**Henri Michaux** Margaret Rigaud-Drayton, 2005-07-28 Henri Michaux is widely recognized as a major twentieth century French poet and painter Although his fascination with universal languages has attracted critical attention it has up until now been treated as a marginal concern This study argues that Michaux's ideas on universal languages are central to an understanding of his works *Opening to Omnilateralism* Wolfgang PAPE, 2021-03-11 *Opening to Omnilateralism* After a century of western inspired multi lateralism its much criticised 75 years old stronghold the UN needs a new narrative omnilateralism The right vehicle is omnibus for and by all firstly to widen the way for input of more ideas and good practices of non Western origin and secondly to include non state actors as legitimate stakeholders in global governance Some trends already signal an opening towards omnilateralism enhancing global governance in the COP by adding Eastern understanding of cycles in nature to protect the environment e.g. in circular economies and a wider appreciation of holism beyond the rather linear individualistic thinking of Western societies also accountable groups of civil society more trusted than officials driven by narrow national interest increasingly enrich deliberations about climate change and other global problems that need global solutions These require East West and North South cooperation as currently obvious in the urgent cross border exchanges among experts to combat the pandemic and save lives and livelihood worldwide Globalisation has elevated

millions out of poverty However narrow minded politicians still claim national sovereignty and parochial interests against global solutions for the common good while the Westphalian nation is becoming a historic aberration Almost all governments nowadays claim democracy but respect for its principles is falling Democracy must adapt to each level of governance from local national regional to global More direct democracy may suit the directly informed local stage The higher the stage and the wider the impact the more expertise and responsibility with all stakeholders is needed to reach the common global good i

**Henri Michaux** Nina Parish,2007-01-01 Henri Michaux is both a recognised poet and visual artist arguably one of the greatest double artists of the twentieth century This book presents the first detailed examination of a particular interdisciplinary aspect of his production namely the innovative experimentation with signs contained in four works *Mouvements Par la voie des rythmes Saisir and Par des traits* Questions arise concerning their literary and visual status as in their attempt to render interior rhythm and dynamism they occupy an interstitial space between writing and drawing between the book and the canvas between the Western alphabet and Chinese characters This study addresses these questions by analysing the conception production and reception of Michaux's signs and the literary and artistic contexts in which they were produced *GB, GB/T, GBT Chinese Standard(English-translated version) - Catalog002* CODEOFCHINA - Dr. Meng Yongye ,2018-05-04 All English translated Chinese codes are available at [www.codeofchina.com](http://www.codeofchina.com)
