The Spirit within Me Carol A. Newsom, 2021-10-12 The first full length study of the evolution of self and agency in ancient Israelite anthropology Conceptions of the self have received significant recent attention in philosophy anthropology and cultural history Scholars

argue that the introspective self of the modern West is a distinctive phenomenon that cannot be projected back onto the cultures of antiquity While acknowledging such difference is vital it can lead to an inaccurate flattening of the ancient self In this study Carol A Newsom explores the assumptions that govern ancient Israelite views of the self and its moral agency before the fall of Judah as well as striking developments during the Second Temple period She demonstrates how the collective trauma of the destruction of the Temple catalyzed changes in the experience of the self in Israelite literature including first person singular prayers notions of self alienation and emerging understandings of a defective heart and will Examining novel forms of spirituality as well as sectarian texts Newsom chronicles the evolving inward gaze in ancient Israelite literature unveiling how introspection in Second Temple Judaism both parallels and differs from forms of introspective selfhood in Greco Roman cultures

Cognition In and Out of the Mind Giovanni Bennardo, Victor C. de Munck, Stephen Chrisomalis, 2024-06-30 This edited collection presents an agenda for the interdisciplinary study of anthropology and cognitive science It consists of fifteen chapters written by international experts on the relationship between culture and

cognition This volume is unique in that it includes both inside i.e. shared mental templates and outside i.e. extended embedded enactive and ecological theories of cognition The contributors come from the diverse disciplinary fields of anthropology linguistics archaeology and cognitive science The aim is to investigate the mental production of shared knowledge goals and desires around which human social life revolves The coverage spans cultural and linguistic evolution the importance of local histories and the role of cultural models to understand and interact with the world Drawing on cultural model theory this volume is an invaluable resource for linguists cognitive scientists anthropologists and other social scientists willing to explore and understand how the sharedness of culture can bond us all together across relative cultural differences and misperceived divisions

Discourse Analysis of Language and Literacy Events in Educational Settings David Bloome, Stephanie Power-Carter, W. Douglas Baker, Maria Lucia Castanheira, Minjeong Kim, Lindsey W. Rowe, 2022-03-30 This book provides a comprehensive introduction to the use of microethnographic discourse analysis for researching theorizing and reconceptualizing the uses of language and literacy in educational settings The authors apply an ethnographic perspective to discourse analysis to emphasize how teachers and students use spoken and written language to construct knowledge opportunities for learning and social relationships The authors demonstrate how microethnographic discourse analysis at different levels of scale can provide deeper understandings into the nuanced complex social interactions and relationships that exist in and across educational contexts including meaning making literacy practices power relations and the social construction of personhood Each chapter offers philosophically and theoretically grounded principles for using microethnographic discourse analysis and example cases that reflect the principles presented Ideal for researchers teacher educators and teachers this essential text on discourse analysis language and literacy provides a grounding to further examine critical questions challenging educators

Language and Social Cognition Hanna Pishwa, 2009 In a collection of 16 papers eminent scholars from several disciplines present diverse and yet cohering perspectives on the expression of social knowledge its acquisition and management Hence the volume is an attempt to view the social functions of language in a novel systematic way Such an approach has been missing due to the complexity of the matter and the emphasis on purely cognitive properties of language The volume starts with a presentation of overarching issues of the social nature of humans and their language providing strong evidence for the social fundamentals of human nature and their reflection in language and culture The second section demonstrates how social functions can be displayed in discourse by using language play and humor irony and attributions as well as references to social schemas The chapters in the third part examine a wide range of particular linguistic elements carrying social cognitive functions An important finding is that social cognitive functions have to be inferred on the basis of social knowledge frequently with the help of non verbal cues since languages offer only few direct expressions for them In other words linguistic devices used to express social content tend to be multifunctional Interestingly this multifunctionality does not prevent their rapid recognition The volume presents valuable information to

linguists by widening the cognitive linguistic framework and by contributing to a better understanding of the role of pragmatics. It is also beneficial to social and cognitive psychologists by offering a broader view on the encoding and decoding of social aspects. Finally, it offers a number of fruitful ideas to students of cultural and communication studies.

Business Negotiations in ELF from a Cultural Linguistic Perspective Milene Mendes de Oliveira, 2019-11-18. Some of the most frequent questions surrounding business negotiations address not only the nature of such negotiations but also how they should be conducted. The answers given by business people from different cultural backgrounds to these questions are likely to differ from the standard answers found in business manuals. In her book, Milene Mendes de Oliveira investigates how Brazilian and German business people conceptualize and act out business negotiations using English as a Lingua Franca. The frameworks of Cultural Linguistics, English as a Lingua Franca, World Englishes, and Business Discourse offer the theoretical and methodological grounding for the analysis of interviews with high-ranking Brazilian and German business people. Moreover, a side study on e-mail exchanges between Brazilian and German employees of a healthcare company serves as a test case for the results arising from the interviews and helps understand other facets of authentic intercultural business communication. Offering new insights on English as a Lingua Franca in international business contexts, *Business Negotiations in ELF from a Cultural Linguistic Perspective* simultaneously provides a detailed cultural conceptual account of business negotiations from the viewpoint of Brazilian and German business people and a secondary analysis of their pragmatic aspects.

