Strohmaier,2009-03-28 David Strohmaier s long career as a

firefighter has given him intimate knowledge of wildfire and its complex role in the natural world of the American West. It has also given him rare understanding of the painful losses that are a consequence of fire. Strohmaier addresses our ambivalence about fire and the realities of loss to it of life human and animal of livelihoods of beloved places. He also examines the process of renewal that is yet another consequence of fire from the infusion of essential nutrients into the soil to the sprouting of seeds that depend on fire for germination to the renewal of species as the land restores itself. Ultimately according to Strohmaier living with fire is a matter of choices of seeing the connection between loss on a personal scale and loss on a landscape scale in relationship with persons and in relationship to and with the land. We must cultivate a longer perspective he says accepting that loss is a part of life and that humility and empathy and care are not only core virtues between humans but are also essential virtues in our attitudes and actions toward the earth. *Drift Smoke* is a powerful and moving meditation on wildfire by someone who has seen it in all its terror and beauty who has lost colleagues and beloved terrain to its ferocity and who has also seen the miracle of new life sprouting in the ashes. The debate over the role and control of fire in the West will not soon end but Strohmaier's contribution to the debate will help all of us better appreciate both the complexity of the issues and the possibilities of hitherto unconsidered solutions that will allow us to inhabit a place where fire is a natural and needed part of life.
