Adrian Gray, 2011-01-11 Dark and foggy Victorian streets the murderous madman the arsenic laced evening meal we all think we know the realities of Victorian crime Adrian Gray's thrilling book recounts the classic murders by knife and poison but it also covers much more taking the reader into less familiar parts of Victorian life uncovering the wicked the vengeful the foolish and the hopeless amongst the criminal world of the nineteenth century Here you will encounter the women who sold their children corrupt bankers smugglers highwaymen the first terrorists bloodthirsty mutineers and petty thieves you will meet the mesmerists who fooled a credulous public and even the Salvation Army band that went to gaol Gray journeys through the cities villages lanes mills and sailing ships of the period ranging from Carlisle to Cornwall showing how our laws today have been shaped by what the Victorians considered acceptable or made illegal [Affray at Brownsville, Tex. ...](#)

Pete Minard, 2019-04-22 Species acclimatization the organized introduction of organisms to a new region is much maligned in the present day However colonization depended on moving people plants and animals from place to place and in centuries past scientists landowners and philanthropists formed acclimatization societies to study local species and conditions form networks of supporters and exchange supposedly useful local and exotic organisms across the globe Pete Minard tells the story of this movement arguing that the colonies not the imperial centers led the movement for species acclimatization Far from attempting to re create London or Paris settlers sought to combine plants and animals to correct earlier environmental damage and to populate forests farms and streams to make them healthier and more productive By focusing particularly on the Australian colony of Victoria Minard reveals a global network of would be acclimatizers from Britain and France to Russia and the United States Although the movement was short lived the long reach of nineteenth century acclimatization societies continues to be felt today from choked waterways to the uncontrollable expansion of European pests in former colonies

[The empire of nature](#) John M. MacKenzie, 2017-03-01 This study assesses the significance of the hunting cult as a major element of the imperial experience in Africa and Asia Through a study of the game laws and the beginnings of conservation in the 19th and early 20th centuries the author demonstrates the racial inequalities which existed between Europeans and indigenous hunters Africans were denied access to game and the development of game reserves and national parks accelerated this process Indigenous hunters in Africa and India were turned into poachers and only Europeans were permitted to hunt In India the hunting of animals became the chief recreation of military officers and civilian officials a source of display and symbolic dominance of the environment Imperial hunting fed the natural history craze of the day and many hunters collected trophies and specimens for private and public collections as well as contributing to hunting literature

Adopting a radical approach to issues of conservation this book links the hunting cult in Africa and India to the development of conservation and consolidates widely scattered material on the importance of hunting to the economics and nutrition of African societies Crime, Policing and Punishment in England, 1750-1914 David Taylor,1998-12-14 One of the fastest growing and most exciting areas of historical research in recent years has been the study of crime and the criminal The intrinsic fascination of the subject is enhanced by the fact that between the mid eighteenth century and early twentieth century the English criminal justice system was fundamentally transformed as a new disciplinary state emerged Drawing on recent research this book provides a comprehensive and up to date synthesis of these important changes The Liverpool Underworld Michael Macilwee,2022-04-02 A survey of the social and economic conditions and events that gave Liverpool a reputation for being the most crime ridden place in the country in the nineteenth century **Australia's Birthstain** Babette Smith,2011-03-04 Why is it that Australians are still misled by myths about their convict heritage Why are so many family historians surprised to find a convict ancestor in their family trees Why did an entire society collude to cover up its past Babette Smith traces the stories of hundreds of convicts over the 80 years of convict transportation to Australia

Hunters at the Margin John Sandlos,2011-11-01 Hunters at the Margin examines the conflict in the Northwest Territories between Native hunters and conservationists over three big game species the wood bison the muskox and the caribou John Sandlos argues that the introduction of game regulations national parks and game sanctuaries was central to the assertion of state authority over the traditional hunting cultures of the Dene and Inuit His archival research undermines the assumption that conservationists were motivated solely by enlightened preservationism revealing instead that commercial interests were integral to wildlife management in Canada **Crime in England 1688-1815** David Cox,2014-04-24 Crime in England 1688 1815 covers the long eighteenth century a period which saw huge and far reaching changes in criminal justice history These changes included the introduction of transportation overseas as an alternative to the death penalty the growth of the magistracy the birth of professional policing increasingly harsh sentencing of those who offended against property owners and the rapid expansion of the popular press which fuelled debate and interest in all matters criminal Utilising both primary and secondary source material this book discusses a number of topics such as punishment detection of offenders gender and the criminal justice system and crime in contemporaneous popular culture and literature This book is designed for both the criminal justice history criminology undergraduate and the general reader with a lively and immediately approachable style The use of carefully selected case studies is designed to show how the study of criminal justice history can be used to illuminate modern day criminological debate and discourse It includes a brief review of past and current literature on the topic of crime in eighteenth century England and Wales and also emphasises why knowledge of the history of crime and criminal justice is important to present day criminologists Together with its companion volumes it will provide an invaluable aid to both students of criminal justice history and criminology **Lawyers' Reports**

