If You Survive:

If You Survive George Wilson, 2010-11-10 If you survive your first day I'll promote you So promised George Wilson's World War II commanding officer in the hedgerows of Normandy and it was to be a promise dramatically fulfilled From July 1944 to the closing days of the war from the first penetration of the Siegfried Line to the Nazis last desperate charge in the Battle of the Bulge Wilson fought in the thickest of the action helping take the small towns of northern France and Belgium building by building Of all the men and officers who started out in Company F of the 4th Infantry Division with him Wilson was the only one who finished In the end he felt not like a conqueror or a victor but an exhausted survivor left with nothing but his life and his emotions If You Survive One of the great first person accounts of the making of a combat veteran in the last most violent months of World War II

A Fire Upon The Deep Vernor Vinge, 1993-02-15 A Fire Upon the Deep is the big breakout book that fulfills the promise of Vinge's career to date a gripping tale of galactic war told on a cosmic scale Thousands of years hence many races inhabit a universe where a mind's potential is determined by its location in space from superintelligent entities in the Transcend to the limited minds of the Unthinking Depths where only simple creatures and technology can function Nobody knows what strange force partitioned space into these regions of thought but when the warring Straumli realm use an ancient Transcendent artifact as a weapon they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence Fleeing the threat a family of scientists including two children are taken captive by the Tines an alien race with a harsh medieval culture and used as pawns in a ruthless power struggle A rescue mission not entirely composed of humans must rescue the children and a secret that may save the rest of interstellar civilization A Fire Upon The Deep is the winner of the 1993 Hugo Award for Best Novel

The Human Animal Eric T. Olson, 1999-09-02 Most philosophers writing about personal identity in recent years claim that what it takes for us to persist through time is a matter of psychology In this groundbreaking new book Eric Olson argues that such approaches face daunting problems and he defends in their place a radically non psychological account of personal identity He defines human beings as biological organisms and claims that no psychological relation is either sufficient or necessary for an organism to persist Rejecting several famous thought experiments dealing with personal identity he instead argues that one could survive the destruction of all of one's psychological contents and capabilities as long as the human organism remains alive

Seasons of the Centaur Charles Sebastian, 2016-01-25 SEASONS OF THE CENTAUR has been in the works for over thirty years though none of the many pieces were intended to be cobbled together and collated into a singular volume These pieces are sometimes brooding

sometimes reflective sometimes terse but always genuine of heart The poems contained in Seasons are categorized each within the four directions which allude not only to the seasons themselves but also to the energies carried by each of the pieces contained therein This is modeled after Native American Indian cosmologies which ceremoniously invite the energies of each direction to be present and to avail themselves to aid in transformation Just as the alchemy of transmuting base metals to gold is a delicate and mysterious business so are the subtle yet distinct shiftings of the soul and body through time It is in this spirit these disparate works should be consumed sipped not swallowed tasted not devoured **Survival**

Circumstance Red Dawn, This is Book Three in the Notte Oscura series Each book in this series is a standalone story with returning characters No one knew what was going on when Persephone showed up at Notte Oscura naked and covered in blood Take from me whatever you want and if you don t believe in fate after the full moon you are no longer obligated to continue our agreement Everything about Edward was an open book and if I m being honest I was looking for a good read And here I thought hot flashes were the worst of what to expect in my forties Now I m probably a werewolf I say probably because I have no memory of even seeing a werewolf let alone being attacked by one Still my body is going through some werewolf like changes Edward says he s here to help me figure out what happened He also believes in things like fated mates and love at first sight But he says he s willing to put all that aside and be a slave to my desires until the next full moon You see my hormones are going crazy Turns out that if you become a shapeshifter in your forties the changes can be more severe As a result my libido is raging and Edward has kindly offered his services A slightly younger man to help unravel the mystery of what happened to me and satisfy my every need This could be interesting Warning This book contains graphic language mostly used by gnomes violence a sense of humor a dash of faerie dust and mature situations involving an insatiable wolfman Prepare yourself for a paranormal women s fiction novel of the spicy variety *Godly Pretending System* Yun
