Indian Clubs and How to Use Them - A New and Complete Method for Learning to Wield Light and Heavy Clubs, Graduated from the Simplest to the Most Complicated Exercises Lemaire Ferdinand, 2016-12-28 Indian clubs or Iranian clubs belong to a category of exercise equipment used for developing strength and in juggling. In appearance they resemble elongated bowling pins and are commonly made out of wood. They come in all shapes and sizes, however, ranging from a few pounds each to fifty pounds and are commonly swung in certain patterns as part of exercise programs. They were often used in class formats predominantly in Iran where members would perform choreographed routines led by an instructor remarkably similar to modern aerobics classes. This work is a reprint of a classic publication on the use of Indian Clubs and along with a brand new introduction includes a series of exercises to help you get in shape the old fashioned way.
