## **Ideologies Of Caring Rethinking Community And Collectivism:**

**Ideologies of Caring** Gillian Dalley,1996-06-27 Community care has long been the preferred policy for caring for dependent people This book first published in 1988 challenges accepted ideas about community care arguing that it is based on assumptions about an ideal model of family life which in practice disadvantages both disabled and older people and women carers alike New to this Edition Takes full account of major developments in community care since 1988 Draws on an eclectic range of feminist historical and ethnographic sources Proposes alternative and collective approaches to caring

**Ideologies of caring** Janet Finch,1988      **Community Care, Ideology and Social Policy** Harry Cowen,2018-10-08 This book offers a comprehensive evaluation of community care strategies within the context of government social policy and assesses the recent shifts of political power from Conservative to Labour towards the end of the century Unlike the majority of texts in the field of community care it makes explicit the historical philosophical social and political inter connections and therefore provides an in depth understanding of changing policy issues for students practitioners and managers in health and social care      **Ageing and the Care of Older People in Europe** Richard Hugman,1994-08-23 As the population of all European countries ages rapidly understanding the phenomenon of ageing and social responses to old age has become a vital contemporary issue The diverse ways in which old age is seen across Europe are compared and different forms of care for the needs of older people are examined With the demise of large institutions and increasing demands on families and on domiciliary care the question of inter generational relations is seen as a key element in the future of old age It is argued that much is to be learned from cross national comparisons in developing social responses to old age      **Feminist Review** The Feminist Review Collective,2005-07-18 In this issue each article addresses a topical and controversial theme in contemporary feminist debate pornography the veil HRT disability and the Inkatha Women s Brigade      **The Sociology of Healthcare** Alan Clarke,2013-09-13 The Sociology of Healthcare Second Edition explores the impact of current social changes on health illness and healthcare and provides an overview of the fundamental concerns in these areas This new edition features a brand new chapter entitled End of Life which will help health and social care workers to respond with confidence to one of the most difficult and challenging areas of care The End of Life chapter includes information on changing attitudes to death theories of death and dying and palliative care All chapters have been thoroughly updated to address diversity issues such as gender ethnicity and disability In addition expanded and updated chapters include Childhood and Adolescence and Health Inequalities The text is further enhanced through the use of case studies that relate theory to professional practice and discussion questions to aid understanding Links to websites direct the reader to further information on health social wellbeing and government policies This book is essential reading for all students of healthcare including nursing medicine midwifery and health studies and for those studying healthcare as part of sociology social care and social policy degrees In an age when health policy follows an individualist model of personal responsibility this book by Alan Clarke demonstrates

with a vast array of evidence just how much there is such a thing as society An excellent overall book Dr Stephen Cowden Senior Lecturer in Social Work Coventry University

**Adult Lives** Katz, Jeanne, Peace, Sheila, Sheila M. Peace, Sue Spurr, 2012 Adult Lives is a diverse collection of readings from all stages of life which aim to understand how those living and working together in an ageing society relate to each other It uses a holistic approach to understanding ageing in adulthood that is applicable to all including those developing policy and in practice

**Social Work Process and Practice** David Watson, Janice West, 2006-04-13 This new textbook examines the knowledge skills and values that underpin and inform current social work practice and processes With a clear focus on skills social work processes and the suitability of different methods Watson offers students a toolkit for applying theoretical frameworks to actual practice situations

**Just Methods** Alison M. Jaggard, 2015-11-17 The supplemented edition of this important reader includes a substantive new introduction by the author on the changing nature of feminist methodology It takes into account the implications of a major new study included for this first time in this book on poverty and gender in equality and it includes an article discussing the ways in which this study was conducted using the research methods put forward by the first edition This article begins by explaining why a new and better poverty metric is needed and why developing such a metric requires an alternative methodological approach inspired by feminism Feminist research is a growing tradition of inquiry that aims to produce knowledge not biased by inequitable assumptions about gender and related categories such as class race religion sexuality and nationality Just Methods is designed for upper level undergraduate and graduate students in a range of disciplines Rather than being concerned with particular techniques of inquiry the interdisciplinary readings in this book address broad questions of research methodology They are designed to help researchers think critically and constructively about the epistemological and ethical implications of various approaches to research selection and research design evidence gathering techniques and publication of results A key theme running through the readings is the complex interrelationship between social power and inequality on the one hand and the production of knowledge on the other A second and related theme is the inseparability of research projects and methodologies from ethical and political values

**Ageing with a Lifelong Disability** Christine Bigby, 2004 This guide provides specialist knowledge about ageing with a disability in the context of the more mainstream knowledge about ageing processes Dr Bigby uses the concept of successful ageing as a framework in which to consider the issues and practicalities for older people with a pre existing disability

