Greek religious institutions in Alexandria and the towns and villages of the Nile Delta and Valley in which commemorative dedications to divinities of temples and statues by the monarchs and by private individuals are numerous and prominent In a period shaped by the interplay between Egyptian and Greek culture the existence of public and private inscribed monuments was a vital element of dynastic control The unique insights offered by this thorough examination of the epigraphical landscape of Ptolemaic Egypt are invaluable to understanding the ways in which the Greek immigrant rulers and population established and reinforced their social and cultural dominance of an indigenous population which had its own long established and traditional written and iconographic mode of public and private communication I'm Not the Hero!
