Finders Weepers:

All In Mark Batterson, 2013-09-24 Christians who want to take the next step in their faith walk need look no further It s time to ante up and go all in with God The Gospel costs nothing You can t earn it or buy it It can only be received as a free gift which is compliments of God s grace It doesn t cost anything but it demands everything It demands that we go all in putting all that we have into God s hands But why do so many Christians hesitate to do that And when did we start believing that the Gospel is an insurance plan We re afraid that if we go all in that we might miss out on what life has to offer But Jesus did not die to keep us safe He died to make us dangerous So let s step out of spiritual no man s land and kneel at the foot of the cross of Christ and surrender to his lordship It s time to dethrone yourself and enthrone Christ as king and Pastor Mark Batterson is here to show you how Using his customary vivid contemporary illustrations as well as biblical characters like Shamgar Elisha Jonathan and even Judas you will be challenged to trade what Batterson calls inverted Christianity for true discipleship as you strip away your excuses and inhibitions and follow God completely It s now or never Are you ready to go all in and all out for God Also available *All In* student edition video curriculum and study guide Property and the Law of Finders

Robin Hickey, 2010-01-20 Are finders keepers This most simple of questions has long evaded a satisfactory legal answer Generally it seems to have been accepted that a finder acquires a property right in the object of her find and can protect it from subsequent interference but even this turns out to be the baldest statement of principle resting on obscure and confused authority This first full length treatment of finders sets them in their legal historical context and discovers a fascinating area of law lying at the crossroads of crime obligations and property That on the same facts a finder might be thief bailee and or property right holder has clouded our conceptual analysis and prevented us from stating simply our rules about finding Nonetheless when the applicable doctrines and policies of our property law particularly the central concept of possession are explored and understood in the light of countervailing rules of crime and tort we can argue confidently that despite centuries of doubt and confusion English law has succeeded in producing a body of law that is theoretically and practically coherent *Property and the Law of Finders* makes this argument and will appeal to anyone specifically interested in the law of personal property and also to those with broader concerns about the evolution of common law concepts and their ability to yield workable practical solutions
