The Works of Jacobus Arminius Volume 3 - A Friendly Discussion Jacobus Arminius, 2017-03-22 A friendly discussion between a theological college the third book in this three volume set starts to show another view on the Bible that challenges the works of John Calvin Martin Luther and others The aspect of self determinism and the role of sin in a believer's life are dominant in Arminius's thinking while the other theologians in his time were focusing on the idea of determinism in the role of Biblical theology

DeBoer, 2016-03-23 All of Christendom has heard of the imitation of Christ Few within Christendom have heard much of the imitation of Paul Perhaps there is nothing extraordinary about such a state of affairs After all Christ fills a far more significant role in Christianity than the Apostle Paul does And yet when one looks at the matter purely statistically it is striking to find that the thought of the imitation of Paul comes to literal expression in the New Testament five times while the thought of the imitation of Christ is found literally expressed only twice From the Introduction **God in the Act of Reference** Erica Appelros, 2017-03-02 To claim to believe in God without

accepting that God exists independently of human minds would mean reducing God to merely a human construct thus not real enough for being the object of religious worship This book sets out to challenge this common view on existence and religious belief Arguing from concrete examples of language use in children's make believe play and other ordinary situations Erica Appelros suggests that what makes us consider something to be real involves our capacities to relate to our surroundings not only on grounds of their physical characteristics but also on grounds of human construction This book makes a substantial contribution to the contemporary debate within philosophy of religion on religious realism and non realism and suggests innovative and constructive solutions to the perennial philosophical and religious issue of what is meant by talking about God and God's existence Theological Dictionary of the New Testament Gerhard Kittel, Geoffrey William Bromiley, Gerhard Friedrich, 1964 One of the most widely respected theological dictionaries put into one volume abridged form Focusing on the theological meaning of each word the abridgment contains English keywords for each entry tables of English and Greek keywords and a listing of the relevant volume and page numbers from the unabridged work at the end of

each article or section God's Being in Reconciliation Adam J. Johnson,2012-03-01 One of the most pressing issues in the doctrine of the atonement today is the question of the unity and diversity of the work of Christ What are we to make of the diversity within the biblical witness and the history of doctrine when it comes to explanations of the meaning and significance of Jesus death and resurrection Without a grasp of the unity of his work our understanding and use of the diversity runs the risk of becoming haphazard and disordered Proposals regarding the unity of Christ s work today tend to focus on the metaphorical nature of language the role of culture and various possible conceptual schemes rarely reflecting on unity and diversity proper to the being God To fill this gap Johnson draws on Karl Barth s integrated account of the doctrines of God and reconciliation harnessing the resources contained within the doctrines of the Trinity and divine perfections to energize a properly theological account of the unity and diversity of the atonement *God's Being Towards Fellowship* Justin Stratis,2019-05-30 Justin Stratis explores the meaning of the biblical phrase God is love through an examination of two quintessentially modern Protestant theologians Friedrich Schleiermacher and Karl Barth This book contains both a detailed engagement with Schleiermacher s untranslated lectures on Dialektik and their relation to his more well known work as well as a new assessment of Barth s doctrine of God which both respects his radical innovations and yet places him within the stream of traditional catholic trinitarianism After considering the complexities of theological predication and comparing several classical and contemporary approaches to the implication of love Stratis presents and ultimately commends the distinct approaches of Schleiermacher and Barth for their tendency to treat divine love as a conclusion to the doctrine of God rather than as a conceptual starting point In contrast to many contemporary approaches Stratis concludes with the suggestion that God s love is best conceived as his being toward fellowship rather than as the eminent instance of loving fellowship understood according to human experiences of love *Notes on the Old Testament* Albert Barnes,1870
