Tumbarello,Mr.Yiqun Wu,2012-06-01 Regional integration of Pacific Island countries PICs with Australia New Zealand and emerging Asia has increased over the last two decades PICs have become more exposed to the region s business cycles and spillovers from regional economies are more important for PICs than from advanced economies outside the region While strong linkages with Asia would help in the event of a global downturn PICs remain particularly vulnerable to global commodity price shocks In this paper we use a Vector Error Correction Model VECM for each PIC to gauge the impact of global and regional growth spillovers The analysis reveals that the impact on PICs growth from an adverse oil shock would be substantial and in some cases even larger than from a negative global demand shock We also assess the spillovers to the financial sector from the deterioration of the global outlook PICs should continue to rebuild policy buffers and implement growth oriented structural reforms to ensure sustained and inclusive growth **The Working Press of the Nation** ,1991

Visualizing the Nation Joan B. Landes,2018-08-06 Popular images of women were everywhere in revolutionary France Although women s political participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership s suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of

nationalism and citizenship Her book demonstrates as well that the image is often a site of contestation as individual viewers may respond to it in unexpected even subversive ways **Sessional Papers** Ontario.
