When I refer to schools in the five essays on education that comprise *While There's Time* I have elementary and secondary schools in mind I approached this writing from the perspective of an insider so to speak as I have worked extensively in the field of education first as a high school teacher and now as a professor of education in a university These essays were prompted by dissatisfaction and a desire Increasingly over the last few years I have felt uncomfortable with the conventional wisdom in my field about how students ought to be educated It just didn't set right with me Labels vary for the mainstream thinking in the profession but let's call it a progressive or neo Deweyan after the philosopher John Dewey approach Some might refer to it simply as modern education Even though its advocates marshal compelling arguments in support of this set of ideas and practices what they are will be spelled out in the essays I was finding in my work in schools that it wasn't getting good enough results with students in the classroom and that in any case it simply didn't fit me as a person or as a professional my values my hopes for schools and students and this society So I felt an inner push to find an educational orientation that I could believe in more than the one that currently dominates in the field of education to the point that it could be called an orthodoxy or at least find something that complements it adds to it These essays represent the results of my quest I have concluded that the philosophical orientations that we most need to affirm and employ as bases for constructing school programs in our time are the very ones which are most often dismissed by professional educators namely conservatism and individualism In these essays I go into the specifics of conservative and libertarian orientations to education explore what all the talk about teaching democracy in the schools is about contrast sports and schools as settings and use the concept of personal authenticity in a discussion of the work of teaching What holds these five essays together is that they all are grounded in a conservative rather than liberal and individual centered rather than collectivist frame of reference These essays are self contained enough to be read out of order although I did line them up in the way that I think best presents my argument I hope what I offer here informs the debate in this country over the best route to take in educating our children I wrote this book with both general readers and professional educators in mind For general readers I hope what is here will provide them with a better understanding of how professional educators come at their work and thereby enable them to deal with school people more effectively and give them some things they can take into account when determining what ought to go on in their children's education or in schools generally For people in the profession who read this book teachers and administrators those in training to become teachers and so on I believe these writings will provide them with a clearer understanding of the predominant thinking in their field a good way to understand anything is to compare it with something that contrasts with it I would presume and hope that for some educators and educators to be this book will provide them with ideas they can use to guide their work Much of what

follows is expressed in the first person I thought that if I brought myself into this book it would encourage readers to bring themselves into it I would like readers to see these writings as my half of a conversation I want them to respond critically to what I have written and extend it take it farther than I have been able to and I don't think they have to be active in the field of education to be able to do that I want readers to decide how if at all what I write changes the way they look at things and what they a

*Is There Time* David J. Whicker, 2023-10-10 We live in a culture where there is no time for ourselves We need to slow down and make time for ourselves Make time for the Lord Everybody is self sufficient in everything these days We need to have the right attitude in our service to the Lord God's strategy for successful living character is more important than intelligence The Bible is God's word to man not man's word about God God's word reveals the purpose and plan for man Satan is conditioning us for what he is bringing in the future to make it look acceptable God meant for sex to build a bond between a man and a woman in marriage but man can pervert anything Sex is one of the most powerful things humans have to deal with The seventy weeks of Daniel the cross is at the end of the sixty two weeks the cross is at the beginning of the seven weeks and the cross is in the middle of the final week The cross is what ties this prophecy together The church age was put into place to reach the lost Christ had five things to say about each of the seven church ages description commendation criticism instruction and promises Before Christ is the Tribulation period After Christ is the End Time Tribulation period The Great Tribulation starts with the trumpets and goes until the return of Christ The purpose of the Bible is to reveal Jesus Christ as the Messiah Heaven and hell are real places With one we will always be with God and with the other we will always be separated from God Both will be forever

*Is There Time in Heaven?* Isaac Newton Corns, 2017-05-03 We are going to look at a few verses in the bible to find out if there is time in heaven Also we will answer the question What does the clock look like in heaven compared to earth clock

