Identity Glynis M. Breakwell,2023-04-14 What do we know about identity processes and how does this relate to the world we live in This book answers this question by considering the contemporary major developments in identity process theory a framework founded by the author in the 1980s for understanding the coping strategies used when identity is threatened With a focus on issues ranging from group conflict to dementia and mental illness as well as contemporary events and phenomena such as the rise of the Digital Era and the COVID 19 pandemic Identity explores how building and defending a unique identity motivates our thoughts feelings and actions Breakwell brings together ideas of personal identity and social identity to show us how they intersect with one another This book is essential reading for psychology students and researchers and those interested in the concept of identity in the social sciences more broadly Dame Glynis M Breakwell is Professor Emeritus at the University of Bath and has Visiting Professorships at Imperial College London and University of Surrey Strangers in a Familiar Land James A. Blumenstock,2020-04-28 Throughout history many Christians have existed on the margins of society deviants and strangers in lands they call home To survive they have had to construct alternate identities that not only make sense of their religious experiences and beliefs but also equip them to successfully negotiate

their social worlds In Thailand a nation where social identities are thoroughly intertwined with Buddhist religious adherence Christians must come to terms with such a marginalized existence By leaving Buddhism and adopting what is considered a foreign faith Christian converts become deviants to normal Thai identity and belonging In response they have discovered creative solutions for traversing this complex terrain of marginalization This book presents a deep exploration of the phenomenon of marginalization as experienced by Thai Christian converts In it readers will follow participants through the heights of transformative religious experience the lows of severe social displacement the tensions of managing two disparate lifeworlds and two conflicting selves and the comfort and joy of finding a new place to call home In the end the reader will gain deep insight into what it is like to successfully navigate a minority religious identity on the margins of society

Identity Shift Rates Dorian Ashwood, AI, 2025-04-07 Identity Shift Rates explores the intriguing phenomenon of significantly higher LGBTQ identification rates among younger generations It argues that increased visibility acceptance and regional variations in social attitudes drive these generational shifts The book examines how these factors influence individuals willingness to self identify highlighting the intersection of personal identity and broader societal changes It presents a detailed historical context of LGBTQ rights and acceptance establishing a baseline for understanding contemporary trends The book uses U S Census data large scale surveys and regional studies employing statistical methods and qualitative insights to uncover trends and disparities A unique aspect is its comparative approach examining LGBTQ identification rates across different regions and demographic groups This spatial analysis identifies social and cultural contexts that either promote or inhibit self identification For example increased acceptance in certain regions correlates with higher rates of LGBTQ identification illustrating how social attitudes impact identity expression Structured in three parts Identity Shift Rates begins with core concepts of identity formation then examines empirical evidence and concludes by synthesizing findings into a comprehensive model It bridges sociology psychology and demography offering a complete picture of the factors influencing LGBTQ identity The book s findings have practical implications for social policy community resources and future research directions
