Lefthanded Dreams:

Left-Handed Dreams Francesca Duranti, 2013-06-25 An Italian professor seeks to understand her own mind and heart An elegant and engaging writer who treats serious questions with wit and grace The Wall Street Journal Martina Satriano an Italian professor of cultural history at New York University observes the great American city with admiration and gratitude but from an outsider's perspective She is a sublime cook she loves her job she has occasional erotic adventures but Martina is a lonely woman whose real passion is a machine that she has built to assist in her cultural research and which she uses to record her dreams These recordings infused with the memories of her childhood and early career begin to reveal a tangle of second guesses and insecurities about the path she has chosen Then when she returns briefly to Italy to attend her mother's funeral Martina discovers that she may have been born left handed but was trained to be right handed Back in New York struggling with this new revelation this possible suppression of an identity she meets a high culture Italian official who tempts her to return to Italy with a prestigious job offer While weighing her options she quite unexpectedly meets up again with her first great love a man she has not seen in more than twenty years Just as in Duranti's internationally acclaimed best selling *The House on Moon Lake* the question of destiny is at the heart of *Left Handed Dreams* Can Martina resist the urge to treat life as a puzzle that she can somehow deconstruct and solve Indeed by the end of this taut and resonant novel this expatriate must learn the essence of *natalezza* an Italian word that means a way of being of feeling without always being aware of one's being Her story infused with all the luscious food she prepares and enjoys with the men who come into her life makes this a delectable provocative read [Right Hand, Left Hand](#) I. Left-Handed in an Islamic World John P. Mason, 2017-01-25 A social anthropologist recounts his time living and working in the Middle East In *Left Handed in the Islamic World* the author a social anthropologist shares stories of Arabs he met and lived with covering a period from 1968 to 2012 Lawrence of Arabia serves as an inspiration for the journey Throughout the book the author calls upon a significant amount of history to give a background and to contextualize the stories The stories describe the social lives of Arabs in a variety of places those living in an oasis village others in a mid sized city and yet others in a major metropolis Some of the places are conflict or post conflict zones One is in a state of war The countries include Libya and Egypt for longer periods and many other Arab countries for shorter visits In most of the stories the Arabs are Muslims though in some they are Christians The book presents Islam in its many shapes and different contexts At its best Islam will be seen as lived by Libyan Desert oasis villagers in creating a harmonious well lived life In other cases Islam will be glimpsed in ways not so favorable especially in the treatment of non Muslim Arabs living in Islamic societies The author touches on a few theories as to why conflict is endemic to the Middle East But none of these theories accounts fully for the recent emergence of the egregious behavior of such self acclaimed groups as the Islamic State or ISIS who pervert the religion to achieve their renewed Caliphate prophecies Being left handed in a right handed Islamic World was for the author a metaphor for some of the complexities of living in that World as a development anthropologist and also when developing programs as an international development consultant for firms tied to USAID and the World Bank Stories of success and folly of such programs in the Middle East are instructive for development practitioners The larger context raises questions about the Middle East and its perennial involvement in conflict including the Arab Israeli situation and the place of ISIS and al Qaeda Dr Mason s book is just plain fun to read It is interesting amusing and informative without being annoyingly dense complicated or tedious It is written in a voice that is human and recognizable candid and friendly rather than technical and scientific It is refreshingly accessible to a broad audience while being equally interesting for the academic anthropologist or students of social science international development or Middle Eastern studies The book has just the right mix of personal story situational context cultural and historical description to paint a realistic and holistic picture of life in seemingly exotic lands made more familiar through this narrative It does a good job of humanizing people who may well be very different from the reader Adam Koons PhD Applied Anthropologist Overseas Humanitarian Assistance