Annotated ,1890 **This Sporting Life** Robert Colls,2020-08-28 Why did killing a fox mean liberty What did parish revels have to do with the Peterloo Massacre What did animal cruelty have to do with the English constitution What did the Factory Acts mean for modern football In *This Sporting Life* Robert Colls explains sport as one of England's great civil cultures The lived experiences of people from all walks of life are reclaimed to tell England's history through its great sporting cultures from the horseback pursuits of the wealthy and politically connected to the street games in working class neighbourhoods which needed nothing but a ball It observes people at play describes how they felt and thought carries the reader along to a match or a hunt or a fight draws out the sounds and smells of humans and animals showing that sport has been as important in defining British culture as gender politics education class and religion *Rethinking Ancient Woodland* Gerry Barnes,Tom Williamson,2015-10-01 Ancient woodland is a term widely used in England for long established semi natural woods shaped by centuries of traditional management Such woods are often assumed to provide a direct link with the natural vegetation of England as this existed before the virgin forests were fragmented by the arrival of farming This groundbreaking study questions many of these assumptions Drawing on more than a decade of research in Norfolk the authors emphasize the essentially unnatural character of ancient woods Famous Men and Great Events of the Nineteenth Century Charles Morris,2015-11-27 It is the story of a hundred years that we propose to give the record of the noblest and most marvelous century in the annals of mankind Standing here at the dawn of the Twentieth Century as at the summit of a lofty peak of time we may gaze far backward over the road we have traversed losing sight of its minor incidents but seeing its great events loom up in startling prominence before our eyes heedless of its thronging millions but proud of those mighty men who have made the history of the age and rise like giants above the common throng History is made up of the deeds of great men and the movements of grand events and there is no better or clearer way to tell the marvelous story of the Nineteenth Century than to put upon record the deeds of its heroes and to describe the events and achievements in which reside the true history of the age Wildlife, Conservation, and Conflict in Quebec, 1840-1914 Darcy Ingram,2013-04-29 Despite the popular assumption that wildlife conservation is a recent phenomenon it emerged over a century and a half ago in an era more closely associated with wildlife depletion than preservation In *Wildlife Conservation and Conflict in Quebec* Darcy Ingram explores the combination of NGOs fish and game clubs and state administered leases that formed the basis of a unique system of wildlife conservation in North America Inspired by a longstanding belief in progress improvement and social order based on European as well as North American models this system effectively privatized Quebec's fish and game resources often to the detriment of commercial and subsistence hunters and fishers **Darkest England** Idries Shah,2020-11-27 In his best selling *Darkest England* Idries Shah asserts that the English hail from a little known place called Hathaby but their roots go back much farther perhaps to the distant Asian realm of Sakasina Once a nomadic tribe of warriors the English fled westward bringing with them epic tales traditions and an Oriental way of thought Shah charts the genius of the English in

adopting and adapting almost anything spiritual moral or material for their own use a faculty that has transformed them from warrior nomads into successful diplomats businessmen thinkers and scientists **The Children of Húrin** J. R. R.

TOLKIEN,2024-10-25 This tale of Middle earth s First Age which appeared in incomplete forms in the posthumously published The Silmarillion and Unfinished Tales also edited by Tolkien s son Christopher only hinted at the depth and power of the tragic story of T rin and Ni nor the children of H rin the lord of Dor l min who achieved renown for having confronted Morgoth who was the master of Sauron the manifestation of evil in the Lord of the Rings Six thousand years before the One Ring is destroyed Middle earth lies under the shadow of the Dark Lord Morgoth The greatest warriors among elves and men have perished and all is in darkness and despair But a deadly new leader rises T rin son of H rin and with his grim band of outlaws begins to turn the tide in the war for Middle earth awaiting the day he confronts his destiny and the deadly curse laid upon him **Darkest England** Idries Shah,1999 This work offers coverage of England in an anthropological sense and from the Sufi perspective

The Year of Waterloo Stephen Bates,2015-01-29 1815 was the year of Waterloo the British victory that ended Napoleon s European ambitions and ushered in a century largely of peace for Britain But what sort of country were Wellington s troops fighting for And what kind of society did they return to Stephen Bates paints a vivid portrait of every aspect of Britain in 1815 Overseas the bounds of Empire were expanding while at home the population endured the chill of economic recession As Jane Austen busied herself with the writing of Emma John Nash designed Regent Street Humphrey Davy patented his safety lamp for miners and Lord s cricket ground held its first match in St John s Wood and a nervous government infiltrated dissident political movements and resorted to repressive legislation to curb free speech The Year In series gets to the heart of social and cultural life in the UK at key points in its history **Identity of England**

Robert Colls,2002-06-20 The English stand now in need of a new sense of home and belonging a reassessment of who they are This is a history of who they were written from the perspective of the twenty first century It begins by considering how the English state identified an English nation which from very early days seems to have seen itself as not simply the creature of state or king It considers also how in modern times the English nation survived shattering revolutions in technology urban living and global conflict while at the same time retaining a softer more human vision of themselves as a people in touch with their nature and their land They claimed that there was more to living in England than work and wages there was more to running a vast empire than just exploiting it For all its faults and inequalities they identified with their state For all their shortcomings they were confident of their place in history As little as forty years ago these ideas were not much in doubt Though vague and often contradictory they held together as the English people held together as a whole Indeed Englishness was hardly recognized as a subject for analysis except perhaps in a rather ironic and self mocking vein But now the national question is back and history is at the top of the agenda From a rich store of historical memory and possibility Robert Colls connects the identity of England in the past with the changing and uncertain identity of England today
