Leipzig Connection Basics In Education:

The Leipzig Connection Paolo Lionni, Lance J. Klass, 1980 In the shadows of the Bismarcks totalitarian Germany in 1875 a little known medical researcher laid the groundwork for a subject that in modern times was to bring American education to its knees behavioral psychology A latter day disciple B F Skinner later wrote the book Beyond Freedom and Dignity arguing that such ancient conceptions as these are luxuries our brave new world can no longer afford Another ardent follower John Dewey the Father of American education took the new radical German redefinition of education to mean the reprogramming of young brains and nervous systems and applied it to his self appointed task of creating in America the ideal socialist state John D Rockefeller for purposes of his own bankrolled what was in effect a hostile take over of our educational establishment The Leipzig Connection is a startling account of how and why these things came about It lays out in concise detail the story of the development of the educational malaise which we have unknowingly dropped our children into explaining not only declining SAT scores and the phenomenon of high school graduates who are barely literate but also symptoms even more sinister violence prostitution and drug dealing in the schools the self mutilation of tattooing and body piercing and teenage suicide

The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling

Basics of Religious Education Martin Rothgangel, Thomas Schlag, Friedrich Schweitzer, Gottfried Adam, Rainer Lachmann, 2014-05-14 This volume offers an introduction to all questions of teaching Religious Education as a school subject and as an academic discipline related to this subject The chapters cover most of the aspects that religion teachers have to face in their work as well as the theoretical background necessary for this task The volume is a textbook for students and teachers of religious education be it in school or in an academic context who are looking for reliable information on this field The book has proven its usefulness in German speaking countries This volume is the English translation of the German Compendium of Religious Education edited by Gottfried Adam and Rainer Lachmann

The present English version is based on the 2012 edition which aims for a most current representation of the field. The background of the book is Protestant but its outlook is clearly ecumenical and questions of interreligious education are considered in many of the chapters. The compendium continues to be widely used in Germany, Austria and Switzerland as an introduction to the field and as a handbook for students who are preparing for their final exams. The English edition makes this compendium available to students and colleagues in other countries.

How to "Fast-Forward" Changes in Our Lives Using Facebook Donald A. Dahlin D.C., 2014-05-21

Can We Restore American Standards? The truth is America has been systematically corrupted by several past Governments; there are valid DVDs by PBS and other sources that you will find in this book to explain how this came about. But it goes much earlier than that. It goes back into the 1800s when Thinking men considered ancient beliefs of the Veda, Buddhism, Jesus Christ saving our souls and Darwin's Evolution, trying to confront Reality. Germany, a forerunner in science, had Wilhelm Wundt, a psychologist and a leader with a new understanding of the reality of Darwin and evolution, declared in a party of interested persons that Man is only an animal and has no soul that can be demonstrated the same with God and Religion; both of them are the myths of the old people. Man is an evolved chimpanzee and should be treated like an animal with a brain and nervous system and to be observed for abnormal behavior and treated as such. Russian observers agreed and together with Germany formed the National Education NEA of teachers and the birth of psychiatry. There is more but it is in my book and the source is a well distinguished school teacher Samuel L. Blumenfeld and author of *N E A Trojan Horse in American Education: The First Full Length Expose of The National Education Association 1949-1984*. Since then American psychiatry has invaded our schools, colleges, universities, State and Federal Governments and you will learn how and what they did to our Country. They have sought to destroy our education, religion, morals, field of medicine, the laws and our courts and today we have illiteracy, mental illness, drug addiction, adultery, living together without marriage, responsibility, prostitution, mass shootings of family, teachers and friends and often themselves. And etc. Again I repeat: Can We Restore American Standards? If I provide you with all the tools or resources that will help you do the job, would you be willing to become a Problem Solver? A person desiring to be a Problem Solver would be dealing with his/her environment with one or more persons and also promoting the IDEA through his/her Facebook connections so it could become world wide, perhaps like telepathy. But read the two pages of the Contents and see for yourself the huge scope of help you will receive for common problems of illiteracy, what causes disease, how to attain optimum health and happiness. The persons you help, your children and their future generations will all appreciate your help. So will I.

The Ruling Elite Deanna Spingola, 2012. The U.S. government complicit with the well connected corporations since the so called Civil War continues to wage war and destruction. Lincoln's revolutionary war supported by Marx and Engels caused at least 618,222 and perhaps as many as 700,000 deaths including about 50,000 Confederate civilians. Soldiers who were fighting, dying and killing during that war were in training for future
