime to youth crime and heterosexual hegemony they all explore the implications strategies and mechanisms of state power There isn't a weak paper here all are extensively documented well written persuasive and scholarly in the very best sense Professor Laureen Snider Queens University Canada

**State Power Crime** is a hugely important book for these times Bringing together some of the most original minds in criminology it offers a critical analysis of the state how it constructs crime responds to it and at times engages in the very same The book is essential reading for anyone interested in justice freedom and equality Paddy Rawlinson London School of Economics

Featuring contributions by many of the leading scholars in the field this seminal text explores the key themes and debates on state power today in relation to crime and social order It critically evaluates a range of substantive areas of criminological concern including terrorism surveillance violence and the media

**State Power Crime** provides historical overviews of key theories about state power assessment of the relationship between crime criminal justice and the state analysis of the development of law and order policy discussion of the impact of structural fissures such as gender race and sexuality an overview of current research and writing critical reflection on the future direction of research and analysis advice on further reading

In 1978 with the publication of Hall et al's *Policing the Crisis* and Poulantzas's *State Power Socialism* the complexity of the state's interventions in maintaining a capitalist social order were laid bare for critical criminological analysis

**State Power Crime** offers an up to date and comprehensive examination of the challenges posed by state power in relation to both criminal and social justice

**Socialist republic** Daisy Payling, 2023-03-21 *Socialist republic* is a timely account of 1980s left wing politics in South Yorkshire It explores how Sheffield City Council set out to renew the British Left Through careful analysis of the Council's agenda and how it interacted with trade unions women's groups lesbian and gay rights groups and acted on issues such as peace environmentalism anti apartheid and anti racism the book draws out the complexities involved in building a broad based politics which aimed unite class and identity politics Running counter to 1980s narratives dominated by Thatcherism the book examines the persistence of social democracy locally demonstrating how grassroots local histories can enrich our understanding of political developments on a national and international level The book is essential

reading for students scholars and activists with an interest in left wing politics and history      The Futures of Racial Capitalism Gargi Bhattacharyya,2023-10-23 Capitalism appears to be endlessly in crisis but without ever loosening its hold on our lives New modes of racism and exclusion emerge but the old ones never go away We continue to struggle to live and survive in its wake but are unable still now to build commonality with each other In this incisive book Gargi Bhattacharyya revisits debates about racial capitalism and its violence through differentiation Taking the four lenses of prisons borders debt and platforms Bhattacharyya reveals how this moment of capitalist crisis positions humans as expendable but differentially so in a process that remakes longstanding racialized hierarchies Uncovering practices and techniques embedded in the shifting processes of accumulation and state power the chapters illuminate how value is extracted from populations through non wage routes and indebtedness This engaging introduction to racial capitalism offers an interlocking and insightful analysis of capitalist renewal essential for students and scholars interested in issues of race racism and inequality      *Race and Racialization* Tania Das Gupta,2007 This provocative volume will influence the way people think of race and racialization It provides a thorough examination of these complex and intriguing subjects with historical comparative and international contributions Edited as a theoretically strong cohesive whole this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds Themes of ethnocentrism cultural genocide conquest and colonization disease and pandemics slavery and the social construction of racism run throughout      *Middle-Class Blacks in Britain* Sharon J. Daye,2016-07-27 This book examines the relationship between race and class and considers how these two concepts articulate to determine class relationships in British society Daye argues that race in the form of structural racism plays a significant role at two levels Firstly it serves to determine the class position of black labour and secondly determines the type of race class and political consciousness generated by black labour in Britain Using empirical data this volume provides an important contribution to the race class debate      **Making Anti-Racial Discrimination Law** Iyiola Solanke,2012-08-21 Making Anti Racial Discrimination Law examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate

and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas *Borders, Migration and Class in an Age of Crisis* Vickers, Tom, 2020-10-14 This book responds to global tendencies toward increasingly restrictive border controls and populist movements targeting migrants for violence and exclusion Informed by Marxist theory it challenges standard narratives about immigration and problematises commonplace distinctions between migrants and workers Using Britain as a case study the book examines how these categories have been constructed and mobilised within representations of a migrant crisis and a welfare crisis to facilitate capitalist exploitation It uses ideas from grassroots activism to propose alternative understandings of the relationship between borders migration and class that provide a basis for solidarity
