Insight Headline: **Rural Africans invented a more trustworthy digital payment system, using existing SMS networks** paper headline?

## Insight Context:

What's the problem/opportunity behind the insight?  
What is the cause and effect of this insight?

While conducting field research, we discovered that rural Africans don't use our banking service because they made their own. They use a service that allows them to buy and transfer money via SMS and one-time use data plans. While they have 4g, SMS is more reliable. Any solution we offer will have to include SMS to earn their trust.

## Supporting Evidence:

What facts or quotes inform this insight?

Field study participants ranked our service 4.5/10 while they ranked their own as 8.5/10

*"Yes, we know about your service, but it doesn't make sense for us."*

*Calm Abiding and Special Insight* Geshe Gedun Lodro, 1998-01-01 *Calm Abiding and Special Insight* presents an intimate and detailed picture of the intricacies of meditation so vividly that the reader is drawn into a Tibetan worldview of spiritual development. Geshe Gedun Lodro, one of the foremost scholars of Tibet, reveals methods for overcoming afflictive states and disorders to create a mind which is stable, calm, and alertly clear. This book illustrates the mind's potential for profound transformation. The dangers of not recognizing states contrary to successful meditation are great, and the possibilities of implementing the wrong antidote or of overextending an appropriate one until it becomes counterproductive are many. Through such detail, Geshe Gedun Lodro makes vividly clear a Tibetan approach to meditative transformation. This is a completely revised new edition of *Walking Through Walls*.