Intermarriage from Central Europe to Central Asia Adrienne Edgar, Benjamin Frommer, 2020-06-01. *Intermarriage from Central Europe to Central Asia* examines the practice and experience of interethnic marriage in a range of countries and eras from imperial Germany to present-day Tajikistan. In this interdisciplinary volume

Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians. The contributors explore the phenomenon of intermarriage both from the top down in the form of state policies and official categories and from the bottom up through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree. Contributors address the tensions between state ethnic categories and the subjective identities of individuals, the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes and the role of intermarried couples and their descendants in imagining supranational communities. The first of its kind, *Intermarriage from Central Europe to Central Asia* is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and Eurasia. **A Companion to Cognitive Anthropology** David B. Kronenfeld, Giovanni Bennardo, Victor C. de Munck, Michael D. Fischer, 2015-12-14 This new Companion traces the development of cognitive anthropology from its beginnings in the late 1950s to the present and evaluates future directions of research in the field. In 29 contributions from leading anthropologists there is an overview of cognitive and cultural structures, insights into how cognition works in everyday life and interacts with culture, and examples of contemporary research. *A Companion to Cognitive Anthropology* is essential for anyone interested in the questions of how culture shapes cognitive processes. **Cultural Anthropology** JoAnn Jacoby, Josephine Kibbee, 2007-05-30 The latest edition of a major literature guide provides citations and informative annotations on a wide range of reference sources including manuals, bibliographies, indexes, databases, literature surveys and reviews, dissertations, book reviews, conference proceedings, awards, and employment and grant sources. The organization closely follows that of the 1st edition with some much needed additions relating to online resources and new areas of interest within the field such as forensic anthropology, environmental anthropology, and Lesbian, Bisexual, Gay, and Transgendered Anthropology. Separate sections focus on individual subfields as well as emerging concerns such as ethical issues in cultural heritage preservation. For academic and research library collections as well as faculty members in anthropology, area studies, and intercultural studies. [What Work Means](#) Claudia Strauss, 2024-06-15 *What Work Means* goes beyond the stereotypes and captures the diverse ways Americans view work as a part of a good life. Dispelling the notion of Americans as mere workaholics, Claudia Strauss presents a more nuanced perspective. While some live to work, others prefer a diligent 9 to 5 work ethic that is conscientious but preserves time for other interests. Her participants often enjoyed their jobs without making work the focus of their life. These findings challenge laborist views of waged work as central to a good life as well as post-work theories that treat work solely as exploitative and soul-crushing. Drawing upon the evocative stories of unemployed Americans from a wide range of occupations from day laborers to corporate managers, both immigrant and native born, Strauss explores how diverse Americans think about the place of work in a good life, gendered meanings of breadwinning, accepting financial support from family, friends, and the state, and what the ever-elusive American dream means to them. By considering how post-Fordist unemployment experiences

diverge from joblessness earlier What Work Means paves the way for a historically and culturally informed discussion of work meanings in a future of teleworking greater automation and increasing nonstandard employment **New Narratives of Disability** Sara E. Green, Donileen R. Loseke, 2019-11-25 This volume seeks to answer the call for richer more diverse understandings of disability through questions about narrative frameworks in disability research Narrative is a omnipresent meaning producing communication form in social life that is both cultural and personal Healing Holidays Harish Naraindas, Cristiana Bastos, 2016-03-22 This volume on medical tourism includes contributions by anthropologists and historians on a variety of health seeking modes of travel and leisure It brings together analyses of recent trends of medical tourism such as underinsured middle class Americans traveling to India for surgery pious Middle Eastern couples seeking assisted reproduction outside their borders or consumers of the exotic in search of alternative healing with analyses of the centuries old Euro American tradition of traveling to spas Rather than seeing these two forms of medical travel as being disparate the book demonstrates that as noted in the introduction what makes patients itinerant in both the old and new kind of medical travel is either a perceived shortage or constraint at home or the sense of having reached a particular kind of therapeutic impasse with the two often so intertwined that it is difficult to tell them apart The constraint may stem from things as diverse as religious injunctions legal hurdles social approbation or seasonal affliction and the shortage can range from a lack of privacy of insurance technology competence or enough therapeutic resources that can address issues and conditions that patients have If these two intertwined strands are responsible for most medical tourism then which locales seem to have therapeutic resources are those that are either natural in the form of water or climate legal in the form of a culture that does not stigmatise patients or technological and professional in the form of tests equipment or expertise unavailable or affordable at home or in the form of novel therapeutic possibilities that promise to resolve irresolvable issues This book was originally published as a special issue of Anthropology Medicine Rethinking Psychological Anthropology Philip K. Bock, Stephen C. Leavitt, 2018-11-02 After over three decades of continual publication in multiple editions the Third Edition of Rethinking Psychological Anthropology now with coauthor Stephen Leavitt describes the latest interests concepts and approaches in the field with the inclusion of four new chapters and updates to earlier topics The premise of the previous editions remains that all anthropology is psychological and that the interplay between anthropological methods and the psychological theories existing in different times is dialectical Psychological anthropologists have grappled with changing trends in both disciplines including psychoanalytic holistic cognitive interpretive and developmental approaches It is important to appreciate these currents of thought to understand the state of the field today This text is thus a guide to that history along with a critique that may lead to a new synthesis It is an ideal choice for courses in psychological anthropology cross cultural psychology and the history of anthropology