**Welfare Research** Fiona William, Jennie Popay, Ann Oakley, 2005-08-12 First published in 1998 This book attempts to contribute a new framework for social research in the welfare field As such it engages with new theories new approaches and new methods alongside a constructive critique of both the old and the new It attempts to illustrate approaches to conceptualization and operationalization within policy relevant research to reflect and explore both new thinking in social theory and in welfare policy as well as to maintain a connection with old concerns Our concern is with welfare research both theory and method broadly defined as the wider

landscape of policy and provision captured in the past at least by the notion of the welfare state The new thinking with which the book is primarily concerned involves a shift away from seeing people as the passive beneficiaries of welfare provided through state interventions and professional expertise and from seeing them as fixed single social categories of poor old single parent or as one dimensional objective socio economic classifications Housing Policy Paul Balchin, Maureen Rhoden, 2019-01-09 Now in its fourth edition this textbook has been completely revised to examine the current state of housing policy in the UK Exploring developments in housing policy made since Labour's 1997 electoral victory the book addresses current issues including the brownfield versus greenfield debate the phasing out of renovation grants the transfer of local authority housing to registered social landlords boom slump and boom in the owner occupied sector Other topics addressed range from regional policy and housing across the UK to social exclusion community care and homelessness

*Servicing the Middle Classes* Nicky Gregson, Michelle Lowe, 2005-08-03 Investigates the rise of a new servant class in response to demands by the middle class and the socio economic trends which have led to this and profound change this reflects in our concepts of motherhood class and gender relations **The New Family ?** Elizabeth Bortolaia Silva, Carol Smart, 1999-02-08 Concern and debate over changes to family life have increased in the last decade as a result of evolving employment patterns shifting gender relations and more openness about sexual orientation Most politicians and researchers have viewed these changes as harmful suggesting that the family as an institution should not alter The New Family challenges these dominant views Leading academics in the field consider current diverse practices in families and reveal the lack of balance between policies based on how families should be and how they actually are illustrating the need for a broader definition of family This book shows the need to take fluidity and change in family arrangements seriously rather

*Feminist Perspectives on Family Care* Nancy R. Hooyman, Judith Gonyea, 1995-08-29 Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women's lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of gerontology gender studies and social work this book is a must At the Heart of Work and Family Anita Iltis Garey, Karen V. Hansen, 2011 At the Heart of Work and Family presents original research on work and family by scholars who engage and build on the conceptual framework developed by well known sociologist Arlie Russell

Hochschild These concepts such as the second shift the economy of gratitude emotion work feeling rules gender strategies and the time bind are basic to sociology and have shaped both popular discussions and academic study The common thread in these essays covering the gender division of housework childcare networks families in the global economy and children of consumers is the incorporation of emotion feelings and meaning into the study of working families These examinations like Hochschild's own work connect micro level interaction to larger social and economic forces and illustrate the continued relevance of linking economic relations to emotional ones for understanding contemporary work family life Same Sex Intimacies Catherine Donovan, Brian Heaphy, Jeffrey Weeks, 2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other Same Sex Intimacies gives vivid accounts of the different ways non heterosexual people have been able to create meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies **The Double Life of the Family**

Michael Bittman, 2020-08-27 The modern family is under strain What we crave most from our families is intimacy warmth and self fulfilment but we often find this difficult to achieve We hold onto these expectations of our families even in the face of contradictory experiences so the family sustains a double life The authors explore the gap between our values expectations and yearnings and our experiences of everyday family life Family ritual political rhetoric advertising images and television family sitcoms are all windows onto what we want and expect our myths of the family Yet our aspirations for intimacy and self fulfilment are frustrated by unacknowledged inequalities between men and women and parents and children The inequalities have their origins in the division of domestic labour and in labour markets that disregard family responsibilities The Double Life Of The Family argues that our expectations of family life are more powerful than is usually believed and have enormous influence on both the way governments structure social policy and on the decisions made by ordinary people

**Women And Health** Sue Wilkinson, Celia Kitzinger, 2013-10-11 this comprehensive volume provides a broad sample of contemporary British feminist work on women and health It spans the disciplines of psychology sociology social policy social anthropology and economics and demonstrates the development of feminist theorizing and activism in these areas over the past decade Topics include global and national politics of women's health the psychologization of health sexuality and AIDS body image and pregnancy reproductive technology substance abuse breast cancer and the long term health problems of women Calling for a greater understanding of women and health the contributors acknowledge the gender based inequities

of women's experiences and address the need for social and political change in order to improve the health and health care of women across the lifespan      Deinstitutionalising Women Kelley Johnson, 1998-10-13 An ethnographic study of deinstitutionalisation explores the lives of women with intellectual disabilities
