Scheidemann's Keyboard Music Pieter Dirksen,2017-07-05 One of the most remarkable tales of recent resurrections in the field of early keyboard music concerns the music of Heinrich Scheidemann c 1595 1663 Long considered a minor master overshadowed by such figures as his teacher Jan Pieterszoon Sweelinck or his fellow student Samuel Scheidt a number of major source discoveries made in the second half of the twentieth century the most important one being the discovery of the Zellerfield tablatures have gradually raised his stature towards what it should now be namely that of the paramount figure in North German organ music of the first half of the seventeenth century equalled only by Buxtehude in the second half Pieter Dirksen one of the leading scholars on early German keyboard music shows how Scheidemann was a central personality in the rich musical life of Hamburg and stood on friendly terms with colleagues such as Jacob and Johannes Praetorius Ulrich Cernitz Thomas Selle Johann Schop and Johann Rist The sources for Scheidemann are for the most part contemporary and stem from all periods of his career and beyond that until one or two decades after his death His keyboard music was never published in his lifetime but circulated widely within professional circles Dirksen considers the transmission of Scheidemann s music as a whole in Part One where each source is analyzed individually and the repertoire itself is examined in Part Two A number of specialized studies including a detailed investigation into the background of one of the sources as well as addressing questions of organology an account of the famous Catharinen organ as it was during Scheidemann s era and performance practice a study of the fingering indications and observations on registration practice form Part Three A wealth

of appendices also detail a relative chronology of the music a geographic overview of the transmission and two hitherto unpublished fragmentarily transmitted Scheidemann pieces The book will therefore a

Interpreting Historical Keyboard Music Dr Andrew Woolley, Dr John Kitchen, 2013-12-28 Research in the field of keyboard studies especially when intimately connected with issues of performance is often concerned with the immediate working environments and practices of musicians of the past An important pedagogical tool the keyboard has served as the workbench of countless musicians over the centuries In the process it has shaped the ways in which many historical musicians achieved their aspirations and went about meeting creative challenges In recent decades interest has turned towards a contextualized understanding of creative processes in music and keyboard studies appears well placed to contribute to the exploration of this wider concern The nineteen essays collected here encompass the range of research in the field bringing together contributions from performers organologists and music historians Questions relevant to issues of creative practice in various historical contexts and of interpretative issues faced today form a guiding thread Its scope is wide ranging with contributions covering the mid sixteenth to early twentieth century It is also inclusive encompassing the diverse range of approaches to the field of contemporary keyboard studies Collectively the essays form a survey of the ways in which the study of keyboard performance can enrich our understanding of musical life in a given period
