Religious Transformations in the Early Modern Americas

Stephanie Kirk, Sarah Rivett, 2014-10-01 Christianity took root in the Americas during the early modern period when a historically unprecedented migration brought European clergy religious seekers and explorers to the New World Protestant and Catholic settlers undertook the arduous journey for a variety of motivations Some fled corrupt theocracies and sought to reclaim ancient principles and Christian ideals in a remote unsettled territory Others intended to glorify their home nations and churches by bringing new lands and subjects under the rule of their kings Many imagined the indigenous peoples they encountered as savages awaiting the salvific force of Christ Whether by overtly challenging European religious authority and traditions or by adapting to unforeseen hardship and resistance these envoys reshaped faith liturgy and ecclesiology and fundamentally transformed the practice and theology of Christianity Religious Transformations in the Early Modern Americas explores the impact of colonial encounters in the Atlantic world on the history of Christianity Essays from across disciplines examine religious history from a spatial perspective tracing geographical movements and population dispersals as they were

shaped by the millennial designs and evangelizing impulses of European empires At the same time religion provides a provocative lens through which to view patterns of social restriction exclusion and tension as well as those of acculturation accommodation and resistance in a comparative colonial context Through nuanced attention to the particularities of faith especially Anglo Protestant settlements in North America and the Ibero Catholic missions in Latin America Religious Transformations in the Early Modern Americas illuminates the complexity and variety of the colonial world as it transformed a range of Christian beliefs Contributors Ralph Bauer David A Boruchoff Matt Cohen Sir John Elliot Carmen Fernandez Salvador J nia Ferreira Furtado Sandra M Gustafson David D Hall Stephanie Kirk Asunci n Lavrin Sarah Rivett Teresa Toulouse

What Is a Western? Josh Garrett-Davis, 2019-09-26 There s western and then there s Western and where history becomes myth is an evocative question one of several questions posed by Josh Garrett Davis in *What Is a Western Region* Genre Imagination Part cultural criticism part history and wholly entertaining this series of essays on specific films books music and other cultural texts brings a fresh perspective to long studied topics Under Garrett Davis s careful observation cultural objects such as films and literature art and artifacts and icons and oddities occupy the terrain of where the West as region meets the Western genre One crucial through line in the collection is the relationship of regional western works to genre Western works and the ways those two categories cannot be cleanly distinguished most work about the West is tinted by the Western genre and Westerns depend on the region for their status and power Garrett Davis also seeks to answer the question What is a Western now To do so he brings the Western into dialogue with other frameworks of the imagined West such as Indigenous perspectives the borderlands and environmental thinking The book s mosaic of subject matter includes new perspectives on the classic musical film *Oklahoma* a consideration of Native activism at Standing Rock and surprises like Pee wee s Big Adventure and Dr Seuss s *The Lorax* The book is influenced by the borderlands theory of Gloria Anzald a and the work of the indie rock band Calexico as well as the author s own discipline of western cultural history Richly illustrated primarily from the collection of the Autry Museum of the American West Josh Garrett Davis s work is as visually interesting as it is enlightening asking readers to consider the American West in new ways

[A Primal Perspective on the Philosophy of Religion](#) Arvind Sharma, 2006-09-09 What am I trying to accomplish through the exercise which I have undertaken namely to examine the philosophy of religion in the light of primal religions If to choose someone else s expression to characterize one s own intellectual endeavour is an indication of one s own lack of imagination then I must plead guilty to that charge but not to that of lack of gratitude for I have to thank Robin Horton for describing better than I can what I have attempted in the book It is an exercise in what he calls translational understanding I quote him now By translational understanding I mean the kind of understanding of a particular thought system that results from the successful translation of the language and conceptual system that embody it into terms of a language and conceptual system that currently enjoy world status In talking of translation of course I am not just talking of the provision of dictionary equivalents for individual words or sentences I am

talking about finding a world language equivalent for a whole realm of discourse and of showing in world language terms what the point of that realm of discourse is in the life of the people who use it Translation in this broader sense can be very arduous There may be no realm of discourse in the world language that exactly fits the bill We may have to bend and refashion existing realms and even redefine their guiding intentions *Encyclopedia of American Indian Literature* Jennifer McClinton-Temple, Alan Velie, 2015-04-22 Presents an encyclopedia of American Indian literature in an alphabetical format listing authors and their works *For This Land* Vine Deloria, Jr., 2013-10-31 First Published in 1999 *For This Land* edited and with an introduction by James Treat brings together over thirty years of the work of Vine Deloria Jr regarded as one of the most important living Native American figures For three decades Deloria has offered substantive and persistent contributions to understanding the complexity of religion in America In his writings he recognizes the spiritual desperation and religious breakdown in the contemporary situation and provides the groundwork to get people to examine what they actually believe and how they must put those beliefs into practice The essays in this collection express Deloria's concern for the religious dimensions and implications of human existence His writings are engaged within a theoretical system of physical not ideological space and ultimately give voice to this intellectual passion by calling into question our controversial religious institutions commitments worldviews freedoms and experiences *For This Land* offers a distinctive approach to comprehending human existence from one of the leading critics of mainstream American thought *The Everlasting People* Matthew J. Milliner, 2021-12-14 How might the life and work of Christian writer G K Chesterton shed light on our understanding of North American Indigenous art and history In these discerning reflections art historian Matthew Milliner appeals to Chesterton's life and work in order to understand and appreciate both Indigenous art and the complex often tragic history of First Nations peoples **Political Phenomenology** Hwa Yol Jung, Lester Embree, 2016-06-13 This volume presents political phenomenology as a new specialty in western philosophical and political thought that is post classical post Machiavellian and post behavioral It draws on history and sets the agenda for future explorations of political issues It discloses crossroads between ethics and politics and explores border crossing issues All the essays in this volume challenge existing ideas of politics significantly As such they open new ways for further explorations BY future generations of phenomenologists and non phenomenologists alike Moreover the comprehensive chronological bibliography is unprecedented and provides not only an excellent picture of what phenomenologists have already done but also a guide for the future *Radical Theology* Jeffrey W. Robbins, 2016-08-08 Radical theology and political theology are terms that have gained a lot of currency among philosophers of religion today In this visionary new book Jeffrey W Robbins explores the contemporary direction of these movements as he charts a course for their future Robbins claims that radical theology is no longer bound by earlier thinking about God and that it must be conceived of as postsecular and postliberal As he engages with themes of liberation gender and race Robbins moves beyond the usual canon of death of God thinkers thinking against

them as much as with them He presents revolutionary thinking in the face of changing theological concepts from reformation to transformation transcendence to immanence messianism to metamorphosis and from the proclamation of the death of God to the notion of God's plasticity

Native Voices Richard A. Grounds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions Views of their predicament continue to be dominated by non Indian writers In response a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities These scholars examine crucial issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture They particularly show how the writings of Vine Deloria Jr have shaped and challenged American Indian scholarship in these areas since 1960s They provide key insights into Deloria's thought while introducing some critical issues confronting Native nations Collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression against indigenous nations contemporary Native religious practices and Native intellectual challenges to academia Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations This book argues for renewed cultivation of a Native American Studies that is more Indian centered
