Sean M McDonough

God In Creation:

God in Creation Jürgen Moltmann, 1993-09-01 The title expresses the book's intention not to go on distinguishing between God and the world so as then to surrender the world as godless to its scientific disenchantment and its technical exploitation by human beings but instead to discover God in all the beings he has created and to find his life giving Spirit in the community of creation that they share This view which has also been called panentheistic in contrast to pantheistic requires us to bring reverence for the life of every living thing into the adoration of God And this means expanding the worship and service of God to include service for God's creation

God's Plan of Creation Robert N. Smith, 2014-11-15 Gods Plan of Creation Written for All Gods Children Who Want to Know and Are Not Afraid to Think offers scripturally informed answers to questions arising in peoples minds as they wonder about the nature of God and His designs for all of creation By using a three part structure that examines the Siege the Legacy and the Story Robert N Smith brings to bear both his long study of the Scriptures and his insights to provide guidance for all who want to know and are not afraid to think The first part the Siege presents an inquiry and review of humanitys continuing efforts to gain hold of its Legacy The focus of the second portion of Gods Plan of Creation the Legacy entails the gifts that God has chosen to give to humanity and that people today have received from the hands of their forebears in the faith Finally the Story displays a visual timeline of creation plotting out key points of theology and cosmology It is laid out landscape therefore it does not fit the book format Part 3 is in progress and will follow soon If you see the world in all its beauty complexity and diversity and you find yourself wondering about the God who made all things and about His desires for how humanity fits into His plans then Gods Plan of Creation Written for All Gods Children Who Want to Know and Are Not Afraid to Think will pour out insights worth pondering It takes a fearless and eyes wide open look at God and His plans and invites you to join in a journey of vision and discovery

God's Creation Randall W. Younker, 1999

The Creation of God Jacob Hartmann, 2022-09-04 In The Creation of God Jacob Hartmann presents a profound investigation into the evolution of religious consciousness and the conception of divinity Rather than a theological discourse the book is an anthropological and philosophical exploration that weaves historical analysis with contemplative insight Employing a particularly eloquent and convincing literary style Hartmann challenges the reader with meticulous research and narrative depth The work is grounded in the rich traditions of religious scholarship engaging critically with significant thought from a pantheon of philosophical minds thus situating itself securely within the broader literary context of metaphysical and existential inquiries into the nature of the divine and its role in human society As a thinker Jacob Hartmann is known for his incisive intellect and his ability to intertwine academic rigor with cultural history The impetus behind The Creation of God likely stems from Hartmann's lifelong fascination with the nexus of culture religion and consciousness His work reflects a deep seated drive to understand how mankind's perception of a higher power is constructed and the influence this holds over our collective cultural and ethical frameworks His scholarship is both reflection

and critique of the enduring human quest to understand the unknown forces that shape our world This reissue from DigiCat Publishing meticulously reproduced for modern readers will undoubtedly captivate those intrigued by the study of religion and spirituality Recommended for scholars students of the humanities and intellectually curious minds The Creation of God offers a rich exploration of mankind s quest to understand and articulate the numinous With Hartmann s masterful assembly of ideas and historical contexts the book stands not only as a significant cultural document but as an enduring contribution to the discourse on the origins and impact of religious thought Creation and New Creation Sean M McDonough,2016-04-01

In keeping with the Scriptural witness and the theological heritage this remarkable book examines the doctrine of creation alongside new creation The connection between the two creation and new creation has drawn renewed attention in the last several decades but the burden of Sean McDonough s argument is that this emphasis on creation and new creation has been a feature of the doctrine since the beginning whether in the eschatological reading of Genesis 1 that predominated at least until early modern times or the intertwining of the narratives of creation and redemption in thinkers from Irenaeus to Barth Whilst covering the traditional elements of the doctrine McDonough treats the important subject with a special emphasis on how these unfold in the story of what Gunton has called God s creation project **God the Creator** Henry E.