**Thinking, Childhood, and Time** Walter Omar Kohan, Barbara Weber, 2020-10-06 Thinking Childhood

and Time Contemporary Perspectives on the Politics of Education is an interdisciplinary exploration of the notion of childhood and its place in a philosophical education Contributors consider children s experiences of time space embodiment and thinking By acknowledging Hannah Arendt s notion that every child brings a new beginning into the world they address the question of how educators can be more responsive to the Otherness that childhood offers while assuming that most educational models follow either a chronological model of child development or view children as human beings that are lacking The contributors explore childhood as a philosophical concept in children adults and even beyond human beings Childhood as a forgotten dimension of the world Contributors also argue that a pedagogy that does not aim for an exodus of childhood but rather responds to the arrival of a new human being responsibly dialogically fosters a deeper appreciation of the newness that children bring in order to sensitize us for our own Childhood as adults as well and allow us to welcome other forms of childhood in the world As a whole this book argues that the experience of natality such as the beginning of life is not chronologically determined but rather can occur more than once in a human life and beyond Scholars of philosophy education psychology and childhood studies will find this book particularly useful Somewhere Out There - Time Travel Romance

Doody,Kim Paffenroth,2012-07-10 Augustine of Hippo was a philosopher as well as theologian bishop and saint He aimed to practice philosophy not simply as an academic discipline but as a love for divine wisdom pervading everything in his life and work To inquire into Augustine and philosophy is thus to get to the heart of his concerns as a Christian writer and uncover some of the reasons for his vast influence on Western thought This volume containing essays by leading Augustine scholars includes a variety of inquiries into Augustine s philosophy in theory and practice as well as his relation to philosophers before

and after him It opens up a variety of perspectives into the heart of Augustine's thought He frequently reminds his readers philosophy means love of wisdom and in that sense he expects that every worthy impulse in human life will have something philosophical about it something directed toward the attainment of wisdom In Augustine's own writing we find this expectation put into practice in a stunning variety of ways as key themes of Western philosophy and intricate forms of philosophical argument turn up everywhere The collection of essays in this book examines just a few aspects of the relation of Augustine and philosophy both in Augustine's own practice as a philosopher and in his interaction with others The result is not one picture of the relation of Augustine and philosophy but many as the authors of these essays ask many different questions about Augustine and his influence and bring a large diversity of interests and expertise to their task Thus the collection shows that Augustine's philosophy remains an influence and a provocation in a wide variety of settings today

Wittman, 2021-07-28 It is the summer of 1945 the last and very dangerous days of World War II The Office of Strategic Services is in close cooperative contact with Ho Chi Minh and the fighting cadre of the Viet Minh working against the Japanese In the closing months of the war the OSS parachute a team of special operations soldiers into Tonkin northern Viet Nam Led by Major John Guthrie and his second in command Captain Edouard Parnell both experienced officers from their earlier assignments in occupied France and Belgium

the team is tasked with working with Ho Chi Minh against the Japanese in the midst of various groups vying for control of Indochina Guthrie and his team have to adapt to the entirely different context of Vietnamese politics in order to encourage communist operations against the Japanese Guthrie in particular struggles with both his personal and professional conflicts The relationship that Guthrie and the rest of the OSS team develops with the Viet Minh leadership is of distinct annoyance to French ambitions to regain control of their colony Indochina Based on the little known true story of American and Viet Minh collaboration in 1945 this novel challenges the later accepted dogma of both those supporting and those opposing the American role in the Viet Nam conflict This novel notes how what is seen at a later time is often inadequate to understand what actually went on Its contemporary relevance is simply a mirror of what is always the case in international affairs today s enemies can and may be tomorrow s friends and most importantly the reverse is true also **Spreading Indra's Net** D. This diversity not only highlights individual authors' contributions but also sheds light on the evolution of Roman society. Yale Required Reading: Collected Works Vol 2 is an essential resource for anyone wishing to explore the multifaceted perspectives of Roman literature.
