**Imagine That** Mark Fins, 2017-10-03 The World of Mark Leonard Big hearted eight year old Mark Leonard lives on the brink of two worlds one steeped in the hardship of post World War II America where his father is consumed by financial woes the other where he's buoyed by his exceptionally vivid imagination In his imagination Mark is a heroic soldier a surgeon and a daredevil striving to live up to the ideals of the 1950s When his family uproots from Queens New York to start afresh in Massachusetts Mark finds refuge from loneliness in an unlikely friendship with an eccentric wealthy elderly neighbor who has shut out the world following a debilitating accident Their mutual gift for conjuring up imaginary worlds to cope with reality which for Mark includes the confusing teachings of his Jewish faith leads them to push the boundaries between these two realms exploring the fine line between love imagination and the existence of God **Snowman** Catherine

Hapka, Rutherford Montgomery, 2016-08-30 Shares the story of how a plow horse about to go to slaughter became a champion show jumper and the winner of the 1958 show jumping Triple Crown Flurry: Journey of a Snowman Tony Bertauski, 2014-11-15 Life hasn't been kind to Oliver Toye As if juvenile diabetes isn't enough he's forced to live with his tyrannical grandmother in a snow bound house He spends his days doing chores and the nights listening to the forest rumble But when he discovers the first leather bound journal the family secrets begin to surface The mystery of his great grandfather's voyage to the North Pole is revealed That's when the snowman appears Magical and mysterious the snowman will save Oliver more than once But when the time comes for Oliver to discover the truth will he have the courage When Flurry needs him will he have the strength When believing isn't enough will he save the snowman from melting away Because sometimes even magic needs a little help INTERVIEW WITH AUTHOR Where did you come up with the idea of writing science fiction for holiday characters My nephew mentioned the secret Santa ninja elves that visit his school during Christmas and this spawned the idea of writing a semi serious sci fi version of Santa How the ideas flesh out is a long process

I started keep track of how the story arc of my latest novel evolves just to remember where it began It s all over the place I love the challenge of bringing a story to light letting the characters get in my head and telling me where to go Flury Journey of a Snowman is the third book in the Claus series It was originally Frosty the Snowman but Frosty is copyrighted It didn t matter really The character was better suited to be something other than Frosty Flury is a bit more serious Are you getting any backlash for rewriting these Christmas legends Not at all In fact a lot of readers have connected to all the unanswered questions surround them especially Santa Claus How does he go around the world in a night Why is he fat Why does he live on the North Pole How do reindeer fly How does he carry all those presents All of them answered with the magic wand of science fiction I mean the science wand of science fiction The stories still have the fantasy element of course Some leaps of imagination And also the romance angle Why Because all stories have love What is your favorite character from the books that you have written Socket Greeny is one of my favorites That science fiction trilogy was my first story I wrote it in first person and really connected with him However Jack Frost is in Claus Legend of the Fat Man and Jack The Tale of Frost and has become my all time fave He s childish irreverent and dangerous but at the same time lovable What order should readers purchase the Claus books Claus Legend of the Fat Man is the best start After that any order works They all can be read as standalone novels

**The Precarious Walk** Phyllis Barber,2022-06-21 In wide ranging personal essays at the crossroads of place and perspective Phyllis Barber challenges and celebrates her Great Basin roots From a backwoods church in Arkansas to the disappeared town of St Thomas buried beneath the waters of Lake Mead award winning essayist Phyllis Barber travels roads both internal and external reflecting upon place and perspective ambition and loss in The Precarious Walk As a child growing up in the Mojave Desert she

witnesses the massive power of the Hoover Dam and a fiery rip in the sky from the Nevada Test Site As an adult Barber searches for meaning through music movement and human connection examining her Mormon upbringing the profound ways people and landscape impact one another and the sudden loss of her first child with open ended honesty Barber's distinctly feminine voice expands upon the literature of the West alongside Ellen Meloy and Terry Tempest Williams with seeking and questioning at the heart of this deeply felt collection In the spirit of Flannery O'Connor and David James Duncan Barber adds a deeply generous and true to her high desert roots down to earth voice to the illumination of human experience **A**

**Materialist Metaphysics of the Human Person** Hud Hudson, 2001 Hud Hudson presents an innovative view of the metaphysics of human persons according to which human persons are material objects but not human organisms In developing his account he formulates and defends a unique collection of positions on parthood persistence vagueness composition identity and various puzzles of material constitution The author also applies his materialist metaphysics to issues in ethics and in the philosophy of religion He examines the implications for ethics of his metaphysical views for standard arguments addressing the moral permissibility of our treatment of human persons and their parts fetuses and infants the irreversibly comatose and corpses He argues that his metaphysics provides the best foundation in the philosophy of religion for the Christian doctrine of the resurrection of the body Hudson addresses a broad range of metaphysical issues but among his most strikingly original contributions are his defense of the Partist view according to which a material object can exactly occupy multiple overlapping regions of spacetime and his argument for the compatibility of Christianity with a materialistic theory of human persons **Child Life**, 1929 The History of the Snowman Bob Eckstein, 2007-10-30 Who made the first

snowman Who first came up with the idea of placing snowballs on top of each other and who decided they would use a carrot for a nose Most puzzling of all How can this mystery ever be solved with all the evidence long since melted The snowman appears everywhere on practically everything from knickknacks to greeting cards to seasonal sweaters we plan to return Whenever we see big snowballs our first impulse is to deck them out with a top hat Humorist and writer Bob Eckstein has long been fascinated by this ubiquitous symbol of wintertime fun and finally for the first time one of the world's most popular icons gets his due A thoroughly entertaining exploration The History of the Snowman travels back in time to shed light on the snowman's enigmatic past from the present day in which the snowman reigns as the King of Kitsch to the Dark Ages with the creation of the very first snowman Eckstein's curiosity began playfully enough but soon snowballed into a mostly earnest quest of chasing Frosty around the world into museums and libraries and seeking out the advice of leading historians and scholars The result is a riveting history that reaches back through centuries and across cultures sweeping from fifteenth century Italian snowballs to eighteenth century Russian ice sculptures to the regrettable white trash years 1975-2000 The snowman is not just part of our childhood memories but is an integral part of our world culture appearing much like a frozen Forrest Gump alongside dignitaries and celebrities during momentous events Again and again the snowman pops up in rare