Neufeld,2020-06-17 What does it mean to believe that God is the creator Are you required to dismiss the findings of modern science and the theory of evolution While Christians share a belief in God the Father almighty creator of heaven and earth they do not all agree on just when and how God created Many are unaware of the many different views on origins that are held by Christians and on the theological implications of those beliefs This book discusses the basic Christian beliefs on the origins of the universe and of life but then moves forward to provide some pointers toward a more robust doctrine It is very difficult to be truly neutral and the author does not attempt to do so Rather he attempts to speak in such a way as to foster further discussion Key topics include biblical interpretation the relationship of written revelation and study of the created world the fall sin and redemption including the glorious purpose God has for all creation It is suitable as an introduction to the issues involved in this debate God in Creation Jürgen Moltmann,1985 The first volume of his systematic theology

To Begin With, God Created-- Karl Löning,Erich Zenger,2000 Biblical creation faith and biblical salvation faith both have important statements regarding creation theology Karl Loning and Erich Zenger bring the parts of the divided yet unified Christian Bible into dialogue with one another so that the entire biblical tradition attains a new life **How God**

Created the World K. L. Ryan,2018-12-27 How God Created the World is a children s picture book that shares the biblical story of creation Author Kim Ryan recounts the creation account found in the book of Genesis and alongside her retelling she includes scripture verses from other books of the Bible including Acts Romans Hebrews Psalms Isaiah Proverbs and more that correspond to the story as it unfolds Themes of the added scripture verses include faith Jesus as the light of the world and God s omnipotence This story highlights God the Father s creative power God spoke the universe into existence in six

days and on the seventh day God rested This thoughtful retelling of God's creation of heaven and earth which begins with Jesus's God's Son's presence at the creation event will become a favorite bedtime story while the artistic colorful images will draw children back to this book time and again *God, Creation, and Revelation* Paul King Jewett, Marguerite Shuster, 1991

A theology that is real readable and relevant such is Paul Jewett's *God Creation and Revelation* Writing from a distinctively evangelical and Reformed viewpoint Jewett offers a general systematic introduction to these doctrines of the Christian church how we know God revelation and Scripture who God is the divine nature what God is like the divine attributes and what God has done creation While upholding the historic Christian faith Jewett's approach to Christian teaching is uniquely neo evangelical in that he seeks to expound and clarify orthodox Christianity for twentieth century Christians Jewett purposely sets forth his systematic theology in light of scientific and social issues that confront the church in the contemporary world Throughout the book Jewett also refers to literary masterpieces and to the church's hymns giving the reader a greater appreciation for the theological treasures in our literature and our hymnody The culmination of nearly forty years of study and teaching this book adeptly balances the philosophical efforts needed in systematic theology with the biblical material in which Christian doctrines are rooted and it covers well the range of theologies from the early fathers to the Scholastics from the Reformers to liberation and feminist theologians Interspersed throughout the text are useful addenda and excurses which provide further detailed treatment of specific topics An unusual feature of *God Creation and Revelation* is Jewett's inclusion of eight sermons by Dr Marguerite Shuster a former student of his Believing that theology and preaching must go together Jewett has strategically placed these sermons throughout the book as creative examples of how to preach Christian doctrines

God's Wonderful Works Eric D. Bristley, Edward J. Shewan, 1999-11 Second grade students will delight to study creation based upon the six day account described in the book of Genesis Students learn about what God made during each of the days of creation In full color format students explore the creation of the physical world energy plants heavenly bodies animals and human beings This workbook is truly unique and includes helpful review questions and many hands on activities *Genesis, The Reality of God's Creation* Fernanda Silva, 2021-07-06

First God believed and then he called what he had inside his heart to existence In the book *The Reality of God's Creation* we can understand that the reality our eyes see day by day is not nearly what the Father wished for us and through Jesus Christ we have access to this reality lost by sin God's Word is the most potent encyclopedia in life However it would be a mysterious unknown if there were not God's great will through the anointing of the Spirit both to write it and to interpret it From this formula the result comes revelation In possession of it what remains is to live enjoying a life carefully planned by our God and Father Moreover nothing is better than knowing how everything was planned Just know the manual of life the Word of God consulting how everything was planned in the beginning Pastor Atlas Freire Purpose and destiny To discover the purpose of human existence is undoubtedly one of the most thought out questions of our time We live in an age when our society is

hungry for a purpose for a mission for a real sense Who is a human being What is your place within the planet and society When God created man he had a goal nothing was done by chance and everything is wholly connected according to his magnificence You have a purpose and a destiny and until you find out which one you will never be complete and successful in your life Once you know your purpose God will show your destiny God's Creation Tess Fries,2001-07 Retells the Biblical story of the creation In the Beginning, God Joel D. Heck,2011 Dr Heck presents a theological defense of young earth creationism through a straightforward reading of the first chapter of Genesis as narrative history This book works well for topic study on creation and for Old Testament studies on the text of Genesis Much has been written on the creation from the scientific view but little has attempted to explain the text of Genesis 1 A failure to read Genesis 1 as narrative history almost always comes as a result of the reader bringing presuppositions on the assured results of science The first chapter of Genesis must be taken as historical fact **Creation and Doxology** Gerald L. Hiestand,Todd Wilson,2018-10-23 What does it mean to both affirm the goodness of God s creation and anticipate the new creation Bringing together contributions from church leaders academic theologians and scientists on the doctrine of creation this volume engages with Scripture scientific theory church history and current issues to help Christians understand the beginning and ending of God s good creation

Creation Dr. Justo L. Gonzalez,2015-11-03 How and why God loves us God s good creation This book will talk about the doctrine of creation and invite us to look closely at who God is and who we are in relationship with God As people of faith we believe that our gracious God created all there is but does that also mean that God also created evil How does creation jive with what scientists are telling us about the origin of the universe What does the doctrine of creation tell us about what we call the creation that is the world its value purpose etc How does understanding the world as God s creation teach us about our role in creation care The Bible tells us that God created the heavens and earth but does that deny the science of the Big Bang What does believing that God is the Creator say about how God loves redeems and sustains us today or does creation say something only about the past What about the new creation Does this have anything to do with the old creation Does it mean simply that God is so tired of the rebelliousness of creation that it seems best to erase the present one and start anew Or is there a connection between the two What does the doctrine of creation say about us Aren t we created in God s image and aren t we part of the good creation of a loving God If so why is there evil and rebelliousness in us Where does our ill will our desire to do evil come from Is there freedom of the will or are all things preordained by God Just how detailed is God s plan for us While no one author can deal with all these questions this book will help us begin the conversation and gain new understanding of how the doctrine of creation can help us address these very human and timeless questions Series Description Belief Matters How to Love God with Your Mind is a series of books written by widely recognized authors who will help readers think more clearly about their faith and better understand their beliefs so that they can live more faithfully These books will also help readers become aware of thoughtful resources and conceptual frames of reference that not only

will deepen their faith but also help them better understand what we say and do in Church Conversational in tone these books are reflections on major theological topics and are suitable for a 4 session individual or group study The intent of the series is to help readers feel as though they are sitting having coffee as authors share their take and show that by thinking more clearly about the faith persons can love God more fully live with confidence and change the world

In the Beginning, GOD Marva J. Dawn, 2009-07-08 With the grace and insight for which she is known Marva Dawn shows how the opening pages of the book of Genesis rivet our attention on God calling us to worship and to praise Yet here Dawn helps us see anew the grace He offers to overcome our rebellious and wandering hearts *Cosmos and Revelation* Peter R. Stork, 2021-09-30 Science and technology have profoundly altered the cosmic and societal perceptions of the world Regrettably the Christian imagination has not kept pace Most believers still adhere to pre scientific views *Cosmos and Revelation* urges the Christian community to reimagine God's creation by engaging the data of science For if God has indeed brought forth an intelligible world for us to explore through scientific research those who profess this faith ought to as a minimum allow scientific findings to expand their theological horizon Drawing on his scientific qualification and academic background in theology Peter R Stork opens several windows on God's creation from galactic star nurseries to the wonderland of living cells After rereading Genesis 1 and 2 the author interlaces examples and reflections to present a coherent yet provocative sketch of the new landscape that spreads out before us leaving it to his readers to intuit for themselves the immensities Christians are challenged to embrace in the age of science Creation's Slavery and Liberation Presian Renee Burroughs, 2022-11-03 What did the apostle Paul mean when he portrayed the creation as subjected to frustration and enslaved to destruction What forms of frustration and destruction might he have seen throughout the Roman Empire And how would he describe creation's condition today *Creation's Slavery and Liberation* addresses these questions by tracing the story of creation as it appears in Paul's own Scriptures the Tanakh Roman imperial propaganda Paul's letter to Rome and U S industrial agriculture This story reveals God to be the Creator who makes right justifies and makes alive through Jesus Christ and the Spirit Because God liberates justifies and vivifies the entire creation and since according to Paul creation's liberation is linked to humanity's glorification Paul expects Christians to pursue justice and nourish life Burroughs encapsulates key justice oriented and life supporting practices in seven eco ethical principles To make these principles come alive she describes the ways in which Roman imperial and American industrial regimes have caused injustice and destruction and instead proposes more regenerative approaches to growing enjoying and sharing our daily bread God's Creation Story Ed Steele, 2009-05-05 God's Creation Story uses Scripture and science to present the Gap Theory about a fairly young creation living on an old earth Many questions about the age and history of the earth are answered
